Sovereign Acts American Unilateralism And Global Security:

Sovereign Acts John Tirman, 1989 Encyclopedia of Politics Rodney P. Carlisle, 2005-03-17 With the Left and Right amusingly placed into left hand v 1 and right hand v 2 volumes respectively this encyclopedia contains articles on the people ideas events laws and issues associated with left and right politics in language that will be accessible to the high school and undergraduate student as well as the general reader Each entry includes cross references and a bibliography Among the topics for politics of the left are Susan B Anthony Jean Jacques Rousseau abolitionism desegregation ACLU the New Deal Solidarity and the Workingmen s Party Entries are included in each volume for 40 countries and regions giving the history and current affairs for politics in each Among the topics for the right are capitalism Darwinism censorship martial law and the Christian Coalition The contributors teach at universities worldwide some are independent scholars Carlisle is at Rutgers U Annotation 2004 Book News Inc Portland OR booknews com *Alternative Security* Burns H Weston, 2019-06-03 *Alternative Security* offers the thinking person a place to begin to kick the nuclear habit Even as it accepts the premise that war is endemic to the human condition it provides reassurance that an other than nuclear deterrence policy can work to effectively safeguard national and transnational interests These eight original essays acco **American Foreign Policy in a Globalized World** David P. Forsythe, Patrice C. MacMahon, Andrew Wedeman, 2013-05-13 In this volume several leading foreign policy and international relations experts consider the long term prospects and implications of US foreign policy as it has been shaped and practiced during the presidency of George W Bush The essays in this collection based on the research of well respected scholars such as Ole Holsti Loch Johnson John Ruggie Jack Donnelly Robert Leiber Karen Mingst and Edward Luck offer a clear assessment while US resources are substantial Washington s ability to shape outcomes in the world is challenged by its expansive foreign policy goals its exceptionalist approach to international relations serious questions about the limits of its hard power resources as well as fundamental changes in the global system Illustrating one of the central ironies of the contemporary situation in foreign affairs and international relations that at the very time of the unipolar moment the world has become globalized to such an extent that the unilateralism of the Bush Administration leads as much to resistance as it does to coercion compliance and cooperation *American Foreign Policy in a Globalized World* will be of interest to students and scholars of politics and international relations Unilateralism and U.S. Foreign Policy David Malone, Yuen Foong Khong, 2003 The authors explore international reactions to U S conduct in world affairs Current and Contemporary Issues in the New World Order B. M. Jain, 1999 **Air University Library Index to Military Periodicals**, 1990 Redefining Sovereignty in International Economic Law Wenhua Shan, Penelope Simons, Dalvinder Singh, 2008-04-21 The concept of state sovereignty is increasingly challenged by a proliferation of international economic instruments and major international economic institutions States from both the south and north are re examining and debating the extent to which they should cede control over their economic and social policies to achieve global economic efficiency in an

interdependent world International lawyers are seriously rethinking the subject of state sovereignty in relation to the operation of the main international economic institutions namely the WTO the World Bank and the International Monetary Fund IMF The contributions in this volume bringing together leading scholars from the developed and developing worlds take up the challenge of debating the meaning of sovereignty and the impact of international economic law on state sovereignty The first part looks at the issues from the perspectives of general international law international economic law and legal theory Part two discusses the impact of trade liberalisation on the sovereignty of both industrialised and developing states and Part three concentrates on the challenge to state sovereignty created by the proliferation of investment treaties and the significant recent growth of investment treaty based arbitration cases Part four focuses on the domestic and international effects of international financial intermediaries and markets Part five explores the tensions and intersections between the international regulation of trade and investment international human rights and state sovereignty

The Sovereignty Wars Stewart Patrick, 2019-05-21 Protecting sovereignty while advancing American interests in the global age Americans have long been protective of the country's sovereignty beginning when George Washington retired as president with the admonition for his successors to avoid permanent alliances with foreign powers Ever since the nation has faced persistent often heated debates about how to maintain that sovereignty and whether it is endangered when the United States enters international organizations treaties and alliances about which Washington warned As the recent election made clear sovereignty is also one of the most frequently invoked polemical and misunderstood concepts in politics particularly American politics The concept wields symbolic power implying something sacred and inalienable the right of the people to control their fate without subordination to outside authorities Given its emotional pull however the concept is easily hijacked by political opportunists By playing the sovereignty card they can curtail more reasoned debates over the merits of proposed international commitments by portraying supporters of global treaties or organizations as enemies of motherhood and apple pie Such polemics distract Americans from what is really at stake in the sovereignty debate namely the ability of the United States to shape its destiny in a global age The United States cannot successfully manage globalization much less insulate itself from cross border threats on its own As global integration deepens and cross border challenges grow the nation's fate is increasingly tied to that of other countries whose cooperation will be needed to exploit the shared opportunities and mitigate the common risks of interdependence The Sovereignty Wars is intended to help today's policymakers think more clearly about what is actually at stake in the sovereignty debate and to provide some criteria for determining when it is appropriate to make bargains over sovereignty and how to make them
