Strengthening The United Nations Commission To Study The Organization Of Peace

Wendell Gordon

Strengthening The United Nations Commission To Study The Organization Of Peace:

Strengthening the United Nations, Etc. (Tenth Report of the Commission to Study the Organization of Peace.).

Commission to Study the Organization of Peace (United States),1957 Key Documents on the Reform of the UN Security Council 1991-2019 Bardo Fassbender,2020-10-12 Key Documents on the Reform of the UN Security Council 1991 2019 brings together primary source documents reflecting the political legal and academic discussions of the United Nations Security Council reform in particular the Council s membership and decision making as they have taken place since 1991 Earlier discussions from the late 1940s through 1991 are covered insofar as they offer a useful contribution to the current debate This extensive collection curated by a leading authority is intended to be representative of the debate as a whole without bias faithfully reflecting the positions of various stakeholders global participants and civil society This important work will be an indispensable resource for researchers and students bringing together hundreds of documents produced during more than three decades by governments UN bodies universities think tanks and individual authors in a single comprehensive volume *A Better United Nations for the New Millennium* Kamil Idris,Michael Bartolo,2021-10-18

Strengthening the United Nations Commission to Study the Organization of Peace,American Association for the United Nations,1958 *Strengthening the United Nations* Commission to Study the Organization of Peace,Arthur Norman Holcombe,1957 **To Reform the World** Guy Fiti Sinclair,2017-03-02 This book explores how international organizations IOs have expanded their powers over time without formally amending their founding treaties IOs intervene in military financial economic political social and cultural affairs and increasingly take on roles not explicitly assigned to them by law Sinclair contends that this mission creep has allowed IOs to intervene internationally in a way that has allowed them to recast institutions within and interactions among states societies and peoples on a broadly Western liberal model Adopting a historical and interdisciplinary socio legal approach Sinclair supports this claim through detailed investigations of historical episodes involving three very different organizations the International Labour Organization in the interwar period the United Nations in the two decades following the Second World War and the World Bank from the 1950s through to the 1990s The book draws on a wide range of original institutional and archival materials bringing to light little known aspects of each organization s activities identifying continuities in the ideas and practices of international governance across the twentieth century and speaking to a range of pressing theoretical questions in present day international law and international relations

Strengthening the United Nations Commission to Study the Organization of Peace N. Holcombe,2016-04-27 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and

possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **A Most Uncertain Crusade**

Rowland Brucken, 2013-12-01 A Most Uncertain Crusade traces and analyzes the emergence of human rights as both an international concern and as a controversial domestic issue for US policy makers during and after World War II Rowland Brucken focuses on officials in the State Department at the United Nations and within certain domestic non governmental organizations and explains why after issuing wartime declarations that called for the definition and enforcement of international human rights standards the US government refused to ratify the first UN treaties that fulfilled those twin purposes The Truman and Eisenhower administrations worked to weaken the scope and enforcement mechanisms of early human rights agreements and gradually withdrew support for Senate ratification A small but influential group of isolationist oriented senators led by John Bricker R OH warned that the treaties would bring about socialism destroy white supremacy and eviscerate the Bill of Rights At the UN a growing bloc of developing nations demanded the inclusion of economic guarantees support for decolonization and strong enforcement measures all of which Washington opposed Prior to World War II international law considered the protection of individual rights to fall largely under the jurisdiction of national governments Alarmed by fascist tyranny and guided by a Wilsonian vision of global cooperation in pursuit of human rights President Roosevelt issued the Four Freedoms and the Atlantic Charter Behind the scenes the State Department planners carefully considered how an international organization could best protect those guarantees Their work paid off at the 1945 San Francisco Conference which vested the UN with an unprecedented opportunity to define and protect the human rights of individuals After two years of negotiations the UN General Assembly unanimously approved its first human rights treaty the Genocide Convention The UN Commission on Human Rights UNCHR led by Eleanor Roosevelt drafted the nonbinding Universal Declaration of Human Rights in 1948 Subsequent efforts to craft an enforceable covenant of individual rights though bogged down quickly A deadlock occurred as western nations communist states and developing countries disagreed on the inclusion of economic and social guarantees the right of self determination and plans for implementation Meanwhile a coalition of groups within the United States doubted the wisdom of American accession to any human rights treaties Led by the American Bar Association and Senator Bricker opponents proclaimed that ratification would lead to a U N led tyrannical world socialistic government The backlash caused President Eisenhower to withdraw from the covenant drafting process Brucken shows how the American human rights policy had come full circle Eisenhower like Roosevelt issued statements that merely celebrated western values of freedom and democracy criticized human rights records of other countries while at the

same time postponed efforts to have the UN codify and enforce a list of binding rights due in part to America's own human rights violations

Report of the Commission to Study the Organization of Peace, 1980 *Pragmatic Liberal Approach To World Order* Nejat Dogan, 2012-12-21 There are two well known approaches to the study of international relations Realism and Idealism This book explores the writings of Inis L Claude Jr a preeminent scholar on international relations to define a third approach Pragmatic liberalism an in between approach argues that a liberal world order can be sustained and promoted by the pragmatic application of liberal principles It rejects both the over pessimism of Realism and the over optimism of Idealism while refusing to maintain that the anarchic nature of the international system is unchangeable or even that we can change it overnight However it is possible to eventually improve the international system This melioristic approach to world order and international relations can be explained through the sophisticated writings of Inis L Claude Jr who has remained a celebrated scholar and an example to students of international relations everywhere for over a half century

La méthode de la référence à l'ordre juridique compétent en droit international privé, 1987-04-14 Sovereign Equality of States in International Law R P Anand R P Anand Professor at the Jawaharlal University of New Delhi points out in the introduction of his course that the principle of sovereign equality of States refers to two twin principles which are accepted as unimpeachable norms of modern international law which cannot be questioned the principles of equality and of sovereignty of States Taking this as his starting point the author first discusses the sovereignty of States in an interdependent world He then examines the principle of equality of States in an unequal world from a historical perspective Finally Professor Anand tackles the questions of equality of States in a hierarchical world order and mini States and equality of rights La Méthode de la Référence à l'Ordre juridique compétent en Droit international privé Paolo Picone Paolo Picone Professor at the University of Naples notes in the introduction to his course that contemporary international law such as it evolved during the 19th century developed different methods of coordination One method has nevertheless been neglected which consist in choosing not the applicable law but the competent legal system After discussing the crisis in private international law the author examines the method of coordination of legal systems based on the applicable law followed by one that is based on reference to the competent legal system He describes the functioning of the latter method in the case of the creation of legal situations in the for and in the case of recognition of foreign legal situations in the for Professor Picone finishes his course by investigating the use of this method in solving the problem of preliminary matters in private international law the method's area of application and its future prospects

Reforming the United Nations: New Initiatives and Past Efforts Joachim Müller, This three volume set describes and brings together 50 key reform proposals originating inside and outside the United Nations The documentation contained in this publication touches upon all aspects of the United Nations and covers the full spectrum of proposals and initiatives It is hoped that the information provided will assist those involved in current efforts in reassessing

and reshaping the Organization and will serve as a useful reference set for policy makers researchers and the interested public
