Stress Attitudes Decisions Selected Papers:

Stress, Attitudes, and Decisions Irving Lester Janis, 1982 Crucial Decisions Irving Lester Janis, 1989 Janis shows corporate executives organizational policymakers and general managers how to avoid critical errors and ensure high quality in decision making Current Catalog National Library of Medicine (U.S.), 1983 First multi year cumulation covers six years 1965-70 National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1983 **The Australian Study of Politics** R. Rhodes, 2009-11-11 The Australian Study of Politics provides the first comprehensive reference book on the history of the study of politics in Australia whether described as political studies or political science It focuses on Australia and on developments since WWII also exploring the historical roots of each major subfield **Public Sector Organizations and Cultural Change** Soma Pillay, Chris Bilney, 2015-10-14 Since the height of the privatization debate in the 1990s changes in government policy have resulted in significant transformation in the public sector Some organizations have made the transition from government bureaucracy to business venture successfully others have struggled to relinquish their traditional bureaucratic culture In this book Pillay and Bilney explore the cultural changes occurring within the public sector and the effects that government mandated change initiatives have actually had The culmination of this book was due to the subject expertise and guidance of Professor Robert Jones at Swinburne University of Technology Melbourne Australia It provides perspectives on the efficacy of cultural change in the Australian public sector and explores the practical implications for society and government as it seeks to entrench the culture of the citizen as customer It is particularly useful for researchers and organizations searching for ways to improve service delivery within the confines of particular market positions **Coping and Emotion in Sport** Joanne Thatcher, Marc Jones, David Lavallee, 2011-08-09 The emotional highs and lows of competitive sport whether experienced as a competitor spectator or coach may be the essential ingredient that gives sport its universal and compelling appeal Emotion is clearly a pervasive force within competitive sport and this is reflected in the burgeoning interest over recent decades in athletes emotions and strategies for coping with these emotions The interplay between emotion and coping is a critical factor in determining through its influence on key psychological functions an athlete's potential success in competitive sport This fully revised and updated edition of the classic text on coping and emotion in sport goes further than any other book in examining the central role that these two factors play in sports performance The book explores theory and measurement current research and contemporary issues and special populations respectively Each chapter closely integrates cutting edge research themes with discussion of practical and applied issues with case studies and reflections from practitioners working in elite sport woven throughout the book With contributions from leading international scholars and consultant psychologists this book is vital reading for all students and professionals working in sport psychology The Cambridge Handbook of Meeting Science Joseph A. Allen, Nale Lehmann-Willenbrock, Steven G. Rogelberg, 2015-07-15 This first volume to analyze the science of meetings offers a unique

perspective on an integral part of contemporary work life More than just a tool for improving individual and organizational effectiveness and well being meetings provide a window into the very essence of organizations and employees experiences with the organization The average employee attends at least three meetings per week and managers spend the majority of their time in meetings Meetings can raise individuals teams and organizations to tremendous levels of achievement However they can also undermine effectiveness and well being The Cambridge Handbook of Meeting Science assembles leading authors in industrial and organizational psychology management marketing organizational behavior anthropology sociology and communication to explore the meeting itself including pre meeting activities and post meeting activities It provides a comprehensive overview of research in the field and will serve as an invaluable starting point for scholars who seek to understand and improve meetings Project Management Multiplicity - Current Trends Jan Pries-Heje,2012

Biographical Dictionary of Psychology Noel Sheehy, Antony J. Chapman, Wenday A. Conroy, 2016-01-08 First published in 2002 Routledge is an imprint of Taylor Francis an informa company *Prospects of Heart Surgery* Alan Radley, 2012-12-06 Prospects of Heart Surgery Psychological Adjustment to Coronary Bypass Grafting reports on a study of how patients and their spouses adjusted to the prospect and then to the outcome of coronary graft surgery The focus upon patients social relationships rather than upon individuals reveals that the way people bear their illness and adapt to symptom removal is part of a wider adjustment involving both the spouse and other individuals The book offers as one of its main contributions a social psychological approach to the study of illness in general It sets out a new methodology which might be applied in a number of illness contexts Using both qualitative and quantitative analyses Prospects of Heart Surgery describes differences between smooth and problematic approaches to surgery as well as variations in the experience of rehabilitation afterwards **'Enlarge the Site of Your Tent'** Archibald L.H.M. van Wieringen, Annemarieke van der Woude, 2010-10-25 In this volume the Jesaja Werkplaats examines the question as to the unity of the book Isaiah from the perspective city This volume offers an intriguing variety of contributions on the city through the entire book Isaiah Engineering Education John Heywood, 2006-01-24 A synthesis of nearly 2 000 articles to help make engineers better educators While a significant body of knowledge has evolved in the field of engineering education over the years much of the published information has been restricted to scholarly journals and has not found a broad audience This publication rectifies that situation by reviewing the findings of nearly 2 000 scholarly articles to help engineers become better educators devise more effective curricula and be more effective leaders and advocates in curriculum and research development The author s first objective is to provide an illustrative review of research and development in engineering education since 1960 His second objective is with the examples given to encourage the practice of classroom assessment and research and his third objective is to promote the idea of curriculum leadership The publication is divided into four main parts Part I demonstrates how the underpinnings of education history philosophy psychology sociology determine the aims and objectives of the curriculum and the curriculum s

internal structure which integrates assessment content teaching and learning Part II focuses on the curriculum itself considering such key issues as content organization trends and change A chapter on interdisciplinary and integrated study and a chapter on project and problem based models of curriculum are included Part III examines problem solving creativity and design Part IV delves into teaching assessment and evaluation beginning with a chapter on the lecture cooperative learning and teamwork The book ends with a brief insightful forecast of the future of engineering education Because this is a practical tool and reference for engineers each chapter is self contained and may be read independently of the others Unlike other works in engineering education which are generally intended for educational researchers this publication is written not only for researchers in the field of engineering education but also for all engineers who teach All readers acquire a host of practical skills and knowledge in the fields of learning philosophy sociology and history as they specifically apply to the process of engineering curriculum improvement and evaluation

Assessment in Higher Education John Heywood,2000
This book examines not only the assessment of student learning but the assessment of institutions the programmes they offer and the teaching they provide It describes in detail the significant developments that have taken place over the last decade in the field and clarifies the different meanings of the term assessment that are now in use
