INTRODUCTION

Since the history of big crisis in Asia in 1998 continuing in year 2008 in Western Countries, there will be necessary to lift up the high motivation here to increase the knowledge management quality in firms so that management can faced the crises wisely.

This writing purpose is to scheme the big picture of indicators for implementing the accounting information system and strategic management in firms that are bridged by high performance of knowledge management to reach firms' goals. One high motivation reasons for me to write is concerning the high technology performance at any disciplines, especially in accounting information system that is supporting worldwide companies information with many software are not used properly so the human resource operated with different level of knowledge which are mostly this kind of situation happens not only in developing countries but also in developed countries. However, the accounting information system itself has well performance with accuracy and reliable based on knowledge management level uses and it will support the planning and implementation of strategic management that is useful for developed not only the company system but also company goals. This may recognize the knowledge management is the major factor for well govern of the firms everyday.

Basically, the crisis in year 2008 brings the uncertainty for specialized who uses the accounting information systems whereas prediction of human character based on knowledge level becomes uncomfortable manner that cannot be put into the system as the strategic management implementation, whereas the fact that knowledge management is put ahead the accounting information systems remembering the variety of indicators that may influence the system itself considered have difficulty in their measurement which the application of discipline may have not been found yet. That is why the accounting information system will develop from time to time.

Besides, we think about standardization of knowledge management to support reducing the uncertainty which may put some important indicators considered based on description data and also may support the practices of strategic management to contribute their firm performances.

A system can be defined :

A system is a group of two or more interrelated components or subsystems that serve a common purpose.

The information system can be defined :

The information system is the set of formal procedures by which data are collected, processed into information, and distributed to users.

Accounting information systems can be defined :

AIS subsystems process financial transactions and non financial transactions that directly affect the processing of financial transactions. For example, changes to customers' names and addresses are processed by the AIS to keep the customer file current. Although not technically financial transactions, others changes provide vital information for processing future sales to the customer.

The AIS is composed of three major subsystem :

1. *The transaction processing system (TPS), which supports daily business operations with numerous reports, documents, and messages for users throughout the organization;*

Strategic Management In The Knowledge Economy:

Strategic Management in the Knowledge Economy Marius Leibold, Gilbert J. B. Probst, Michael Gibbert, 2007-06-27

Due to the dramatic shifts in the knowledge economy this book provides a significant departure from traditional strategic management concepts and practice. Designed for both advanced students and business managers it presents a unique combination of new strategic management theory, carefully selected strategic management articles by prominent scholars such as Gary Hamel, Michael Porter, Peter Senge, and real world case studies. On top of this the authors link powerful new benchmarks in strategic management thinking including the concepts of Socio Cultural Network Dynamics, Systemic Scorecards, and Customer Knowledge Management with practical business challenges and solutions of blue chip companies with a superior performance. Lafite, Rothschild, Who's Who, Holcim, BRL, Hardy, Kuoni, BTI, Deutsche Bank, Unisys, Novartis.

Wisdom and Management in the Knowledge Economy David Rooney, Bernard McKenna, Peter Liesch, 2010-03-23

This book reinvigorates the use of wisdom in management and work practice, promoting it as an important research topic and demonstrating how it can be applied across a number of important management areas such as knowledge innovation and strategy.

Strategic Learning in a Knowledge Economy Robert L. Cross, Sam Israelit, 2009-11-03. Strategic Learning in a Knowledge Economy defines unique and powerful ways that organizations can foster learning at the individual, group, and organizational levels, a capability critical to both strategic objectives and business performance. The book explains how individuals and organizations learn, clarifying cognitive and social aspects of the topic. Readers will understand how learning enables organizations and individuals to better create, assimilate, and transfer knowledge. Strategic Learning in a Knowledge Economy helps managers create individual and collective processes that maximize the quality of the knowledge created and learned and ensures this knowledge is effectively used. The book appropriately redefines the frequently narrow and technology-oriented view of learning and explains how an effective learning strategy ensures that a broad base of employees learn and implement vital organizational lessons. Strategic Learning in a Knowledge Economy features focused discussions of organizational core competencies, learning and innovation communities of practice, assessing organizational learning capabilities, and other important learning topics. This authoritative compendium helps readers master organizational issues crucial in today's knowledge economy by

