South Gloucestershire At War Britain In Old Photographs S:

South Gloucestershire at War Peter Gill,1995 This addition to the Britain in Old Photographs series brings together a collection of black and white pictures spanning the late 19th and early 20th centuries Drawn from family albums local collections and professional photographers they show the way things were and how they have changed **War pictures.**

The story of the war told in brief South African war,1900 [Whitaker's Books in Print](#) ,1998 [Family Britain, 1951-1957](#) David Kynaston,2010-12-01 As in his highly acclaimed *Austerity Britain* David Kynaston invokes an astonishing array of vivid intimate and unselfconscious voices to drive his narrative of 1950s Britain The keen eyed Nella Last shops assiduously at Barrow Market as austerity and rationing gradually give way to relative abundance housewife Judy Haines relishing the detail of suburban life brings up her children in Chingford the self absorbed civil servant Henry St John perfects the art of grumbling These and many other voices give a rich unsentimental picture of everyday life in the 1950s Well known figures are encountered on the way such as Doris Lessing joining and later leaving the Communist Party John Arlott sticking up on *Any Questions* for the rights of homosexuals and Tiger s Roy of the Rovers making his goal scoring debut for *Melchester* All this is part of a colourful unfolding tapestry in which the great national events the Tories returning to power the death of George VI the Coronation of Queen Elizabeth the Suez Crisis jostle alongside everything that gave Britain in the 1950s its distinctive flavour Butlin s holiday camps Kenwood food mixers Hancock s Half Hour Ekco television sets Davy Crockett skiffle and teddy boys Deeply researched David Kynaston s *Family Britain* offers an unrivalled take on a largely cohesive ordered still very hierarchical society gratefully starting to move away from the painful hardships of the 1940s towards domestic ease and affluence [The Historic King Arthur](#) Frank D. Reno,2007-03-20 Who was King Arthur How did the story originate Through careful research of the many primary documents a picture of the true Arthur can in fact be set down He reached power shortly after the Romans evacuated Britain at the end of the fifth century and died at the Battle of Camlann He became king at 15 under the name of Ambrosius Aurelianus and fought against the Saxons on the mainland as Riothamus thus explaining the regeneration motif so closely tied to the mythical Arthur This study reveals that the integrity and ideals central to Arthurian myth were very much a part of the real Arthur [The British Journal of Photography](#) William Crookes,T. A. Malone,George Shadbolt,J. Traill Taylor,William Blanchard Bolton,Thomas Bedding,1919 **Edwards's Military Catalogue** Francis Edwards (Firm),1908 *Coal Cultures* Derrick Price,2020-08-19 Coal is the commodity that powered the technologies that made the modern world It also brought about unique communities marked by a high degree of social solidarity and self help Mining was central to working class life drawing rural populations into industrial labour but it often took place in picturesque landscapes so that its black spoil heaps became a central symbol of the degradation of pastoral life by the demands of an extractive industry Throughout Europe and the USA photographers have pictured the characteristic landscapes of the industry and continue to do so as strip mining devastates huge areas of land Not only

landscape photography but also documentary portraiture photojournalism and art photography have been used in order to portray mines and miners This book presents three interlinked strands of investigation The first is the way in which the production of coal created paradigmatic communities grounded in particular landscapes The second concerns the role of photography in exploring delineating and critiquing mining communities This in turn involves an examination of the aesthetic and social characteristics of a number of genres of photography Lastly it considers the growth and decline of these sites the geographic shift of the industry to other places and the re presentation of traditional localities through the lens of the heritage industry and industrial tourism

Sources In British Political History, 1900-1951 Chris Cook, Jeffrey Weeks, 1978-10-05 From 1970 to 1977 a major project to uncover source material for students of contemporary British history and politics was undertaken at the British Library of Political and Economic Science Fiananced by the Social Science Research Council and under the direction of Dr Chris Cook this project has attempted a unique and systematic operation to locate and then to make readily available those archives that provide the indispensable source material for the contemporary historian This volume the fifth in the series provides a guide to the papers of propagandists who were influential in British public life Included in this volume are the papers of such persons as newspaper editors leading economists social reformers socialist thinkers trade unionists industrialists and a variety of theologians and philanthropists In all this volume not only completes the findings of the project but opens up the archive sources of a hitherto neglected area of research into contemporary social and political history
