Straw Dogs Thoughts On Humans And Other Animals:

Straw Dogs John Gray, 2016-03-29 The British bestseller *Straw Dogs* is an exciting radical work of philosophy which sets out to challenge our most cherished assumptions about what it means to be human From Plato to Christianity from the Enlightenment to Nietzsche and Marx the Western tradition has been based on arrogant and erroneous beliefs about human beings and their place in the world Philosophies such as liberalism and Marxism think of humankind as a species whose destiny is to transcend natural limits and conquer the Earth John Gray argues that this belief in human difference is a dangerous illusion and explores how the world and human life look once humanism has been finally abandoned The result is an exhilarating sometimes disturbing book that leads the reader to question our deepest held beliefs Will Self in the New Statesman called *Straw Dogs* his book of the year I read it once I read it twice and took notes I thought it that good Nothing will get you thinking as much as this brilliant book Sunday Telegraph *Loss and the Other in the Visionary Work of Anna Maria Ortese* Vilma DeGasperin, 2014-03 Combines theme and genre analysis in a study of the Italian author from her first literary writings in the 1930s to her novels in the 1990s **Creaturely Theology** David Clough, 2013-02-11 *Creaturely Theology* is a ground breaking scholarly collection of essays that maps out the agenda for the future study of the theology of the non human and the post human A wide range of first rate contributors show that theological reflection on non human animals and related issues are an important though hitherto neglected part of the agenda of Christian theology and related disciplines The book offers a genuine interdisciplinary conversation between theologians philosophers and scientists and will be a standard text on the theology of non human animals for years to come Contributors include Esther D Reed Exeter Rachel Muers Leeds Stephen Clark Liverpool Neil Messer Lampeter Peter Scott Manchester Michael Northcott Edinburgh Christopher Southgate Exeter Animal Lives Matter Raymond Wacks, 2024-02-13 *Animal Lives Matter* provides a comprehensive analysis of the legal philosophical and ethical aspects of animal rights It argues that the subject extends beyond the matter of our obligations towards animals to include our wider responsibilities for protecting the environment Drawing on numerous moral political legal religious and philosophical theories including utilitarianism deontology rights theory social contractarianism and the capabilities approach the author meticulously examines the questions of sentience speciesism personhood and human exceptionalism Lucid nuanced and academically rigorous this important book will be an essential resource for scholars of law politics philosophy ethics as well as policy makers and the general reader **The Conspiracy against the Human Race** Thomas Ligotti, 2018-10-02 In Thomas Ligotti's first nonfiction outing an examination of the meaning or meaninglessness of life through an insightful unsparing argument that proves the greatest horrors are not the products of our imagination but instead are found in reality There is a signature motif discernible in both works of philosophical pessimism and supernatural horror It may be stated thus Behind the scenes of life lurks something pernicious that makes a nightmare of our world His fiction is known to be some of the most terrifying in the genre of supernatural

horror but Thomas Ligotti's first nonfiction book may be even scarier. Drawing on philosophy, literature, neuroscience and other fields of study, Ligotti takes the penetrating lens of his imagination and turns it on his audience, causing them to grapple with the brutal reality that they are living a meaningless nightmare and anyone who feels otherwise is simply acting out an optimistic fallacy. At once a guidebook to pessimistic thought and a relentless critique of humanity's employment of self-deception to cope with the pervasive suffering of their existence, *The Conspiracy against the Human Race* may just convince readers that there is more than a measure of truth in the despairing yet unexpectedly liberating negativity that is widely considered a hallmark of Ligotti's work. *The Earth Is Our Home* Nelson Rivera, 2016-11-14 This book demonstrates that Mary Midgley's philosophy of evolution points the way towards considering the earth as our only true home since we are products of this planet and its evolving and complex life along with every other organism. From the knowledge of ourselves as knowing animals with a biological as well as a cultural history, Midgley proposes the elaboration of an evolutionary epistemology that situates us firmly on the earth together with other creatures while at the same time helping us to build knowledge of the world from the complexity of the human experience. I like to call this approach by a known theological analogy: a view from below that is from the underside of the world, from the realms of nature and history. Such an approach does not begin by assuming conceptions of design or order in nature, a view that we term from above, although it does not rule out the possibility of teleological or metaphysical constructions of reality in the long run. This down-to-earth approach I consider essential for any philosophy or theology that wants to take evolutionary theory seriously while committed to a proper and non-dismissive assessment of religious views. **Spanish Thinking about Animals** Margarita

