## **Strife In The Sanctuary:**

Strife in the Sanctuary Phil Zuckerman,1999 For more than forty years there was a single synagogue in the quiet town of Williamette Oregon But then disagreements over gender roles homosexuality Israeli politics and other issues tore the synagogue in two Where there was once one Jewish community under one roof there are now two hostile congregations one Reconstructionist one Orthodox across the street from one another Through a year as a participant in both congregations and in depth interviews Zuckerman tells a mesmerizing story of this religious schism Strife in the Sanctuary then contemplates why religious groups split apart and how religious symbols come to mean different things to different groups The first book length study of a single congregation breaking in two Strife in the Sanctuary provides a welcome ethnographic study for sociologists of religion Plus its moving story makes it an excellent read for undergraduate classes or anyone interested in religious divisions

The Internationalization of Communal Strife (Routledge Revivals) Manus I. Midlarsky,2014-06-03 First published in 1992 this edited collection argues that conflicts have a growing tendency both to intensify and to lengthen thus increasing the likelihood of external actors being drawn into the on going violence Here leading experts in comparative and international politics examine this tendency of communal conflicts to spill over into the international arena They also look at the conditions under which these processes do not occur and are mediated successfully The authors combine theoretical perspectives with case studies covering examples from the origins of the First World War to state building in Iraq and whether it was a precursor of the Iran Iraq War and the Gulf Crisis They present both a global overview and a focus on the state as the single most important intermediary in the internationalization process A comprehensive and relevant reissue this volume will appeal to students and scholars of International Relations Comparative Politics and Strategic Studies

**Schoolchildren as Propaganda Tools in the War on Terror** Sonja C. Grover, 2011-03-19 This book explores in what ways both sides involved in the so called war on terror are using schoolchildren as propaganda tools while putting the children s security at grave risk The book explores how terrorists use attacks on education to attempt to destabilize the government while the government and the international aid community use increases in school attendance as an ostensible index of largely illusory progress in the overall security situation and in development The book challenges the notion that unoccupied civilian schools are not entitled under the law of armed conflict to a high standard of protection which prohibits their use for military purposes Also examined are the potential violations of international law that can occur when government and education aid workers encourage and facilitate school attendance as they do in areas within conflict affected states such as Afghanistan where security for education is inadequate and the risk of terror attacks on education high

**History Of The War In France And Belgium In 1815. 3rd Edition** Captain William Siborne, 2011-03-23 When Captain Siborne died in 1849 it is unlikely that he was aware of the enduring historical legacy that he was to leave behind His History of the War in France and Belgium in 1815 has become the most well known English history of the famous campaign and despite being written over 150 years ago is still in print still eminently readable and remarkably accurate The book was the result of his life's work and passionate dedication to the Waterloo Model which depicts a stage of the battle in tremendous detail The accuracy of the book is accounted for by four tremendously important points Firstly Siborne was engaged by the British military establishment to produce a model of the battle of Waterloo which he did with scrupulous accuracy including painstaking research on the battle ground and environs including surveys of the ground Secondly Siborne was a noted topographical engineer who wrote a number of treatises and one of the standard works of the time enabling his appreciation of the battle to be precise and avoid fault of many histories written merely from maps some produced years afterward of the area Thirdly he undertook what was at the time a ground breaking questionnaire of the surviving officers of the British King's German Legion Hanoverian units involved to piece together the events of the day These letters were published in part by Siborne's son much later Fourthly he expanded his search for eye witness testimony to both the Prussian and French army staffs and although rebuffed by the French who were understandably tender about the loss of the battle and their Emperor with it his enquiries were fruitful amongst the Prussian command who supplied a priceless counterbalance to the sometimes jingoistic British accounts Siborne and his works were ahead of their time and his search for an accurate representation of the battle won him few friends at Horse Guards Funding was difficult to obtain from the British establishment and Siborne's attempts at self funding the model which was his life's work were unsuccessful Siborne died a broken man He left behind the Waterloo Model and a larger scale model which are housed at the Royal Army Museum in London and this excellent book We chose the third edition as it includes the impassioned defence of his work against the plagiarism of Rev R Gleig's Story of Waterloo and a number of notable changes from the first and second editions prompted by further eye witness testimony gathered by Siborne Author Captain William Siborne 15 October 1797 9 January 1849
