Strategic Vision For Africa The Kampala Movement:

A Strategic Vision for Africa Francis M. Deng, I. William Zartman, 2004-06-23 Increasingly marginalized since the end of the Cold War the continent of Africa is struggling to identify both the root causes and possible solutions to the maladies that continue to plague it The problems read like a laundry list of misrule in the aftermath of decolonization rampant political corruption internecine wars widespread disease underdevelopment and economic collapse In the early 1990s a group of statesmen academics and civil leaders from all over Africa gathered to put together a comprehensive plan to make the continent become less dependent on the rest of the world and prepare it to compete in the new globalizing economy Those who gathered to write what would come to be known as the Kampala Document envisioned an organization which would succeed where the Organization for African Unity OAU had failed This new organization the Conference on Security Stability Development and Cooperation in Africa CSSDCA will provide a forum for discussion of democratization security issues and sustainable development This new book by noted scholars Francis Deng and I William Zartman provides a mid course appraisal of the progress of the CSSDCA as well as charting its future in relation to other regional organizations With a preface by President Olusegun Obasanjo this book will undoubtedly become an important tool in understanding Africa s present and future Francis Deng is a nonresident senior fellow in the Foreign Policy Studies program at the Brookings Institution His books include *Masses in Flight The Global Crisis of Internal Displacement* Brookings 1998 with Roberta Cohen *The Forsaken People Case Studies of the Internally Displaced* Brookings 1998 co edited with Roberta Cohen I William Zartman is Jacob Blaustein Professor of International Organizations and Conflict Resolution and Director of African Studies at the Paul H Nitze School of Advanced International Studies *Confronting Genocide* René Provost, Payam Akhavan, 2010-11-11 Never again stands as one the central pledges of the international community following the end of the Second World War upon full realization of the massive scale of the Nazi extermination programme Genocide stands as an intolerable assault on a sense of common humanity embodied in the Universal Declaration of Human Rights and other fundamental international instruments including the Convention on the Prevention and Punishment of the Crime of Genocide and the United Nations Charter And yet since the Second World War the international community has proven incapable of effectively preventing the occurrence of more genocides in places like Cambodia Yugoslavia Rwanda and Sudan Is genocide actually preventable or is ever again a more accurate catchphrase to capture the reality of this phenomenon The essays in this volume explore the complex nature of genocide and the relative promise of various avenues identified by the international community to attempt to put a definitive end to its occurrence Essays focus on a conceptualization of genocide as a social and political phenomenon on the identification of key actors Governments international institutions the media civil society individuals and on an exploration of the relative promise of different means to prevent genocide criminal accountability civil disobedience shaming intervention *African peace* Kathryn Nash, 2021-02-09 African regional

organizations have played leading roles in constructing collective conflict management rules for the continent but these rules or norms have not been static. Currently the African Union AU deploys monitors authorizes peace support operations and actively engages to resolve internal conflicts. Just a few decades ago these actions would have been deeply controversial under the Organization of African Unity OAU. What changed to allow for this transformation in the way the African regional organization approaches peace and security? African peace examines why the OAU chose norms in 1963 that prioritized state security and led to a policy of strict non interference even in the face of destabilizing violence and why the AU chose very different norms leading to a disparate conflict management policy in the early 2000s. Even if the AU's capacity to respond to conflict is still developing this new policy has made the region more willing and capable of responding to violence. Nash argues that norm creation largely happened within the African context and international pressure was not a determinant factor in their evolution. The role of regions in the international order particularly the African region has been under theorized and under acknowledged and this book adds to an emerging literature that explores the role of regional organizations in the Global South in creating and promoting norms based on their own experiences and for their own purposes.

Uniting Africa David J. Francis, 2017-05-15. Plagued by bloody wars and armed conflicts political instability communal violence and displaced persons and at the mercy of natural catastrophes such as drought and famine it is not surprising that the Western press has long dismissed Africa as the hopeless continent. In the face of these challenges Africa today is faced with a stark choice either unite or perish. The debate on why and how the continent should unite in terms of cooperative peace security and development is more urgent than at any other time in Africa's post colonial history. Moving forward from the failure of the earlier typically idealistic Africa unity project David Francis demonstrates how peace and security challenges have created the imperative for change. He argues that a series of regional peace and security systems are emerging and that states that have participated in practical experiments in regional peacekeeping peace support operations conflict stabilization management and preventive diplomacy are building de facto systems of peace and security that could be institutionalized and extended.