Strategy, Economic Organization, and the Knowledge Economy Nicolai J. Foss, 2005-02-03. The rise of the knowledge economy has far-reaching implications for the nature of economic organization as well as firm strategy. Not surprisingly, thinking in management studies as well as in economics has been profoundly affected by these changes. Thus, management thinking in particular has been increasingly characterized by a schism between those who advocate knowledge or capabilities-based approaches in the strategy and organization fields and those who adopt more economics-influenced approaches, notably the economics of organization. This book is a sustained attempt to overcome this schism. Its basic argument is that knowledge-based and organizational economics approaches are not substitutes but

complements In particular organizational economics has much to contribute with respect to furthering the understanding of efficient organization and strategy in the emerging knowledge economy This theme is taken through several theoretical as well as empirical variations Themes such as the incentive liabilities of flat knowledge based organizations and the role of complementary HRM practices for fostering knowledge sharing and creation are extensively treated The book thus contains important implications for knowledge management organizational design and firm strategy The book encompasses nine chapters which critically examine current thinking on strategy and organization The reasoning is non technical While primarily aimed at a management studies audience economists and other social scientists will also benefit from it including Advanced Students Academics and Researchers

Managing the Future Haridimos Tsoukas, Jill Shepherd, 2009-02-09 In this book leading authors explore ways in which organizations can develop their ability to manage the future An exploration of the ways in which organizations can develop their ability to manage the future Consists of ten papers written by authors from both sides of the Atlantic and from Asia all of whom are distinguished scholars in the fields of strategy or organizational learning Addresses key questions about how organizational foresight can be conceptualized and developed and the extent to which it is possible The papers are prefaced by a foreword from Spyros Makridakis and an introduction from the editors Helps to shape a new research agenda and so will be of interest to academics as well as to students and practitioners

Innovation Management In The Knowledge Economy Ben Dankbaar, 2003-08-05 This book provides an overview of recent predominantly European thinking on the issues and challenges for innovation management in the modern knowledge based economy The topic is explored in four directions the growing importance of services and of innovation in services the growing interest in competence based approaches of strategy and innovation the role of technology in innovation processes and the increasing importance of knowledge management in innovation management Each direction is briefly introduced by the editor The contributions come from universities and management schools in Germany Italy France the United Kingdom Belgium The Netherlands and the United States

Emergent Knowledge Strategies Ettore Bolisani, Constantin Bratianu, 2017-07-06 This book is intended to spark a discourse on and contribute to finding a clear consensus in the debate between conceptualizing a knowledge strategy and planning a knowledge strategy It explores the complex relationship between the notions of knowledge and strategy in the business context one that is of practical importance to companies After reviewing the extant literature the book shows how the concept of knowledge strategies can be seen as a new perspective for exploring business strategies It proposes a new approach that clarifies how planned and emergent knowledge strategies allow companies to make projections into the uncertain and unpredictable future that dominates today's economy

Strategy, Economic Organization, and the Knowledge Economy Nicolai J. Foss, 2005 The advent of the knowledge economy changes the ways in which firms organize their activities and how they strategize in the market place This non technical volume lays the foundations for an analysis of these phenomena In particular it shows how knowledge based approaches in management

studies may be complemented by key ideas from the economics of organization The discussion is both theoretical and empirical

Strategic Management in the Innovation Economy Thomas H. Davenport, Marius Leibold, Sven C. Voelpel, 2007-06-27 Innovative ruptures of traditional boundaries in value chains are requiring companies to rethink how they go to market what they need to own what they need to retain and innovate as core competencies and how they innovatively deal with suppliers and customers The key message of the book is that the new knowledge networked innovation economy requires a totally different strategic management mindset approach and toolbox and its major value added is a new strategic management approach and toolbox for the innovation economy a poised strategy approach Designed for both managers and advanced business students the book provides a unique combination of new management theory selected managerial articles by prominent scholars such as Clayton Christensen Henry Chesbrough Sumantra Ghoshal Quinn Mills and Peter Senge and a wide array of real world case examples including GE Shell IBM HP BRL Hardy P G Southwest Airlines and McGraw Hill within the dynamics of industries such as airlines energy telecommunications wine beverages and computing The authors illustrate powerful new strategic innovation concepts and tools such as poised strategy for managing multiple business models poised strategy scorecards moving beyond the well known balanced scorecard the wheel of business model reinvention and organizational rejuvenation methods The book includes the concepts of Poised Strategic Management Organizational Rejuvenation Business Models as Platform for Strategy Poised Scorecards Identifying Sources of Innovation in Business Ecosystems
