## **Strike A Live History 1887 1971:**

**Strike: a Live History** Robert Arthur Leeson, 1973

**A Bibliography of British Industrial Relations 1971-1979**

George Sayers Bain, J. D. Bennett, 1985-12-05 The bibliography contains references to literature on British industrial relations published in the years 1971 to 1979 inclusive It includes books periodical articles theses government publications pamphlets and any other relevant publications As well as general material on industrial relations the bibliography includes material on employee attitudes and behaviour employee organisation employers and their organisation collective bargaining industrial conflict industrial democracy the labour market training employment unemployment labour mobility pay conditions and the role of the state in industrial relations It is cross referenced and has an author index It is a supplement to the volume compiled by George Bain and Gillian Woolven published by the Press in 1979 and for the years since 1980 is itself updated by annual articles in the British Journal of Industrial Relations The material is arranged by subject and chronologically within that framework

*Strike* R.A. Leeson, 2025-09-01 Apart from the ballot strikes are the commonest means of attempted social change in Britain There have been some 100 000 strikes in this country in eighty years and 1971 saw more stoppages than any other year Yet the standard twentieth century social history text acknowledges only one strike the General Strike of 1926 Such accounts of strikes as do exist are written by academics by social scientists and historians by outside observers First published in 1973 *Strike* covers nearly 150 strikes in twenty major industries from the time of Victoria's Golden Jubilee to the first year of Heath's government It does so by going to the source the strikers themselves a section of the public much written about but whose views are rarely published in detail Apart from the introduction and some brief linking material the story is told by eighty five strikers The people the author has spoken to range from a veteran unionist who can recall the Great Dock Strike of 1889 to rank and file leaders of the dock strikes that followed the Second World War and the episodes they recall range from a stoppage by child apprentices in 1887 in a Dundee jute mill to the Postal Workers strike of 1971 They include people of the Left and of the Right and of no political allegiance some are familiar names who have entered Parliament and become members of the Cabinet while others are unknown except to those with whom they work What emerges from their recollections here is a rich and vivid chronicle of industrial disputes over the past century as these appeared to the strikers themselves

**Routledge Library Editions: Transport Economics** Various, 2021-07-29 This set of previously out of print titles is an essential reference collection on the topic of transport economics Providing in depth analysis on a variety of aspects including the economics of the airfreight shipping and rail industries it also examines the economics of road transport and more focused areas such as containerisation

**Leninism, Stalinism, and the Women's Movement in Britain, 1920-1939** Sue Bruley, 2013-04-02 This book offers a detailed examination of the interaction between socialism and feminism through the lens of one particular socialist organisation the Communist Party of Great Britain from its foundation in 1920 until the outbreak of the Second World War The study of socialism and feminism in the

CPGB can be divided into four major areas the party's concept of socialism and the role of women in a future society the party's relationship to the feminist movement the work of the party in relation to specific women's issues and how the sexual division of labour operated within the party The author here defines and explains the socialist and feminist traditions in Britain and describes the ways in which they interacted both at the level of theory and of practice Sources from party press and reports to interviews with party members and non party written and oral evidence and accounts feed into this thorough chronological treatment which outlays the changes within the CPGB during the 1920s and 30s in relation to feminism

**Routledge Library Editions: The Labour Movement** Various, 2021-07-28 This set of 44 volumes originally published between 1924 and 1995 amalgamates a wide breadth of research on the Labour Movement including labour union history the early stages and development of the Labour Party and studies on the working classes This collection of books from some of the leading scholars in the field provides a comprehensive overview of the subject how it has evolved over time and will be of particular interest to students of political history

*British Labour and the Cold War* Peter Weiler, 1988 A critical examination of the labour government and trades Union Congress in the immediate postwar period this book argues that the Cold War was not just a traditional conflict between states but also an attempt to contain the growth of radical working class movements at home and abroad These radical movements stimulated by the Second World War and its aftermath seemed to policymakers within the Labour Party and the TUC to threaten British interests The author contends that the Labour government never seriously considered following a socialist foreign policy but instead sought to shape political developments throughout the world in ways most conducive to maintaining Britain's traditional economic and imperial interests The government was able to follow established policies abroad and increasingly at home at least in part because British trade union leaders supported its attempts to prevent radicals and communists from coming to power in trade union movements inside Britain and throughout the world In so doing the trade union movement significantly extended its links with the state in particular by cooperating with it in the sphere of foreign and colonial labour policy

**The Employment of Merchant Seamen** Jonathan S. Kitchen, 2017-04-28 This book first published in 1980 covers the employment of merchant seamen principally from the perspective of a labour lawyer but including a great deal of material not normally found in books on labour law It also shows how the law is but one kind of rule that the collective organisations of workers and employers create and enforce rules of industrial practice that have just as important an effect on the lives of those they cover

