Strategy For British Sport:

A Strategy for British Sport Don Anthony, 1980 *Understanding UK Sport Policy in Context* Jonathan Grix, Lesley Phillips, 2017-07-05 The London Olympics of 2012 acted as a focal point for an examination of UK sport policy Individual chapters from leading specialists in their fields focus upon the central components of the UK model of sport for example elite school and community sport and talent ID policies and discuss what kind of legacy 2012 is likely to leave on the sports landscape in years to come The concept legacy is a common theme running through all contributions which themselves stem from a wide variety of academic disciplines and sub disciplines including sport psychology political science sports studies cultural studies and sociology A wide range of topics and organisations are covered throughout the volume including coaching talent ID school sports partnerships PE and youth sport participation in sport the IOC and the Olympic Charter the Olympic Movement and Islamic Culture and finally issues of regeneration through sports mega events This book was published as a special issue of the International Journal of Sport Policy *Preparing for sporting success at the London 2012 Olympic and Paralympic Games and beyond* Great Britain: National Audit Office, 2008-03-20 This report focuses on the funding UK Sport has allocated to prepare athletes for the Summer Olympic and Paralympic sports at Beijing in 2008 and at London in 2012 It examines what progress the Department and UK Sport have made in implementing the Committee of Public Accounts 2006 recommendations whether they have a clear funding strategy and performance framework through which to deliver their objectives for sporting success at London 2012 and beyond and what steps they are taking to manage the emerging areas of risk *Sport Policy in Britain* Barrie Houlihan, Iain Lindsey, 2013 Since 1990 Britain has seen a period of unprecedented public investment in and political commitment to sport In this book Iain Lindsey and Barrie Houlihan examine and analyze sport policy since the appointment of John Major as leader of the Conservative Party in 1990 John Major's period as Prime Minister was a watershed in British sport policy marking the beginning of a prolonged period of public and lottery investment and relatively high political salience The text also locates Labour sport policy not only in relation to the previous government of John Major but also in relation to the Labour government's broader concerns and ambitions related to modernization of British institutions its ambition to tackle the wicked issues epitomized by its focus on achieving greater social inclusion and its interest in facilitating greater stakeholder involvement in the policy process Lindsey and Houlihan provide the first analysis that examines sport policy as a field of government and that discusses how the various sectors e.g. youth school sport mass sport etc have been affected by government policy and the competition for public resources

understanding of the challenges key stakeholders across the globe encounter as they seek to manage periods of transition brought about by policy change relating to the provision of sport and physical activity The book uncovers the global challenges in terms of managing the re orientation of stakeholder activities and organisational strategies in response to the aspirations for a wider range of outcomes through sport based interventions and establishment of partnerships with non sport sectors It illuminates the increasingly erratic trajectory of sport development service providers as the environment within which sport organisations operate changes through for example climate change demographic shifts changing features of local economies and alterations to the structures of local government and governance and the responses of sport organisations to these new realities differ greatly depending on location institutional structures and leadership The chapters highlight the changing social economic environmental and policy contexts within which sports organisations operate and explain the subsequent need for new approaches to partnership working physical activity re scoping and integrated education programming Showing that the international mandate of creating active lifestyles and subsequent re orientation of stakeholders towards physical activity cannot only contribute to re defining sport but also in identifying novel ways for building and managing a sustainable sporting future Creating and Managing a Sustainable Sporting Future is ideal for Sports scholars and particularly those working on Sport Policy and Sustainable sport development This book was originally published as a special issue of Managing Sport and Leisure
