Strike From Space A Megadeath Mystery:

Strike from Space Phyllis Schlafly, Chester Ward, 1965 **The Cold War Comes to Main Street** Lisle A. Rose, 1999 In 1950 Main Street American was abruptly traumatized The sudden prospect of thermonuclear war with the Soviet Union Senator McCarthy s vicious anticommunist crusade and the beginning of the Korean War all combined to dampen the public mood The Cold War invaded every home Rose maintains that 1950 was a pivotal year for the nation He argues that the convergence of Korea McCarthy and the bomb wounded the nation in ways from which we ve never fully recovered Brimming with originality this book makes readers look at the Cold War from a dozen different angles **Directory** Group Research, Inc, 1962 **A Treasure Chest of Hidden History** Rusty Glover, 2013-09-16 As a high school history teacher for the past 25 years I have collected and read hundreds of books pertaining to my subjects taught On the completion of each book I would carefully take notes on the most interesting events quotes or interpretations that I felt would enhance instruction for my students After filling numerous notepads of information on over 800 books I contemplated a project of sharing my most interesting findings The result of this twenty plus year project is this book This book is divided into 16 chapters based on the various topics presented Some chapters contain a small amount of entries such as Nicknames Espionage or Labor while chapters on the Presidents or quotes will fill over thirty pages The first chapter puts emphasis on the role my home state of Alabama has played on the national scene One chapter is entitled Miscellaneous Odds and Ends due to the subject matter not fitting into any other classification The Province of All Mankind Stephen Buono, 2025-07-15 The Province of All Mankind is the story of a powerful idea about the cosmos Born in the science fiction literature of the nineteenth century and maturing in the Age of Apollo this idea held that outer space should be preserved as a sanctuary from human strife free from weapons warfare and political rivalry If humanity could somehow leave violence behind as it moved into space perhaps peace would finally reign Bucking a half century of space race scholarship Stephen Buono argues that despite waging a totalizing Cold War the United States achieved stunning diplomatic successes that heralded the cosmos as a realm of peace and cooperation The early story of space politics is not primarily one of militarization but rather of political prescience and restraint The Province of All Mankind demonstrates that space became a unique domain of American foreign relations and international law and provides lessons for the Second Cold War unfolding over the horizon *Catalog of Copyright Entries.
