**The New Grove Stravinsky** Stanley Sadie, John Tyrrell, 2003-03-15 Of Russian French and later American nationality Stravinsky's musical styles are startlingly diverse reflecting his life and era from Tsarist Russia to 1920s France and post war USA His early years in Russia saw him launch his international career with Diaghilev's Ballets Russes in Paris and the premieres of *The Firebird* *Petrushka* and *The Rite of Spring* Between 1920 1939 Stravinsky lived and worked in France producing his great neo classical compositions reactivating the modes and manners of the eighteenth century This stylistic inclination eventually gave way to a highly individual use of serial techniques in his last years when he took up residence in the United States This biography of Igor Stravinsky is one in a new series of composer biographies derived and adapted from the second edition of *The New Grove Dictionary of Music and Musicians* These newly written biographies bring the best of the book length pieces in *The New Grove* to a wider audience Each title provides fresh new insights into the life and works of a major composer derived from the most recent scholarship In addition to a detailed and informative view of the subject's life and works written by an expert in the field each book includes comprehensive tabular work lists and a fully revised and updated bibliography

**Heresy and Borders in the Twentieth Century** Karina Jakubowicz, Robert Dickins, 2021-03-10 This book explores the shifting and negotiated boundaries of religion spirituality and secular thinking in Britain and North America during the twentieth century It contributes to a growing scholarship that problematises secularization theory arguing that religion and spirituality increasingly took diverse new forms and identities rather than simply being replaced by a monolithic secularity The volume examines the way that thinkers writers and artists manipulated and reimagined orthodox belief systems in their work using the notion of heresy to delineate the borders of what was considered socially and ethically acceptable It includes topics such as psychospiritual approaches in medicine countercultures and religious experience and the function of blasphemy within supposedly secular politics The book argues that heresy and heretical identities established fluid borderlands These borderlands not only blur simple demarcations of the religious and secular in the twentieth century but also infer new forms of heterodoxy through an exchange of ideas This collection of essays offers a nuanced take on a topic that pervades the study of religion It will be of great use to scholars of Heresy Studies Religious Studies and Comparative Religion Social Anthropology History Literature Philosophy and Cultural Studies
