*Advances in Library Administration and Organization* Delmus E. Williams, Janine Golden, 2012-12-05 The book will examine the challenges that working administrators face and discusses how to enable them to look more closely at their operations and to reconsider how to develop people and the organizations in which they work As in previous volumes of *Advances in Library Administration and Organization* the studies outlined in the chapters of Vo **British Librarianship and Information Work 1991-2000** J.H. Bowman, 2017-07-28 This important reference volume covers developments in almost every aspect of British library and information work during the ten year period 1991 2000 Some forty contributors all of whom are experts in their subject provide a robust overview of their specialities along with extensive further references which act as a starting point for further research The book provides a comprehensive record of what took place in library and information management during a decade of considerable change and challenges It is an essential reference resource for librarians and information professionals Understanding Community Librarianship Alistair Black, David Muddiman, 2017-09-29 In the information society is the community focused library a real possibility This book reappraises the relationship between the library and its communities through an examination of the rise and decline of community librarianship over the last three decades The authors consider key models of community based library service and argue that bland assertions of community prevalence mask a complex and problematic relationship between a highly traditional public service bureaucracy and its users The resulting uncertainty of purpose they claim explains much of the current crisis of the public library movement Drawing on recent social science theory and empirical work in the field this book offers a new and critical perspective on the current public library debate It is essential reading for librarians students of information and library science and all who have a stake in the future of the public library As a case study of community public service and the local state it should also be of value to those with an interest in community development cultural policy and local government *Strategies in Action* A.
