Strategic Minerals Kenneth A. Kessel, 1990 **Strategic Minerals** , 1990 *Monthly Catalog of United States Government Publications* United States. Superintendent of Documents, 1990 *U.S. Government Books* , 1987 *Monthly Catalogue, United States Public Documents* , 1990 **Alternative Military Strategies For The Future** Keith A. Dunn, 2019-03-04 In this volume prominent civilian and military experts in defense representing the maritime continental coalition military reform and noninterventionist schools of thought outline the changes in military strategy policy and force structure that they believe the United States must adopt if it is to cope successfully with threats to national security in the 1980s and 1990s The authors analyze US interests and objectives the changing strategic environment and the major security threats facing the United States in the coming decades They also discuss what they believe is the proper mix of political economic and military instruments for dealing with fixture threats The alternative strategies they present are wide ranging and comprehensive running the gamut from a strategic withdrawal from global commitments to proposals for increasing US power projection and forcible entry capabilities in the Third World In many ways the chapters are critical of current and past approaches to military strategy The authors believe it is essential that strategists understand the existing critiques of current U S military strategy in order to make the correct policy decisions for the future *The Materials Flow of Cobalt in the United States* Kim B. Shedd, 1993 *The Development of Integrated Sea Use Management* Hance Smith, Adalberto Vallega, 2002-09-26 Fisheries recreation transportation mineral extraction the world s seas are subject to an incredibly diverse range of uses Hitherto these have generally been considered on a use by use basis with a multiplicity of separate organisations involved in government private and voluntary sectors The Development of Integrated Sea Use Management looks at the moves towards integrated management of these conflicting uses and of their environmental impacts Three key starting points for integrated management are identified namely the theme of maritime boundary delimitation which governs the allocation of sea space among states the management of individual uses which remains a cornerstone upon which integrated management can be built and the regional basis of integrated ocean management The content ranges widely over detailed case studies within each sphere in both developed and developing countries and from coastal estuaries to the deep ocean **Defence Diplomacy and National Security Strategy** Ian Liebenberg, Dirk Kruijt, Shrikant Paranjpe, 2020-04-20 The post cold war era presented security challenges that at one level are a continuation of the cold war era at another level these phenomena manifested in new forms Whether the issues of economics and trade transfer of technologies challenges of intervention or humanitarian crisis the countries of the South previously pejoratively labelled Third World or developing countries have continued to address these challenges within the framework of their capabilities and concerns The volume explores defence diplomacies national security challenges and strategies dynamics of diplomatic manoeuvres and strategic resource management of Latin American southern African and Asian countries *Measuring National Power in the*

Postindustrial Age Ashley J. Tellis, 2001 The arrival of postindustrial society has transformed the traditional bases of national power and thus the methods used to measure the relative power of nations should be reassessed as well Appreciating the true basis of national power requires not merely a meticulous detailing of visible military assets but also a scrutiny of larger capabilities embodied in such variables as the aptitude for innovation the soundness of social institutions and the quality of the knowledge base all of which may bear upon a country s capacity to produce the one element still fundamental to international politics effective military power The authors reconfigure the notion of national power to accommodate a wider understanding of capability advancing a conceptual framework that measures three distinct areas national resources national performance and military capability to help the intelligence community develop a better evaluation of a country s national power The analysis elaborates the rationale for assessing each of these areas and offers ideas on how to measure them in tangible ways An analyst s handbook RAND MR 1110 1 A is also available **Solar Energy Update** ,1982-10

Uncertainties Surround Future of U.S. Ocean Mining United States. General Accounting Office, 1983 **The Impact of Race on U.S. Foreign Policy** Michael L. Krenn, 2020-08-26 This book shows that race has played an important role in the nation s foreign relations from the time the first English colonists clambered onto the shores of the North American continent It also shows that the colonists had already progressed rather far in defining themselves in racial terms *Air University Library Index to Military Periodicals* ,1991 *Nomination of Alexander M. Subcommittee on Arms Control, Oceans, International Operations, and Environment, 1981 *Books from National Defense University Press* National Defense University Press, *Special Warfare* ,1993 The Geopolitics Of Southern Africa Kent H Butts, Paul R Thomas, 2019-07-09 South Africa is the dominant force in an area that is of increasing strategic importance to the West yet few studies address the geopolitical pressures that dictate the course of events there Analyzing South Africa s base of power the authors argue that because South Africa s relationships with other states in Southern Africa are asymmetrical in nature the country has substantial economic and political leverage in the region Control of Southern Africa s transport infrastructure and the ability to project a conventional or surrogate military presence throughout the region for example gives South Africa the power to affect the economic and political stability of virtually all regional states Asymmetry also characterizes relationships at the global level Because the West depends upon South Africa for access to the region s strategic minerals for the security of the Cape oil route and for the country s ability to counterbalance the Soviet presence in Southern Africa South Africa exercises considerable influence over the African foreign policies of the superpowers Focusing on the major geopolitical variables affecting South Africa s ability to sustain power the authors analyze the economic and geographic factors that contribute to asymmetrical relationships and examine the pluralism that divides South African society Pretoria s successful foreign policy which has created a security corridor of new

buffer states is given particular emphasis In addition the authors provide a detailed analysis of South Africa s minerals based economy and discuss the implications for regional stability of economic sanctions against South Africa Finally they outline a policy framework that takes regional economic political and geographic realities into account Towards Sustainable Security: Alternatives to the War on Terror Paul Rogers,2007-11-20 The Iraq War shows no sign of ending NATO is progressively more mired in conflict in Afghanistan and the al Qaida movement has established safe havens in western Pakistan while being seen once again as a major threat In light of this the new Oxford Research Group international security report questions current policies and argues for the adoption of sustainable security as the underlying approach Tackling events in chronological order over the key 2006 07 period the report offers a clear and compelling account of a war on terror that has gone wrong in every major respect and is in urgent need of a comprehensive re thinking of the entire outlook Comments on earlier editions of the Oxford Research Group International Security Report Incisive elegant profound if you want to understand what happened and why you should start here GEORGE MONBIOT Paul Rogers is a secular prophet for our trouble age This analysis should be required reading in the Pentagon DAVID LLOYN BBC Paul Rogers has proved himself time and again to be a dispassionate analyst of events in Iraq this is a must read TOM WALKER SUNDAY TIMES
