developing analyzing and evaluating theory in your nursing career **Mastering Concept-Based Teaching and Competency Assessment - E-Book** Jean Foret Giddens,2022-12-20 Selected for 2025 Doody's Core Titles in Education

Learn how to develop and implement a successful concept based curriculum and competency assessment Written specifically for nursing faculty by thought leader Jean Giddens Mastering Concept Based Teaching and Competency Assessment 3rd Edition provides the understanding and expertise you need to make the transition from traditional content focused instruction to a conceptual approach to teaching and learning and from knowledge assessment to competency assessment New to this edition is a new chapter on differentiating concept based and competency based approaches A perfect complement to Giddens student oriented textbook Concepts for Nursing Practice this book is ideal for both undergraduate and graduate faculty and also serves as a helpful study tool for faculty preparing for the Certified Nurse Educator exam

Framework for a concept based curriculum CBC begins with an overview of the conceptual approach and then discusses the steps used in developing a CBC using concepts as the infrastructure for the curriculum Strong foundation in how to teach within a CBC examines the nature of concepts their function in the process of learning and the importance of being consistent in the selection and implementation of concepts Balanced teaching strategies engage students with an open environment and learning activities demonstrating the application of information to multiple situations Success evaluation criteria explain the importance of analyzing evaluation data to measure the achievement of student learning and for evaluating a CBC program Misconceptions and Clarifications boxes reflect the latest research in conceptual learning to help clarify important concepts NEW Differentiating Concept Based and Competency Based Approaches chapter explains the close interrelationship of concepts and competencies NEW Updated content reflects the latest evidence and literature on the conceptual approach and the application of competencies within the conceptual approach NEW Improved graphic design and layout makes the content more visually appealing and promotes understanding Nursing Theory, Postmodernism, Post-structuralism, and Foucault Olga Petrovskaya,2022-09-30 Nursing Theory Postmodernism Post structuralism and Foucault critiques mainstream American nursing theory and its use of post structural theory comparing and contrasting how postmodern and post structural ideas have been used fruitfully in nursing research and theorizing elsewhere In the late 1980s references to post structuralism and Michel Foucault started to appear in nursing journals Since then hundreds of nursing publications have cited postmodernism and key post structural ideas such as power knowledge discourse and de centring the human subject In Nursing Theory Postmodernism Post structuralism and Foucault Olga Petrovskaya argues that the application of these ideas is markedly different in American nursing theory scholarship compared to nursing theoretical scholarship generated outside the canon of unique nursing theory Analysing relevant literature from the late 1980s through 2010s she demonstrates this difference arguing that American nursing theory calcified into a matrix of dogmas built on logical positivism wary of borrowed theory and loyal to a unique nursing science Post structural ideas that fit the matrix such

as criticism of medicine are sanctioned whereas ideas sceptical of humanistic agendas including those that challenge American nursing theory are rendered meaningless In contrast other nurse scholars from Britain Australia Canada and what the author calls the American enclave group engaged with postmodern and post structural perspectives to enrich their research and invite readers to rethink nursing practice The book showcases examples of their intelligent creative theorizing Arguing that American nursing theory enervated nursing theorizing Petrovskaya calls for opening this matrix to theoretical and methodological creativity less rigid categories of scholarship and healthy self examination Making the case that post structural ideas are vital for nurses ability to critically reflect on their discipline and profession this is a necessary read for all those interested in nursing theory philosophy and praxis Chapter 1 of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
