Southern Black Leaders Of The Reconstruction Era Blacks In The New World:

Southern Black Leaders of the Reconstruction Era Howard N. Rabinowitz, 1982 Essays examine the lives of black leaders of the Reconstruction era and their stands on major issues *Black Property Owners in the South, 1790-1915* Loren Schweninger, 1990 Property ownership has been a traditional means for African Americans to gain recognition and enter the mainstream of American life This landmark study documents this significant but often overlooked aspect of the black experience from the late eighteenth century to World War I **The Creation of Jazz** Burton William Peretti, 1994 As musicians listeners and scholars have sensed for many years the story of jazz is more than a history of the music Burton Peretti presents a fascinating account of how the racial and cultural dynamics of American cities created the music life and business that was jazz From its origins in the jook joints of sharecroppers and the streets and dance halls of 1890s New Orleans through its later metamorphoses in the cities of the North Peretti charts the life of jazz culture to the eve of bebop and World War II In the course of those fifty years jazz was the story of players who made the transition from childhood spasm bands to Carnegie Hall and worldwide touring and fame It became the music of the Twenties a decade of Prohibition of adolescent discontent of Harlem pride and of Americans hoping to preserve cultural traditions in an urban commercial age And jazz was where black and white musicians performed together as uneasy partners in the big bands of Artie Shaw and Benny Goodman Blacks fought back by using jazz states Peretti with its unique cultural and intellectual properties to prove assess and evade the dynamic of minstrelsy Drawing on newspaper reports of the times and on the firsthand testimony of more than seventy prominent musicians and singers among them Benny Carter Bud Freeman Kid Ory and Mary Lou Williams The Creation of Jazz is the first comprehensive analysis of the role of early jazz in American social history The Two Reconstructions Richard M. Valelly, 2009-10-02 Winner of the 2005 J David Greenstone Book Award from the Politics and History section of the American Political Science Association Winner of the 2005 Ralph J Bunche Award of the American Political Science Association Winner of the 2005 V O Key Jr Award of the Southern Political Science Association The Reconstruction era marked a huge political leap for African Americans who rapidly went from the status of slaves to voters and officeholders Yet this hard won progress lasted only a few decades Ultimately a second reconstruction associated with the civil rights movement and the Voting Rights Act became necessary How did the first reconstruction fail so utterly setting the stage for the complete disenfranchisement of Southern black voters and why did the second succeed These are among the questions Richard M Valelly answers in this fascinating history The fate of black enfranchisement he argues has been closely intertwined with the strengths and constraints of our political institutions Valelly shows how effective biracial coalitions have been the key to success and incisively traces how and why political parties and the national courts either rewarded or discouraged the formation of coalitions Revamping our understanding of American race relations The Two Reconstructions brilliantly explains a puzzle that lies at the heart of America s development as a political democracy A

Voice of Thunder George Stephens, 1998 Stephens was a black reporter for the black newspaper Weekly Anglo African when the Civil War broke out He joined the 54th Massachusetts the first black Union regiment Promoted to sergeant he stormed Battery Wagner with his regiment Surviving the Union defeat Stephens served with the 54th through the end of the war

Slavery and the Numbers Game Herbert George Gutman, 2003 This detailed analysis of slavery in the antebellum South was written in 1975 in response to the prior year's publication of Robert Fogel and Stanley Engerman's controversial *Time on the Cross* which argued that slavery was an efficient and dynamic engine for the southern economy and that its success was due largely to the willing cooperation of the slaves themselves Noted labor historian Herbert G Gutman was unconvinced even outraged by Fogel and Engerman's arguments In this book he offers a systematic dissection of *Time on the Cross* drawing on a wealth of data to contest that book's most fundamental assertions A benchmark work of historical inquiry Gutman's critique sheds light on a range of crucial aspects of slavery and its economic effectiveness Gutman emphasizes the slaves' responses to their treatment at the hands of slaveowners He shows that slaves labored not because they shared values and goals with their masters but because of the omnipresent threat of negative incentives primarily physical violence In his introduction to this new edition Bruce Levine provides a historical analysis of the debate over *Time on the Cross* Levine reminds us of the continuing influence of the latter book demonstrated by Robert W Fogel's 1993 Nobel Prize in Economic Sciences and hence the importance and timeliness of Gutman's critique *The Constitution of South Carolina: The struggle for political equality* James L. Underwood, 1986 Traces the evolution of voting rights in the Palmetto State from the Civil War through the present
