*Street Smarts and Critical Theory* Thomas McLaughlin, 1996-11-01 Everybody's got a theory or do they Thomas McLaughlin argues that critical theory raising serious sustained questions about cultural practice and ideology is practiced not only by an academic elite but also by savvy viewers of sitcoms and TV news by Elvis fans and Trekkies by labor organizers and school teachers by the average person in the street Like academic theorists who are trained in a tradition of philosophical and political skepticism that challenges all orthodoxies the vernacular theorists McLaughlin identifies display a lively and healthy alertness to contradiction and propaganda They are not passive victims of ideology but active questioners of the belief systems that have power over their lives Their theoretical work arises from the circumstances they confront on the job in the family in popular culture And their questioning of established institutions McLaughlin contends is essential and healthy for it energizes other theorists who clarify the purpose and strategies of institutions and justify the existence of cultural practices Street Smarts and Critical Theory leads us through eye opening explorations of social activism in the Southern Christian anti pornography movement fan critiques in the zine scene New Age narratives of healing and transformation the methodical manipulations of the advertising profession and vernacular theory in the whole language movement Emphasizing that theory is itself a pervasive cultural practice McLaughlin calls on academic institutions to recognize and develop the theoretical strategies that students bring into the classroom This book demystifies the idea of theory taking it out of the hands of a priestly caste and showing it as the democratic endowment of the people Daniel T O Hara Temple University author of *Radical Parody American Culture and Critical Agency after Foucault* and *Lionel Trilling The Work of Liberation* McLaughlin takes seriously the critical and theoretical activity of everyday people and does so in a way that will empower these very populations to take seriously their own activities as theorists A manifesto that is sure to be heard by the younger generation of thinkers in American cultural studies Henry Jenkins MIT author of *Textual Poachers Television Fans and Participatory Culture*

**Inmates' Narratives and Discursive Discipline in Prison** Jennifer Schlosser, 2015-05-15 The question of what works in offender treatment has dominated the field of prisoner re entry

and recidivism research for the last thirty years One of the primary ways the criminal justice system tries to reduce the rates of recidivism among offenders is through the use of cognitive behavioural programs CBP as in prison intervention strategies The emphasis for these programs is on the idea that inmates are in prison because they made poor choices and bad decisions Inmates thinking is characterized as flawed and the purpose of the program is to teach them to think and act in socially appropriate ways so they will be less inclined to return to prison after their release This book delves into the heart of one such cognitive behavioural programme examines its inner workings its effects on inmates narrated experience and considers what happens when a CBP of substandard quality and integrity is used as a gateway for inmates release Based on original empirical research this book provides realistic suggestions for improving policy for reforming current in prison programs engaging in problematic practices and for instituting alternatives that take the needs of the inmates into greater account This book is essential reading for students and academics engaged in the study of sociology criminal justice prisons social policy sentencing and punishment

Identity, Diversity and Teaching for Social Justice Juliet Perumal,2007 In recent times educational reformers have proposed ways of using education to reduce inequality overcome discriminatory values and attitudes and alleviate social problems An increasing number of language theorists and practitioners contends that in order to reduce inequality it is essential to address the personal cultural and political implications of language teaching Awareness of these factors activate the need to gain deeper insight into the personal and professional nuances of teachers lives The gap between sociolinguistic theory and educational practice points to the fact that linguists and educationists themselves carry the prejudices of particular social ideological cultural and geographical backgrounds Who teaches what to whom why and how affects curricular decisions which can thus become fraught with political allegiances in this way the non neutrality of language pedagogy is confirmed Drawing from a suite of data sources the book explores the following questions Do teachers autobiographical experiences shape their professional identities Does subscription to counter hegemonic ideologies impact teachers personal and professional positionality and authority What contributions can feminist theorising make to language teaching in socially diverse classrooms Through an exploration of these questions the book gestures towards an imperative to re think educative and pedagogic relationships and the politics of difference and dialogue in demographically diverse classrooms that subscribe to social redress agendas
