**Strategies in prose** Wilfred A. Ferrell, Nicholas A. Salerno, 1960      Strategies in Prose Wilfred A. Ferrell, Nicholas A. Salerno, 1973-01-01      **Learning and Study Strategies**, 2014-06-28 This volume reflects current research on the cognitive strategies of autonomous learning Topics such as metacognition attribution theory self efficacy direct instruction attention and problem solving are discussed by leading researchers in learning and study strategies The contributors to this volume acknowledge and address the concerns of educators at the primary secondary and postsecondary school levels The blend of theory and practice is an important feature of this volume      **Cognitive Strategy Research** M. Pressley, J. R. Levin, 2012-12-06 For some time now the study of cognitive development has been far and away the most active discipline within developmental psychology Although there would be much disagreement as to the exact proportion of papers published in developmental journals that could be considered cognitive 50% seems like a conservative estimate Hence a series of scholarly books devoted to work in cognitive development is especially appropriate at this time The Springer Series in Cognitive Development contains two basic types of books namely edited collections of original chapters by several authors and original volumes written by one author or a small group of authors The flagship for the Springer Series is a serial publication of the advances type carrying the subtitle Progress in Cognitive Development Research Each volume in the Progress sequence is strongly thematic in that it is limited to some well defined domain of cognitive developmental research e.g logical and mathematical development development of learning All Progress volumes will be edited collections Editors of such collections upon consultation with the Series Editor may elect to have their books published either as contributions to the Progress sequence or as separate volumes All books written by one author or a small group of authors are being published as separate volumes within the series      **Cognitive Strategy Research** Christine B. McCormick, Gloria E. Miller, Michael Pressley, 2012-12-06 Highly regarded experts review the state of the art in cognitive strategy research with an emphasis on the transition from laboratory to educational contexts Basic research on models of competent learning are discussed as well as specific instructional applications in educational domains such as reading writing mathematics and science Fresh perspectives and innovative suggestions for teacher training and educational reform are proffered Researchers in psychology and education as well as teacher educators and educational practitioners interested in becoming well versed in current cognitive strategy research will benefit from the interdisciplinary nature and comprehensiveness of Cognitive Strategy Research From Basic Issues to Educational Applications      **New Trends in Software Methodologies, Tools and Techniques** Hamido Fujita, Paul Johannesson, 2003      *Teaching English Literature and Language* Dr. I.