**Labor Literature**, 1976

Reform, Revolution and Direct Action amongst British Miners Martyn Ives, 2016-09-07 In *Reform Revolution and Direct Action amongst British Miners* Martyn Ives offers a new perspective on one of the most volatile periods in labour history His research into the astonishing coalfield militancy of 1919 reveals it was a watershed year on a par with 1926 Indeed the General Strike was in many ways merely its dim echo Whilst historians have skated over the labour unrest of 1919 Martyn Ives uncovers a remarkable incidence of unofficial mass strikes in the coalfields waged against mine owners

government and trade union leaders alike Led by revolutionaries and infused with political radicalism this mass movement offered a glimpse of an alternative road to socialism based upon the organised industrial power of the working class

**Guide to O'Casey's Plays** John O'Riordan,1984-06-18      **Young Women, Work, and Family in England 1918-1950**

Selina Todd,2005-09-22 This fascinating account of young women s lives challenges existing assumptions about working class life and womanhood in England between the end of the First World War and the beginning of the 1950s While contemporaries commonly portrayed young women as pleasure loving leisure consumers this book argues that the world of work was in fact central to their life experiences Social and economic history are woven together to examine the working family and social lives of the maids factory workers shop assistants and clerks who made up the majority of England s young women Selina Todd traces the complex interaction between class gender and locale that shaped young women s roles at work and home indicating that paid work structured people s lives more profoundly than many social histories suggest Rich autobiographical accounts show that while poverty continued to constrain life choices young women also made their own history Far from being apathetic workers or pliant consumers they forged new patterns of occupational and social mobility were important breadwinners in working class homes developed a distinct youth culture and acted as workplace militants In doing so they helped to shape twentieth century society      Race and Labour in Twentieth-Century Britain Kenneth

Lunn,2019-08-16 This collection of essays was put together with a view to furthering the study of the history of immigration into Britain Naturally enough a good deal of attention in recent years has been directed at race relations in Britain from the 1960s onwards As Peter Fryer s study *Staying Power* 1984 has shown there is a rich and important history of black settlement before these years and its significance in shaping responses towards more recent migrants has still to be adequately evaluated We are constantly being reminded of the legacy of empire and its importance in terms of influencing current policy and attitudes      Leisure and the Family Life Cycle Rhona Rapoport,Robert N. Rapoport,2019-04-25 This

volume first published in 1975 with a new introduction by Ziona Strelitz marked a pioneering contribution to family and leisure studies The study includes empirical material collected in the form of biographical case studies The case studies are not only rich in detail and well presented but they provide a meaning of leisure within the pattern of life of the individuals studied This book will be of great interest to students of leisure and family studies      **Tracing Your Freemason, Friendly**

**Society & Trade Union Ancestors** Daniel Weinbren,2019-01-30 An easy to use guide for British family historians researching ancestry tied to organizations like the Freemasons friendly societies and trade unions Fraternal and friendly societies and trade unions associations that provide mutual aid and benefits have a long fascinating history and the most famous of them the Freemasons have a reputation for secrecy ritual and intrigue that excites strong interest and has been the subject of widespread misunderstanding Daniel Weinbren in this concise accessible handbook dispels the myths surrounding them and gives readers insight into their real purposes their membership and their development over the

centuries He has also compiled a detailed compendium of books archives libraries and Internet sites that readers and researchers can consult to find out more about these organizations and to trace the involvement and experience of family members who were connected with them The origins of these societies are explored as are their economic social and civic functions and the impact they had on the lives of members The range of such societies covered includes the popular and international ones such as the Oddfellows Foresters and Rechabites as well as the smaller local fraternal organizations The type of assistance they offer their structure and hierarchy meetings and ceremonies regalia and processions and feasts and annual gatherings are all described and explained So much information about these organizations and their membership is easily available if you know where to look and Weinbren s work is the ideal introduction to them Anyone who has a forebear who was at some time linked with one of these organizations will find his book to be an essential guide to their research

Historical Dictionary of Socialism James C. Docherty, Peter Lamb, 2006-10-02 Primarily concerned with the historical roots and contemporary condition of socialism the second edition of the Historical Dictionary of Socialism offers information on writers activists ideas political parties institutions and movements that sought\_ and in many cases are still seeking\_ to change the social and political order It reflects the diversity in the broad movement of the left the many variants of which include reformist social democracy revolutionary Marxism the New Left and contemporary anti capitalism Taking up where the first edition left off this thoroughly revised dictionary shows how socialism has been reacting reforming and also expanding This is done through a chronology a list of acronyms and abbreviations an introductory essay a bibliography and a cross referenced dictionary section with 114 new entries some on the current leadership others on the many new parties of Central and Eastern Europe and the Third World and yet others on the reaction to globalization This book will provide a mine of information for teachers and students of political ideologies comparative politics political sociology labor history and political theory

