Morley D. Glicken,2009-08-01 At a time when the mental health difficulties disorders of the elderly are coming to the fore of many practitioners patient rosters naming and treating those problems is still too often handled as an art as much as a science Inconsistent practices based on clinical experience and intuition rather than hard scientific evidence of efficacy have for too long been the basis of much treatment Evidence based practices help to alleviate some of the confusion allowing the practitioner to develop quality practice guidelines that can be applied to the client identify appropriate literature that can be

shared with the client communicate with other professionals from a knowledge guided frame of reference and continue a process of self learning that results in the best possible treatment for clients The proposed volume will provide practitioners with a state of the art compilation of evidence based practices in the assessment and treatment of elderly clients As such it will be more clinically useful than anything currently on the market and will better enable practitioners to meet the demands faced in private and institutional practice Focusing on the most current research and best evidence regarding assessment diagnosis and treatment the volume covers difficulties including but not limited to social isolation loneliness elder abuse neglect depression and suicidal inclinations anxiety disorders substance abuse dementias prolonged bereavement patients with terminal illnesses Because concrete research evidence is so often not used as the basis for practice this book provides a timely guide for clinicians social workers and advanced students to a research oriented approach to serving the mental health needs of elderly adults Fully covers assessment diagnosis treatment of the elderly focusing on evidence based practices Consolidates broadly distributed literature into single source and specifically relates evidence based tools to practical treatment saving clinicians time in obtaining and translating information and improving the level of care they can provide Detailed how to explanation of practical evidence based treatment techniques Gives reader firm grasp of how to more effectively treat patients Chapters directly address the range of conditions and disorders most common for this patient population i e social isolation elder abuse neglect depression anxiety disorders terminal illnesses disabilities bereavement substance abuse and dementias Prepares readers for the conditions they will encounter in real world treatment of an elderly patient population Cites numerous case studies and provides integrative questions at the end of each chapter Exposes reader to real world application of each treatment discussed Offers reader easy base for further study of subject saving clinicians time

Handbook of Hope C. Richard Snyder, 2000-06-07 Hope has previously been a construct more of interest to philosophy and religion than in psychology New research has shown however that hope is closely related to optimism feelings of control and motivation toward achieving one's goals The Handbook of Hope presents a comprehensive overview of the psychological inquiry into hope including its measurement its development in children how its loss is associated with specific clinical disorders and therapeutic approaches that can help instill hope in those who have lost theirs A final section discusses hope in occupational applications how the use of hope can make one a better coach teacher or parent Defines hope as a construct and describes development of hope through the lifespan Provides multiple instruments for measuring hope Guides professionals in how to assess hope levels discusses the importance of hope to relationships achieving goals and success at work

Counseling Older Adults John Blando, 2014-04-08 Counseling older adults is not equivalent to counseling the general population and specialized skills and knowledge as well as sensitivity to the contexts in which older adults live are essential in working successfully with this population This text provides an introduction to gerontological counseling integrating the basic skills of working with older adults with theories of counseling and aging Specific counseling issues

discussed include mental health counseling career counseling rehabilitation counseling and family counseling Along with these important contextual factors such as race culture social class social justice spirituality Alzheimer s and other dementias and family issues are considered in light of the latest research Each chapter contains case studies discussion questions a glossary and suggestions for further reading to reinforce the material presented

Handbook of Social Work in Health and Aging Barbara Berkman, 2006-02-09 The Handbook of Social Work in Health and Aging is the first reference to combine the fields of health care aging and social work in a single authoritative volume These areas are too often treated as discrete entities while the reality is that all social workers deal with issues in health and aging on a daily basis regardless of practice specialization As the baby boomers age the impact on practice in health and aging will be dramatic and social workers need more specialized knowledge about aging health care and the resources available to best serve older adults and their families The volume s 102 original chapters and 13 overviews written by the most experienced and prominent gerontological health care scholars in the United States and across the world provide social work practitioners and educators with up to date knowledge of evidence based practice guidelines for effectively assessing and treating older adults and their families new models for intervention in both community based practice and institutional care and knowledge of significant policy and research issues in health and aging A truly monumental resource this handbook represents the best research on health and aging available to social workers today [Social Workers' Desk Reference](#) Albert R. Roberts, 2009 This is a new edition of the wildly successful everyday reference for social workers Like the first edition it has been crafted with the help of an extensive needs assessment survey of educators and front line practitioners ensuring that it speaks directly to the daily realities of the profession It features 40% new material and a more explicit focus on evidence based practice **Policy and Program Planning for Older Adults** Elaine Jurkowski, 2007-08-25 This authoritative book serves as an invaluable resource for policy advocates program planners and service delivery agents It

provides an overview of the major pieces of legislation that currently impact the field of aging and the lives of older adults addresses the philosophical historical and demographic challenges that they face and lays out tools that facilitate policy and program development to include the media coalition building the use of an evidence base and health promotion strategies Jurkowski also examines major service areas for older adults and how each major mandated program addresses these programs and services a must for the program planner or a service delivery setting The book is also extremely helpful to graduate students in social work public health and gerontology building their understanding of policy development through a critical analysis and review of policy frameworks and promotes development of skills in shaping programs and implementing policy Unlike other books in this field Policy and Program Planning for Older Adults focuses on triangulating skills policies and programs for the reader and blends a social welfare and public health approach to the text s conceptual design
