**Material Discourses of Health and Illness** Lucy Yardley, 2013-01-11 Material Discourses of Health and Illness applies discursive approaches to the field of health psychology in stark contrast to the bio medical model of health and illness The discursive approach uses the person s experience and feelings as the central focus of interest whereas the more traditional models regarded these as coincidental and relatively unimportant The book provides an accessible and compelling introduction to social constructionist and discursive approaches to those with limited previous knowledge of socio linguistic theory and research It provides practical examples of how these approaches can be applied to the field of health psychology with a

collection of sophisticated discursive analyses which demonstrate the distinctive contribution that can be made by psychologists to a field that has been largely dominated by sociologists and anthropologists      When Firms Change Direction Anne Sigismund Huff, James Oran Huff, with Pamela Barr, 2001-01-11 Firms within the same competitive environment industry respond in different ways to changing environmental competitive conditions The authors of this book argue that the strategy field has not found answers to the questions that flow from this observation They answer these questions by using what they call a cognitively anchored theory of strategic change      *Adult Psychopathology, Second Edition* Francis J. Turner, 1999-09-02 The most comprehensive textbook for students in advanced social work and mental health courses is now completely revised and updated for a new generation When *Adult Psychopathology A Social Work Perspective* was first published in 1984 this pioneering text was the first to conceptualize and organize theory and practice about the treatment of the mentally ill within their families and communities from a social work perspective Now in response to new developments in theory and research as well as changes in service delivery within the field the second edition contains updated and accessible information on how mental illnesses develop and how they can be treated within a social work framework that recognizes the importance of family economics and culture as well as biochemical and psychodynamic factors Each chapter is written by the leading social work authority on that subject and includes practical in depth discussion of state of the art technologies treatments and research The book encompasses the broad spectrum of topics that social workers need to understand including personality adjustment schizophrenia suicide anxiety states phobias neurological disorders psychosexual disorders drug and alcohol addiction eating disorders and others *Adult Psychopathology Second Edition* is essential for both M S W and Ph D social work students and as the authoritative unequaled reference book will aid clinicians in making more precise diagnoses in their daily work      *Current Catalog* National Library of Medicine (U.S.), 1985 First multi year cumulation covers six years 1965 70      *Colitis* Michael P. Kelly, 2003-09-02 Ulcerative colitis is a chronic condition that has a number of long term complications and creates certain short term problems for the sufferer Michael Kelly himself a sufferer describes the experience of ulcerative colitis from the perspective of men and women who have had the disease and examines the social and psychological issues surrounding the condition      **Handbook of Emotion Regulation, First Edition** James J. Gross, 2011-12-07 This authoritative volume provides a comprehensive road map of the important and rapidly growing field of emotion regulation Each of the 30 chapters in this handbook reviews the current state of knowledge on the topic at hand describes salient research methods and identifies promising directions for future investigation The contributors who are the foremost experts in the field address vital questions about the neurobiological and cognitive bases of emotion regulation how we develop and use regulatory strategies across the lifespan individual differences in emotion regulation social psychological approaches and implications for psychopathology clinical interventions and health

**Making Sense of Illness** Alan Radley, 1994-12-13 This book is a must read for all students of health psychology and will

be of considerable interest and value to others interested in the field The discipline has not involved itself with the central issues of this book so far but Radley has now brought this material together in an accessible way offering important new perspectives and directions for the discipline This book goes a long way towards making sense for and of health psychology Journal of Health Psychology What are people's beliefs about health What do they do when they feel ill Why do they go to the doctor How do they live with chronic disease This introduction to the social psychology of health and illness addresses these and other questions about how people make sense of illness in everyday life either alone or with the help of others Alan Radley reviews findings from medical sociology health psychology and medical anthropology to demonstrate the relevance of social and psychological explanations to questions about disease and its treatment Topics covered include illness the patient and society ideas about health and staying healthy recognizing symptoms and falling ill and the healing relationship patients nurses and doctors The author also presents a critical account of related issues stress health promotion and gender differences

*Health Psychology*, **Managing Motherhood** Janet L. Currie, 2018-05-07 This book asserts that women attain higher levels of health in the mothering role when they achieve increased control over their own health lifestyle and environment Reflecting the philosophy of health promotion it explores the meaning of the positive coping experience for new mothers identifying the essential features of resilience in a new coping model based on ground breaking analytical techniques Further the book discusses preventative strategies for building resilience and quality of life during the period of new motherhood opening new horizons and dialogues related to what coping can actually mean when underpinned by a well being paradigm

**Abnormal Behavior** David Sue, 1993-11 *The Clinical Presentation of Parkinson's Disease and the Dyadic Relationship between Patients and Carers* Barbara Politynska, 2014-10-17 Providing care for someone with a neurodegenerative condition such as Parkinson's disease requires an integrated approach taking into account the needs of the person with the disorder and family members most closely involved in their care This is only possible with an understanding of the complex nature of Parkinson's disease extending beyond the management of the motor disorder It also requires an appreciation of the significant neuropsychological changes accompanying the disease which

**Fighting to Finish** Richardson Otis Allen, 2004 *A Practical Philosophy for the Life Sciences* Wim J. van der Steen, 1993-01-01 This book integrates philosophy of biology and philosophy of medicine with the purpose of making philosophy practical for students and scientists It contains many exercises and examples from live science Much attention is given to the translation of scientific reasoning into the language of philosophy The author shows that philosophical models can be used to evaluate science if the limitations of the models are recognized so they can be applied in the proper context On the other hand some philosophical views of science need to be corrected by science The book puts philosophy and science in a broader perspective It integrates practical philosophy and ethics in applications to live science and uncovers limitations of current ethical theory