Responsibility to Protect Julia Hoffmann, André Nollkaemper, Isabelle Swerissen, 2012 De tragische gebeurtenissen in Rwanda Srebrenica en Kosovo hebben geleid tot een herbezinning over de rol en verantwoordelijkheid van de internationale gemeenschap In het beginsel Responsibility to Protect R2P dat in 2005 door de wereldleiders werd omarmd hebben individuele staten nog steeds de primaire verantwoordelijkheid voor de bescherming van hun inwoners Maar als ze die verantwoordelijkheid niet kunnen of willen nemen komt de verantwoordelijkheid bij de internationale gemeenschap te liggen R2P heeft de ambitie om herhaling van Rwanda Srebrenica en Kosovo te voorkomen maar er bestaat nog grote onduidelijkheid over inhoud en potentieel van dit beginsel Deze bundel verkent R2P als moreel politiek en juridisch beginsel en onderzoekt hoe de Verenigde Naties de Europese Unie individuele staten en NGO's R2P kunnen gebruiken om ernstige mensenrechtenschendingen te voorkomen

The State of Africa 2010/11 G. Adar, K. Juma, 2010-11-01 The State of Africa series project was conceived by the Africa Institute of South Africa AISA during its 2003/2004 financial year for purposes of mapping out on a regular basis critical issue areas relating to intra and inter African as well as extra

African relations The first and second volumes of the series were published in 2004 and 2008 respectively Volume 1 The State of Africa Thematic and Factual Review served as an exploratory piece and covered a broad range of issues relating to politics and governance millennium development goals MDGs peace and conflict and regional development Volume 2 The State of Africa Post Conflict Reconstruction and Development focused thematically and examined from critical and comprehensive perspectives issues associated with post conflict in Africa The volume was grounded on the continents quest for conflict prevention management and resolution as a means of creating an enabling environment for the consolidation of democracy and reconstruction of societies affected by crisis in general and war in particular This volume Volume 3 Parameters and Legacies of Governance and Issue Areas takes a multi pronged and multi faceted approach to some of these issues by providing in depth analysis of dynamics at national regional continental and international levels The global transformation in the 1980s and 1990s which witnessed the crumbling of the Soviet Union the Warsaw Pact and opened a window of opportunities for EastWest bipolar rapprochement particularly between the United States and Russia also had impact on Africa at the national regional and continental levels Focusing on conceptual units such as the state indigenous organisations regional and continental organisations as well as selected priority issues in particular gender and empowerment the global South and space science the chapters in the book provide useful insights into the nature and impact of the transformation and its impact on the socio economic and politico security situation in Africa *Africa* Jeremy I Levitt, 2008-03-31 The principal aim of this work is to provide a forum for leading international lawyers with experience and interest in Africa to address a broad range of intellectual challenges concerning the contribution of African states and peoples to international law As such the volume addresses orthodox topics of international law such as jurisdiction and intervention but tackles them from an African perspective and seeks to ask whether in each case the African perspective is unique or affirms existing arrangements of international law The book cannot come at a more important time While international legal discourse has been captured by the challenge of terrorism since September 11 2001 there are clear signs that other issues are returning to the fore Political interest in Africa has undergone a global revival and the OAU has been transformed into the African Union Infrastructural challenges along with those taking place in regional contexts have effectively mapped a new politico legal landscape for Africa This and more is explored and the key normative questions are addressed in a series of essays by leading Africanist scholars This is a remarkable collection of essays that clearly and concisely demonstrates that Africa has and will continue to play a major role in fashioning new norms of international law and policy and contribute to its progressive development by affirming existing norms Professor Levitt is to be commended for having the vision leadership and intellectual prowess to produce this excellent text The book signals a major shift from the study of Africa as a basket case to a normative market place Akua Kuenyehia Vice President International Criminal Court Professor Levitt s work *Africa Mapping New Boundaries in International Law* is pathbreaking in the true sense of that word

Through old and new voices it excavates the singular contributions of Africa to a discipline that is marked by Eurocentrism and imperial aspirations. The authors, taking their cue from the indefatigable and insightful Professor Levitt, establish beyond a shadow of a doubt the enormity of the normative contributions that Africa has made to international law. The book must therefore be seen as a defining contribution to the multiculturalization of international law. It is for this reason that Professor Levitt is among the most important American academics working and thinking in international law today. Makau Mutua, Interim Dean, SUNY Distinguished Professor, State University of New York Buffalo Law School.

African Frontiers John Idriss Lahai, Tanya Lyons, 2016-03-23. Through a multidisciplinary approach, *African Frontiers* counters the superficial Eurocentric and gender insensitive dominant discursive representation of Africa within the discourse of war and conflict, management and security, and peace nation building. The chapters historicize and theorize the realities in postcolonial African states and the ramifications on the continent's future. Situating the study within the context of the prevailing cultural and geopolitical realities in the postcolonial African states, the chapters illustrate the complex ways in which events and processes are experienced at the local level and how these local realities in turn impact and shape the patterns of political and military engagement in Africa and beyond. Organized along three major themes: Insurgency, governance and peacebuilding, expert researchers from around the world contribute chapters on Rebel and insurgent formations such as the RUF, the LRA, and Boko Haram; state governance and corruption; terrorism and counter terrorism; security and peacebuilding focussing on the tensions and challenges facing post conflict societies such as Sierra Leone, Rwanda, and the newest nation state on the continent, South Sudan. This highly significant and topical study problematizes the impact of wars on African nations as well as the epistemological framing of the local realities and fallouts of armed conflict on post colonial states.

