known about the sources and forms of day to day struggle In *Chiefs of the Plantation* Lincoln Addison examines how labour conflict is fuelled by changing management practices and how workers respond and resist across spatial sexual and spiritual domains Depicting in rich ethnographic detail daily life on a plantation Addison describes how agriculture has been restructured in the post apartheid era through a delegation of authority from white landowners to black intermediaries He explains that while this labour regime enables the profitability of plantations it gives rise to a fragile moral economy in which perceptions of what is tolerable and what is exploitation frequently clash In this environment transactional sex and Christian worship emerge as important terrains of gendered and spiritual contestation where women and low ranking workers remain resilient in the face of unequal power relations Meanwhile plantations project an appearance of benevolent paternalism particularly in the narratives and self identity of white landowners This book reveals how in the everyday life of the community both the plantation and the compound where the workers live serve as central grounds for the negotiation of labour relations A groundbreaking study that uncovers how migrant plantation workers challenge their exploitation *Chiefs of the Plantation* is a rare glimpse into the often hidden world of labour struggle on contemporary plantations *Routledge Handbook of Gender and Agriculture* Carolyn E. Sachs, Leif Jensen, Paige Castellanos, Kathleen Sexsmith, 2020-10-28 The *Routledge Handbook of Gender and Agriculture* covers major theoretical issues as well as critical empirical shifts in gender and agriculture Gender relations in agriculture are shifting in most regions of the world with changes in the structure of agriculture the organization of production international restructuring of value chains climate change the global pandemic and national and multinational policy changes This book provides a cutting edge assessment of the field of gender and agriculture with contributions from both leading scholars and up and coming academics as well as policymakers and practitioners The handbook is organized into four parts part 1 institutions markets and policies part 2 land labor and agrarian transformations part 3 knowledge methods and access to information and part 4 farming people and identities The last chapter is an epilogue from many of the contributors focusing on gender agriculture and shifting food systems during the coronavirus pandemic The chapters address both historical subjects as well as ground breaking work on gender and agriculture which will help to chart the future of the field The handbook has an international focus with contributions examining issues at both the global and local levels with contributors from across the world With contributions from leading academics policymakers and practitioners and with a global outlook the *Routledge Handbook of Gender and Agriculture* is an essential reference volume for scholars students and practitioners interested in gender and agriculture Chapter 13 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Rural Wage Employment in Developing Countries Carlos Oya, Nicola Pontara, 2015-05-22 There is a striking scarcity of work conducted on rural labour markets in the developing world particularly in Africa This book aims to fill this gap by bringing together a group of contributors who boast substantial field experience researching rural wage employment in various developing countries It provides critical perspectives on mainstream approaches to rural agrarian development and analysis of agrarian change and rural transformations from a long term perspective This book challenges the notion that rural areas in low and middle income countries are dominated by self employment It purports that this conventional view is largely due to the application of conceptual frameworks and statistical conventions that are ill equipped to capture labour market participation The contributions in this book offer a variety of methodological lessons for the study of rural labour

markets focusing in particular on the use of mixed methods in micro level field research and more emphasis on capturing occupation multiplicity The emphasis on context history and specific configurations of power relations affecting rural labour market outcomes are key and reoccurring features of this book This analysis will help readers think about policy options to improve the quantity and quality of rural wage employment their impact on the poorest rural people and their political feasibility in each context **Fast Food/Slow Food** Richard Wilk, 2006-08-25 Wilk and his colleagues draw upon their own international field experience to examine how food systems are changing around the globe The authors offer a cultural perspective that is missing in other economic and developmental studies and provide rich ethnographic data on markets industrial production and food economies This new book will appeal to professionals in economic and environmental anthropology economic development agricultural economics consumer behavior nutritional sciences environmental sustainability and globalization studies
