Chain Strategies for the 2020s Rico Merkert, Kai Hoberg, 2022-12-08 Logistics and supply chain management is facing disruptive economic technological and climate change developments that require new strategies. New technologies such as the Internet of Things, digital manufacturing or blockchain are emerging quickly and could provide competitive advantage to those companies that leverage the technologies smartly while managers that do not adopt and embrace change could be left behind. Last but perhaps most important for mankind sustainability aspects such as low carbon transportation, closed loop supply chains or socially responsible supply chain setups will become essential to operate successfully in the future. All these aspects will affect logistics and supply chains as a whole as well as different functional areas such as air cargo, maritime logistics or sourcing procurement. This book aims to dive into several of these functional topics to highlight the key developments in the next decade predicted by leading global experts in the field. It features contributions and key insights of globally leading scholars and senior industry experts. Their forward looking perspectives on the anticipated trends are aimed at informing the reader about how logistics and supply chain management will evolve in the next decade and which academic qualities and skills will be required to succeed in the new normal environment that will be characterized by volatile and increasingly disrupted business eco systems. Future scenarios are envisaged to provide both practitioners and students with insights that will help them to adapt and succeed in a fast changing world.

Human Resource Management and Internal Marketing Teena Mishra, 2022-12-30 This book explains various key concepts of internal marketing and its relation to human resource management, commitment, service quality, market orientation etc. Various human resource models are insufficient to define internal marketing. Therefore, there is a need to focus on the models and key concepts of human resource management and internal marketing and in what way they contribute to organizational success. It involves motivation, internal market research, internal communication, internal segmentation, employee retention, inter functional coordination and internal branding. The current need for human resource management is to link human resource management and marketing practices which are called internal marketing. Internal marketing plays an eminent role in organizational success. This book helps students, practitioners, start ups and educationists. This is a research monograph that will assist an organization to decide the future of human resource management as well as organizational development. This book is for marketing as well as human resource discipline as internal marketing is the integration of marketing and human resource management. Due to new technology, globalization and liberalization, market need and demand are also changing, thus it is necessary to understand new trends in the application of human resources. Therefore, it is necessary to motivate and satisfy internal customers and make them market and skill oriented.
