Nobody knows when the attractive Woodland plant known to the world as strawberries decided to leave the edges of the
wood lands and invade the gardens of human beings But one is grateful that this is one plant which was allowed to grow and
flourish in the gardens instead of being considered to be just another weed which had this habit of taking over large coppices
which were rich in natural humus This very popular fruit cultivated globally is now known as the garden or just a strawberry
It belongs to the *Fragaria* genus of plants which is made up of other fruits which are not berries but are a number of
aggregate fruits Thanks to its very attractive red and bright color strawberry aroma sweetness and juicy flavor is it a surprise
that there is no fruit like the strawberry for adding style and distinction to your garden patch Just imagine ice creams fruit
juice milkshakes chocolates and pies which have not been flavored with the delicate flavor of a strawberry In fact artificially
produced strawberry flavors are used extensively in lip glosses lip balms and other beauty products Strawberries especially
the Woodland strawberries are supposed to have originated in Europe because references to these sweet delicious berries
have been found in ancient Roman classical cuisine They were also used by the Romans to cure a number of ailments related
to the skin Crushed strawberries were placed under ashes and skin problems in order to clear and cure the skin ailment and
to make it smooth and glowing again The plant was also used to treat depression Strawberry growers of the early Victorian
days used to take a great delight in digging up large coppices in the wood lands These lands were rich in natural fertilizer
especially organic fertilizer humus and a well fertilized soil too These lands were then allowed to be overrun with
strawberries When people got to know in the medieval ages that all you had to do was go into the woods cut some strawberry
runners and plant them in your plot of land and they would grow and bear fruit this fruit began to be more and more popular
