

LEARNING STRATEGIES

DEFINITION

Learning strategies are methods or techniques that learners use to enhance their comprehension, retention, and application of new information. These strategies are deliberately employed to make the learning process more effective and efficient. They can be applied at different stages of the learning process, from information acquisition to evaluation.

EXAMPLES

- **Think-pair-share:** Students individually brainstorm a topic, then share their idea with a peer and discuss, then the pair share their ideas with the whole class.
- **Spaced Studying** – many students try to learn all of the material the night before the exam. It is far better to study sections of the material over several weeks.
