

MANAGEMENT STRATEGIES FOR MULTIPLE HANDICAP

Introduction

Children who have a combination of severe disabilities are called “*Multiply Disabled*”. Caring for multiply and severely disabled children is never easy and they need an enormous amount of time & patience.

The combination of disabilities and degree of severity is different in each child. The time at which the disability occurs in the child, what is known as the ‘age of onset’, may also range from birth to a few days after birth, from early childhood till late teens. Sometimes children are born with one disability but acquire the second or third disabling conditions during childhood. The characteristics and the needs of the children depend on the nature of combination of the disabilities, the age of onset and the opportunities that have been available to a child in his environment.

Definition of Multiple Disabilities

According to the Persons with Disabilities Act (1995), “*Multiple Disabilities*” means a combination of two or more disabilities.

Disabilities under the National Trust Act are in fact Developmental Disabilities caused due to insult to the brain and damage to the central nervous system. These disabilities are Autism, Cerebral Palsy, Mental Retardation and Multiple Disabilities. These are neither diseases nor contagious nor progressive. They cannot be cured by drugs or surgery. But early detection and training improve outcome. This is done using the services of Physio-Occupational and Speech Therapists, Community Based Rehabilitation Workers and Special Educators.

Multiple Disabilities refer to: a combination of two or more disabling conditions that have a combined effect on the child’s communication, mobility and performance of day-to-day tasks.

Strategies For Helping Severely And Multiply Handicapped Citizens:

Strategies for Helping Severely and Multiply Handicapped Citizens John G. Greer, Robert Meredith Anderson, Sara J. Odle, 1982. Ce document focalise non seulement sur l'individu ayant une déficience intellectuelle mais également sur les personnes ayant une déficience physique ou sensorielle associées. Il est alors question de l'intervention auprès des personnes ayant une déficience multiple et des stratégies éducatives applicables : la psychomotricité, l'autonomie, la communication et les comportements sociaux adéquats.

Perkins Activity and Resource Guide Charlotte Cushman, Kathy Heydt, Monica Allon, 2021-04-30. We are pleased to release a 3rd edition of this incredible resource. It contains hundreds of pages of practical suggestions for instructional activities for young children who are visually impaired with multiple disabilities. Each section has been authored by specialists in the subject area. Organized into sections for each instructional domain and in loose leaf format for easy pullout of sections, the guide is very user friendly.

United Nations and the Rights of Disabled Persons G. N. Karna, 1999.

Theology and Down Syndrome Amos Yong, 2007. While the struggle for disability rights has transformed secular ethics and public policy, traditional Christian teaching has been slow to account for disability in its theological imagination. Amos Yong crafts both a theology of disability and a theology informed by disability. The result is a Christian theology that not only connects with our present social, medical, and scientific understanding of disability but also one that empowers a set of best practices appropriate to our late modern context.