Africa in Global Politics in the Twenty-First Century Olayiwola Abegunrin, 2009-11-18. In the twenty first century, Africa has become an important source of US energy imports and the world's natural resources. It has also become the epicentre of the world's deadly health epidemic, HIV/AIDS, and one of the battlegrounds in the fight against terrorism. Africa is now a major player in global affairs.

Routledge Handbook of Human Security Mary Martin, Taylor Owen, 2013-11-07. This Handbook will serve as a standard reference guide to the subject of human security, which has grown greatly in importance over the past twenty years. Human security has been part of academic and policy discourses since it was first promoted by the UNDP in its 1994 Human Development Report. Filling a clear gap in the current literature, this volume brings together some of the key scholars and policy makers who have contributed to its emergence as a mainstream concept, including Nobel prize winner Amartya Sen and Sadako Ogata, who jointly chaired the 2001 Commission on Human Security. Drawing upon a range of theoretical and empirical analyses, the Handbook provides examples of the use of human security in policies as diverse as disaster management, arms control, and counter terrorism, and in different geographic and institutional settings from Asia to Africa and the UN. It also raises important questions about how the concept might be adapted and operationalised in future.

Over the course of the book the authors draw on three key aspects of human security thinking Theoretical issues to do with defining human security as a specific discourse Human security from a policy and institutional perspective and how it is operationalised in different policy and geographic contexts Case studies and empirical work Featuring some of the leading scholars in the field the Routledge Handbook of Human Security will be essential reading for all students of human security critical security conflict and development peace and conflict studies and of great interest to students of international security and IR in general

Towards Africa's Renewal

Jeggan C. Senghor, 2017-11-22 Africa still finds itself in the clutches of poverty and underdevelopment The expected benefits from economic restructuring have not been realized and the debt burden continues to weigh heavily on African economies constraining the possibilities of growth Problems that have existed since the 1960s remain and links with the global economy continue to increase but fall short of requirements Against this background it is not surprising that the vast majority of African states will not meet the Millennium Development Goals The search for political systems that can deliver development have been categorized by cynics as old wine in old bottles with new stickers As the dividends from globalization elude Africa in the 21st century it becomes clear that it is a series of failed states rogue states and even stateless states This volume brings together leading researchers and analysts to examine issues and identify policy options which can lead to renewal in Africa It provides an opportunity to reflect and offers a critical multidisciplinary appraisal of the future challenges facing Africa

Canadian Foreign Policy in Africa Edward Ansah Akuffo, 2016-04-15 After over fifty years of Canadian engagement with Africa no comprehensive literature exists on Canada's security policy in Africa and relations towards Africa's regional organizations The literature on Canada's foreign policy in Africa to date has largely focused on development assistance For the first time Edward Akuffo combines historical and contemporary material on Canada's development and security policy while analyzing the linkage between these sets of foreign policy practices on the African continent The book makes an important contribution to the debate on Canada's foreign policy generally and on Africa's approach to peace security and development while shedding light on a new theoretical lens non imperial internationalism to understand Canada's foreign

policy The author captures an emerging trend of cooperation on peace security and development between the Canadian government and African regional organizations in the twenty first century The resulting book is a valuable addition to the literature on African politics new regionalisms foreign policy global governance and international development studies

The African Union Omar Alieu Touray, 2016-12-01 This book offers a comprehensive analysis of the African Union during the organization's first ten years of existence It takes the reader through the various intergovernmental processes that preceded and followed the establishment of the Union and through the workings of key organs such as the Assembly of Heads of State the Council of Ministers the Pan African Parliament and the Commission The study argues that the African Union represented a rational choice of its member states who saw it as a means to advancing their individual and collective preferences for liberation peace and security good governance and socio economic development It maintains that the African Union did not only make marked progress in a number of areas the Union also established norms that had transformational effects on military and political elites at country and regional levels However like in most agent principal relations the autonomy of the Union was limited in many ways and this affected the Union's effectiveness in such areas as human and socio economic development as well as in sustaining peace support operations At a more general level the study argues that the African Union offers clear insights into integration as a multidimensional process that no single theoretical tradition can explain in a comprehensive manner The author's response to such a theoretical limitation is fusionism an integrated approach that amalgamates various analytical traditions in order to provide a better explanation of the processes of international integration The detailed analysis and bold proposals will undoubtedly make the study appealing not only to specialists in African Studies but equally to a broader spectrum of international relations and development scholars