Carretero-González, 2020-06-01 Traditional cultural practices involving animals are being seriously questioned, heavily regulated and in some cases even abolished in Spain. This essential and timely text brings together prominent scholars working in the ever-expanding field of animal studies in Spain, drawing from a variety of disciplines within the humanities and social sciences to provide an interdisciplinary look at the animal question. In choosing an angle to approach the study of ethical, aesthetic considerations and cultural representations of animals, this collection moves away from the ideology of human exceptionalism that is still predominant but progressively losing force in the field of animal ethics in Spain. It instead includes contributions by scholars who have chosen to look at animals to a lesser or greater degree through an antispeciesist lens, displaying the committed attention to and respect for animal life that characterizes critical animal studies. [A Short History of Secularism](#) Graeme Smith, 2007-11-28 What does it mean to call Western society secular? What is secularism? And how should we understand the concept of secularism in international relations, particularly the clash between radical Islam and the West? The Latin term from which the word secular is derived, *saeculum*, means generation or age and came to mean that which belongs to this life, to the here and now in this world. It is widely used as a shorthand for the ideology which shapes contemporary society without reference to the divine. However, according to Graeme Smith, secularism represents a

great deal more He offers a radical reappraisal of the notion of secularism and its history beginning with the Greeks and proceeding to modernity and the contemporary period The assumption that the West is becoming increasingly secular is often unquestioned By contrast Dr Smith discerns a different kind of society one informed by a historical legacy which makes sense only when it is appreciated that it is religious Secularism was born of Christianity Daringly and very originally Smith argues that it is impossible to understand the idea of the secular without appreciating that at root it is Christian A Short History of Secularism will fundamentally reshape discussions of western culture religion and politics It will have strong appeal to students of religion political philosophy and the history of ideas *Essays on Gianni Vattimo* Matthew Harris,2016-05-11 What has postmodernism got to do with Christianity To what extent can a nihilist derive an ethic from the history of a religion Can a western approach to secularisation be applied to Islam These questions are central to this collection of essays from 2011 2015 by Matthew Edward Harris The essays are grouped around the interrelated themes of religion ethics and the history of ideas and constitute a critically constructive approach to the subject matter Harris defends Vattimo against some of his more strident critics but nevertheless poses questions of his own Along with a new introduction outlining Vattimo s life thought and ideas and a conclusion which looks at how developments in Vattimo s views on religion have wider implications for his weak thought the volume includes nine essays on Vattimo s thought Harris overall argument is that Vattimo is overly reliant upon history and that there is a contradiction within his style of weak thought which is against definitive pronouncements yet excludes outright anything that does not pertain to the history of linguistic messages

Thinking of Questions Peter Limm,2015-09-23 This is not a conventional book It is designed to stimulate and challenge all people who are curious to find out about the world they inhabit and their place within it It does this by suggesting questions and lines of questioning on a wide range of topics The book does not provide answers or model arguments but prompts people to create their own questions and a reading log or journal To this end almost all questions have a list of books or articles to provide a starter for stimulating further reading Once you start you will be hooked Never stop questioning

