## **Students And The Cold War:**

Students and the Cold War Joel Kotek, trans Ralph Blumenau, 2015-12-30 During the military stand off between East and West known as the Cold War each of the two camps sought out to undermine its opponent by looking for vulnerable aspects of its society The Soviets exploited the opportunities offered to them by the pluralism that flourished in western societies In this respect youth and student movements were a promising target This work describes how the Soviets attempted to manipulate Student and Youth Organizations in the West and how western governments and intelligence agencies notably the CIA reacted

Education and the Cold War Andrew Hartman, 2008-02-15 Shortly after the Russians launched Sputnik in 1957 Hannah Arendt quipped that only in America could a crisis in education actually become a factor in politics The Cold War battle for the American school dramatized but not initiated by Sputnik proved Arendt correct The schools served as a battleground in the ideological conflicts of the 1950s Beginning with the genealogy of progressive education and ending with the formation of New Left and New Right thought *Education and the Cold War* offers a fresh perspective on the postwar transformation in U S political culture by way of an examination of the educational history of that era

**Cold War University** Matthew Levin, 2013-07-17 As the Cold War between the United States and the Soviet Union escalated in the 1950s and 1960s the federal government directed billions of dollars to American

universities to promote higher enrollments studies of foreign languages and cultures and especially scientific research In Cold War University Matthew Levin traces the paradox that developed higher education became increasingly enmeshed in the Cold War struggle even as university campuses became centers of opposition to Cold War policies The partnerships between the federal government and major research universities sparked a campus backlash that provided the foundation Levin argues for much of the student dissent that followed At the University of Wisconsin in Madison one of the hubs of student political activism in the 1950s and 1960s the protests reached their flashpoint with the 1967 demonstrations against campus recruiters from Dow Chemical the manufacturers of napalm Levin documents the development of student political organizations in Madison in the 1950s and the emergence of a mass movement in the decade that followed adding texture to the history of national youth protests of the time He shows how the University of Wisconsin tolerated political dissent even at the height of McCarthyism an era named for Wisconsin's own virulently anti Communist senator and charts the emergence of an intellectual community of students and professors that encouraged new directions in radical politics Some of the events in Madison especially the 1966 draft protests the 1967 sit in against Dow Chemical and the 1970 Sterling Hall bombing have become part of the fabric of The Sixties touchstones in an era that continues to resonate in contemporary culture and politics

**The Cold War in the Classroom** Barbara Christophe, Peter Gautschi, Robert Thorp, 2019-10-23 This book is open access under a CC BY 4.0 license This book explores how the socially disputed period of the Cold War is remembered in today's history classroom Applying a diverse set of methodological strategies the authors map the dividing lines in and between memory cultures across the globe paying special attention to the impact the crisis driven age of our present has on images of the past Authors analysing educational media point to ambivalence vagueness and contradictions in textbook narratives understood to be echoes of societal and academic controversies Others focus on teachers and the history classroom showing how unresolved political issues create tensions in history education They render visible how teachers struggle to handle these challenges by pretending that what they do is just history The contributions to this book unveil how teachers backgrounding the political inherent in all memory practices often nourish the illusion that the history in which they are engaged is all about addressing the past with a reflexive and disciplined approach Students on the Cold War Csaba

Békés, Melinda Kalmár, 2019 *The United States and the Japanese Student Movement, 1948-1973* Naoko Koda, 2020-09-30 The author argues that interactions between the movement and US Cold Warriors had a profound and lasting impact on Japanese society and Japan US relations **From Coldwar Communism to the Global Emancipatory Movement** Peter

Waterman, 2014-12-12 Boaventura de Sousa Santos says This is an admirable memoir of an intellectual activist who has lived most intensely the progressive struggles of the last sixty years of world history because despite being born in Europe Peter in the best tradition of communist internationalism participated in struggles and movements not only in Central and Eastern Europe but also in Africa and most recently in Latin America But this is much more than a memoir It is so well documented

that in this personal experience there are reflected some of the most decisive events of contemporary history It is a living history book But even more than this this book is so clearly and vividly written that at times it reads like the script for an imaginary documentary of our times This book should be read by all concerned with our recent history in order to get a much more complex inside view of what happened while it was happening In particular it should be read by the youth in order to get a close up of the difficulties and possibilities in building another possible world at a time where there existed a vibrant international communist movement It is up to such youth to evaluate whether difficulties are now or more daunting the possibilities less or more luminous