People's Republic of Neverland Robb Johnson, 2020-10-01 There once was a time when teachers and communities were able to exercise democratic control over their schools Now that power has been taken away both centralised and privatised under the guise of reform There is a forgotten history of the time before reform and within it a bright horizon is visible reachable only if educators and society at large can learn the lessons of the past Robb Johnson entered the classroom as a new teacher in the 1980s and has spent a lifetime alongside his pupils encouraging both creativity and a healthy distrust of authority This book is both memoir and polemic a celebration of children s innate desire to learn share cooperate and play as well as a critique of bureaucratic interference Johnson details how we ended up with the contemporary mass education systems and why they continually fail to give children what they need Combining practical experience as a teacher with detailed pedagogical knowledge and a characteristic playful style Johnson is both court chronicler and jester imparting information and creatively admonishing the self important figureheads of the reform agenda This book considers how schools and education relate to the wider society in which they are located and how they relate to

the particular needs and abilities of the people who experience them It shows that schools and education are contested spaces that need to be reclaimed from the state and turned into places where people can grow not up not old but as individuals It offers alternative ways of running classrooms schools and perhaps even society

**International Comparisons of Vocational Education and Training for Intermediate Skills** Paul Ryan, 2019-07-23 Paul Ryan has brought together the writings of the most prominent British research into vocational preparation in Britain in comparison to the other advanced economies primarily within the EEC The book originally published in 1991 documents various aspects of inadequacy in British practice at the time concentrating upon intermediate skills which are of crucial importance for economic performance The introduction outlines the strengths and weaknesses of comparative research Part 1 discusses the use which has been made of it by policy makers in Britain and various aspects of comparative methods in practical comparisons including an Anglo Scottish one Part 2 concerns vocational preparation in connection with productivity and produce markets noting its importance for economic performance and its dependence upon companies product choices Part 3 contains studies of the organization of skills and work and the finance of training within the EEC as a whole Part 4 comprises studies of training in relation to labour market structures each of which indicates similar alternatives for training policy in Britain alternatives whose relevance and political prospects can only be enhanced by the demise of Thatcher government deregulatory policies

**Historical Dictionary of Socialism** Peter Lamb, 2024-02-20 Socialism has been an influential force for social change for almost two centuries Its philosophy and ideology have inspired millions while simultaneously arousing fear and revulsion in its enemies Having emerged after the French Revolution in the effort to build upon and develop the egalitarian ideas of the Enlightenment socialism has taken many forms It has furthermore sometimes been manipulated and reformulated by opportunists who have built authoritarianism and totalitarian dictatorships in its name Opponents seize on such examples to frighten away people who may otherwise have found socialism attractive Socialism has survived such criticism and misrepresentation as its core principles have struck a chord with generations of people concerned with social justice Historical Dictionary of Socialism Fourth Edition contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 500 cross referenced entries on activists politicians political thinkers political parties and organizations and key topics concepts and aspects of socialist theory This book is an excellent access point for students researchers and anyone wanting to know more about socialism

**The History of Disruption** Mehmet Dosemeci, 2024-10-29 Challenging our understanding of social struggles as movements Mehmet Dosemeci traces a 300 year counter history of struggle predicated on disruption Why do we think of social struggles as movements Have struggles been practiced otherwise not as motion but as interruption occupation disturbance arrest Looking at three hundred years of Atlantic social struggle kinetically Mehmet Dosemeci questions the axiomatic association that academics and activists have made between modern social struggles and the category of movement Dosemeci argues

that this movement politics has privileged some forms of historical struggle while obscuring others and perhaps more damningly reveals the complicity of social movements in the very forces they oppose D semeci s story begins with the eighteenth century establishment of a transatlantic regime of movement that coerced goods and bodies into violent and ceaseless motion He then details the long history of resistance to this regime interweaving disparate social struggles such as food riots Caribbean maroon communities Atlantic pirates secret societies and syndicalism the student New Left Black Power radical feminism Operaismo and the Zapatistas into a history of politics as disruption D semeci convincingly argues that this history is key to understanding the resurgence of disruptive politics in the twenty first century and offers valuable guidance for future struggles seeking to overturn an ever intensifying regime of movement

## **Strike A Live History 1887 1971 Introduction**

In today's digital age, the availability of Strike A Live History 1887 1971 books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Strike A Live History 1887 1971 books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Strike A Live History 1887 1971 books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Strike A Live History 1887 1971 versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Strike A Live History 1887 1971 books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Strike A Live History 1887 1971 books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Strike A Live History 1887 1971 books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from

the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Strike A Live History 1887 1971 books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Strike A Live History 1887 1971 books and manuals for download and embark on your journey of knowledge?

### **FAQs About Strike A Live History 1887 1971 Books**