Metaphysics Adrian Pabst,2012-05-04 This book does nothing less than to set new standards in combining philosophical with political theology Pabst s argument about rationality has the potential to change debates in philosophy politics and religion from the foreword This comprehensive and detailed study of individuation reveals the theological nature of metaphysics Adrian Pabst argues that ancient and modern conceptions of being or individual substance fail to account for the ontological relations that bind beings to each other and to God their source On the basis of a genealogical account of rival theories of creation and individuation from Plato to postmodernism Pabst proposes that the Christian Neo Platonic fusion of biblical revelation with Greco Roman philosophy fulfills and surpasses all other ontologies and conceptions of individuality

Theory of World Security Ken Booth,2007-12-20 What is real What can we know How might we act This book sets out to answer these fundamental philosophical questions in a radical and original theory of security for our times Arguing that

the concept of security in world politics has long been imprisoned by conservative thinking Ken Booth explores security as a precious instrumental value which gives individuals and groups the opportunity to pursue the invention of humanity rather than live determined and diminished lives Booth suggests that human society globally is facing a set of converging historical crises He looks to critical social theory and radical international theory to develop a comprehensive framework for understanding the historical challenges facing global business as usual and for planning to reconstruct a more cosmopolitan future Theory of World Security is a challenge both to well established ways of thinking about security and alternative approaches within critical security studies

Finish the Mission John Piper, David Mathis, 2012-09-30 This is no ordinary missions book The theme isn't new but the approach is refreshing and compelling as contributors David Platt Louie Giglio Michael Ramsden Ed Stetzer Michael Oh David Mathis and John Piper take up the mantle of the Great Commission and its Spirit powered completion From astronomy to exegesis from apologetics to the Global South from being missional at home to employing our resources in the global cause Finish the Mission aims to breathe fresh missionary fire into a new generation as together we seek to reach the unreached and engage the unengaged

The Radical Luhmann Hans-Georg Moeller, 2011-11-08 In The Radical Luhmann Moeller focuses on Luhmann's paradigm shift from philosophy to theory which introduced new perspectives on the contemporary world Boldly breaking with the heritage of Western thought Luhmann denied the central role of humans in social theory particularly the possibility of autonomous agency In this way after Copernicus's cosmological Darwin's biological and Freud's psychological deconstructions of anthropocentrism he added a sociological fourth insult to human vanity A theoretical shift toward complex system environment relations helped Luhmann accidentally solve one of Western philosophy's primary problems mind body dualism By pulling communication into the mix Luhmann finally rendered the Platonic dualist heritage obsolete Moeller's clear presentation opens these formulations to a wide audience and directly relates Luhmannian theory to contemporary issues in democracy art education justice human rights and mass media

The Great Mystery Alister E McGrath, 2017-05-04 There is currently huge interest in the question of human nature and identity and what the human future might look like Who are we Why are we here What is our future Are we alone And what can religion bring alongside biology and anthropology to these important and exciting questions The Great Mystery focuses on this fascinating field of study Alister McGrath bestselling author and Andreas Idreos Professor of Science and Religion at Oxford University explores the question of human nature from both scientific and religious perspectives and weaves together the results to open up and explore some of the deepest and most important questions about who we are why we matter and what our future might be A follow up to his critically acclaimed Inventing the Universe in The Great Mystery Alister McGrath once again brings together science with religion to yield an enriched vision of reality along with rigorous and thoroughly up to date scholarship and intellectual accessibility

What We Are: The Evolutionary Roots of Our Future Lonnie Aarssen, 2022-07-05 Other animals are driven to spend essentially their whole

