A Companion to the Vietnam War Marilyn B. Young, Robert Buzzanco, 2008-04-15 *A Companion to the Vietnam War* contains twenty four definitive essays on America's longest and most divisive foreign conflict. It represents the best current scholarship on this controversial and influential episode in modern American history. Highlights issues of nationalism, culture, gender, and race. Covers the breadth of Vietnam War history including American war policies, the Vietnamese perspective, the antiwar movement, and the American home front. Surveys and evaluates the best scholarship on every important era and topic. Includes a select bibliography to guide further research.

Strategy in Vietnam Michael A. Hennessy, 1997 **Strategy in Vietnam** Michael A. Hennessy, 1997-08-21 Grand strategy, strategy, and tactics, the three layers of policy and action inherent to all military efforts, are the focus of this historical analysis of the dynamics of the Vietnam War. The American theory of counterrevolutionary warfare is examined in light of American military practice, especially that of the Marine Corps during the period of America's greatest involvement, 1965-1972, and at the site of the most intense combat, the five northern provinces known as I Corps. Drawing from two schools of thought that diverge over the appropriate strategy America should have pursued in South Vietnam, this inquiry indicates that both the number of troops and their tactical employment proved inadequate for redressing the threat within the parameters America set for itself. Specifically, this work demonstrates that the counterrevolutionary warfare strategy postulated for Vietnam was largely ignored in some quarters and sowed the seeds of defeat in others.

The Generals Thomas E. Ricks, 2012-10-30 A New York Times bestseller. An epic history of the decline of American military leadership from the bestselling author of *Fiasco* and Churchill and Orwell. While history has been kind to the American generals of World War II, Marshall, Eisenhower, Patton, and Bradley, it has been less kind to the generals of the wars that followed, such as Koster, Franks, Sanchez, and Petraeus. In *The Generals*, Thomas E. Ricks sets out to explain why that is. In chronicling the widening gulf between performance and accountability among the top brass of the U.S. military, Ricks tells the stories of great leaders and suspect ones, generals who rose to the occasion and generals who failed themselves and their soldiers. In Ricks's hands, this story resounds with larger meaning about the transmission of values about strategic thinking and about the difference between an organization that learns and one that fails.

Supplement to Vietnam 1964-1973 Elwood L. White, 2005 This bibliography is a supplement to the Special Bibliography Series Number 80 compiled in 1990 to support the 14th Military History Symposium. It is primarily intended as a listing of scholarly works completed since 1990 on the Vietnam War, although some works prior to that date are included. The bibliography is selected from the holdings on that war housed in the McDermott Library, United States Air Force Academy, and includes books, journal articles, government publications, and technical reports. Newspaper articles, works of fiction, collections of poetry, and most personal narratives are not included. The Clark Special Collections Branch of the library has extensive primary source materials and artifacts focused on American POW experiences in Southeast Asia. Those items are also excluded from this bibliography since

they are limited to in house use only Individuals wanting information about that collection should contact the Special Collections Curator and Academy Archivist *Supplement to Vietnam 1964-1973* ,2005 *Special Bibliography Series* ,1957 War in the Villages Ted N. Easterling,2021-03-15 Much of the history written about the Vietnam War overlooks the U S Marine Corps Combined Action Platoons These CAPs lived in the Vietnamese villages with the difficult and dangerous mission of defending the villages from both the National Liberation Front guerrillas and the soldiers of the North Vietnamese Army The CAPs also worked to improve living conditions by helping the people with projects such as building schools bridges and irrigation systems for their fields In *War in the Villages* Ted Easterling examines how well the CAPs performed as a counterinsurgency method how the Marines adjusted to life in the Vietnamese villages and how they worked to accomplish their mission The CAPs generally performed their counterinsurgency role well but they were hampered by factors beyond their control Most important was the conflict between the Army and the Marine Corps over an appropriate strategy for the Vietnam War along with weakness of the government of the Republic of South Vietnam and the strategic and the tactical ability of the North Vietnamese Army *War in the Villages* helps to explain how and why this potential was realized and squandered Marines who served in the CAPs served honorably in difficult circumstances Most of these Marines believed they were helping the people of South Vietnam and they served superbly The failure to end the war more favorably was no fault of theirs America, History and Life ,1992 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide **The Vietnam War** Jeff Hay,2009-06-24 This volume examines America s most controversial war by placing it within the context of over thirty years of warfare in Southeast Asia The comprehensive list of entries includes discussion of political developments descriptions of important leaders such as Lyndon B Johnson and Ho Chi Minh consideration of the antiwar movement and the military aspects of the conflict **The Vietnam War** Andrew Wiest,Chris McNab,2016-12-15 The Vietnam War chronicles the first war to be televised The comprehensive description of battles social and political issues and revelations are all the more powerful because of first hand accounts telling photographs and other primary sources Students will learn the causes outcomes and repercussions of this polemic conflict through a historical lens and from the perspectives of soldiers civilians and others caught up in the Vietnam War **The Oxford Encyclopedia of American Military and Diplomatic History** Timothy J. Guide to Microforms in Print, 1986 **Swords and Ploughshares** David Strachan-Morris, 2010 This thesis analyses the United States Marine Corps counterinsurgency strategy in Vietnam between March 1965 and November 1968 filling a major gap in the existing literature by forensically examining the primary source records maintained by the United States Marines to produce an assessment of the effectiveness of the strategy It provides a useful corollary to the diplomatic and military histories of the war because not only does it examine operational level thinking about the war but it analyses the intellectual antecedents of the Marines counterinsurgency strategy to answer the important questions about why the Marines chose to emphasis pacification and the ink blot strategy rather than conducting a more conventional campaign that focused upon the destruction of enemy forces The Marines own experience of counterinsurgency in the early part of the 20th Century as well as the work of counterinsurgency theorists of the 1950s and 1960s had a considerable impact upon their approach to the Vietnam War The decision of the senior Marine commanders to adopt a pacification strategy along the lines of the ink blot approach promulgated by these French and British counterinsurgency experts was partly the result of their view of the political nature of the war and partly the result of the reality they faced on the ground At the time the Marines deployed to

Vietnam their mission was to protect three bases on the coast in the northern provinces of South Vietnam and the Marines realised that the security of these establishments could be greatly improved if the population supported the Marines and by extension the South Vietnamese government rather than the insurgents Therefore the spreading ink blot of pacification was a product of the need to improve security as well as an attempt to challenge the political nature of communist revolutionary warfare The metrics used to measure progress in the war were flawed but there are other indicators within the Marines records that show they were conducting an effective and appropriate counterinsurgency campaign within the limitations imposed by lack of resources and general inability to influence the war as a whole When the Tet Offensive was launched in early 1968 the Marines use of pacification as defence in depth allowed them to successfully defend the coastal enclaves by countering both the political and military efforts of the North Vietnamese in those areas