lives just trying to get fed stay alive and get laid That s about it The same was true for our proto human ancestors And modern humans of course also require a Survival Drive and a Sex Drive in order to leave descendants But today we spend most of our lives mainly just trying to convince ourselves that our existence is not absurd In What We Are Queen s University biologist Lonnie Aarssen traces how our biocultural evolution has shaped Homo sapiens into the only creature that refuses to be what it is the only creature preoccupied with a deeply ingrained and absurd sentiment I have a distinct mental life an inner self that exists separately and apart from material life and so unlike the latter need not come to an end This delusion conceivably gave our distant ancestors some wishful thinking for finding some measure of relief from the terrifying uniquely human knowledge of the eventual loss of corporeal survival But this came with an impulsive nagging doubt an obsessive underlying uncertainty self impermanence anxiety Biocultural evolution however was not finished It also gave us two additional uniquely human primal drives both serving to help quell the burden of this anxiety Legacy Drive generates delusional cultural domains for extension of self and Leisure Drive generates pleasurable cultural domains for distraction escape from self Legacy Drive and Leisure Drive Aarssen argues represent two of the most profound consequences of human cognitive and cultural evolution What We Are advances propositions regarding how a visceral susceptibility to self impermanence anxiety has paradoxically played a pivotal role in rewarding the reproductive success of our ancestors and has thus been a driving force in shaping fundamental motivations and cultural norms of modern humans More than any other milestone in the evolution of human minds self impermanence anxiety and its mitigating Drives for Legacy and Leisure account for not just the advance of civilization over the past many thousands of years but also now its impending collapse Effective management of this crisis Aarssen insists will require a deeper and more broadly public understanding of its Darwinian evolutionary roots as laid out in What We Are

PaintingDigitalPhotography Carl Robinson,2019-01-29 We live in a digital age where the mediums of art are inextricably bound to the binary code and painting and photography are redefined in their interconnected relationship through digital reconfiguration As digitisation unmoors these mediums from their traditional supports their modes of production display and dissemination shift These changes bring about new ways of creating and engaging with artworks Through this the innate qualities of the mediums previously anchored in their analogue nature are re evaluated through their connection with the digital Born out of the PaintingDigitalPhotography conference held at QUAD Derby UK in May 2017 this anthology of essays investigates aspects of interconnectivity between painting digital and photography in contemporary art practices It contributes to critical discourses around networks of associations by examining where syntheses occur and differences remain between these mediums at the beginning of the twenty first century

So You Think You're Human? Felipe Fernández-Armesto,2005 You think you re human But what does that mean How can humanity be defined Felipe Fernandez Armesto takes us on an enlightening and provocative journey through the history of humankind to reveal the challenges to our most fundamental belief that we are and have always been human Fernandez Armesto investigates advances in artificial intelligence and genetics and asks what these mean for the future of human values human rights and the defence of human dignity The book illustrates how our concept of humankind has changed over time and how our current understanding of this has been shaken by new challenges from science and philosophy

The Disintegrating Conscience and the Decline of Modernity Steven D. Smith,2023-10-15 This book considers how the modern concept of conscience turns the historic commitment on its head in a way that underlies the decadence of modern society Steven D Smith s books are always anticipated with great interest by scholars jurists and citizens who see his work on foundational questions surrounding law and religion as shaping the debate in profound ways Now in *The Disintegrating Conscience and the Decline of Modernity* Smith takes as his starting point Jacques Barzun s provocative assertion that the modern era is coming to an end Smith considers the question of decline by focusing on a single theme conscience that has been central to much of what has happened in Western politics law and religion over the past half millennium Rather than attempting to follow that theme step by step through five hundred years the book adopts an episodic and dramatic approach by focusing on

three main figures and particularly portentous episodes first Thomas More's execution for his conscientious refusal to take an oath mandated by Henry VIII second James Madison's contribution to Virginia law in removing the proposed requirement of religious toleration in favor of freedom of conscience and third William Brennan's pledge to separate his religious faith from his performance as a Supreme Court justice These three episodes Smith suggests reflect in microcosm decisive turning points at which Western civilization changed from what it had been in premodern times to what it is today A commitment to conscience Smith argues has been a central and in some ways defining feature of modern Western civilization and yet in a crucial sense conscience in the time of Brennan and today has come to mean almost the opposite of what it meant to Thomas More By scrutinizing these men and episodes the book seeks to illuminate subtle but transformative changes in the commitment to conscience changes that helped to bring Thomas More's world to an end and that may also be contributing to the disintegration of per Barzun the modern era
