Studies In Zen:

Studies in Zen Daisetz Teitaro Suzuki, 1955 Zen Ritual Steven Heine, Dale S. Wright, 2007-11-14 When books about Zen Buddhism began appearing in Western languages just over a half century ago there was no interest whatsoever in the role of ritual in Zen. Indeed what attracted Western readers' interest was the Zen rejection of ritual. The famous Beat Zen writers were delighted by the Zen emphasis on spontaneity as opposed to planned repetitious action and wrote inspirationally about the demythologized anti-ritualized spirit of Zen. Quotes from the great Zen masters supported this understanding of Zen and led to the fervor that fueled the opening of Zen centers throughout the West. Once Western practitioners in these centers began to practice Zen seriously, however, they discovered that zazen (Zen meditation) is a ritualized practice supported by centuries-old ritual practices of East Asia. Although initially in tension with the popular anti-ritual image of ancient Zen masters, interest in Zen ritual has increased along with awareness of its fundamental role in the spirit of Zen. Eventually Zen practitioners would form the idea of no-mind or the open and awakened state of mind in which ingrained habits of thinking give way to more receptive direct forms of experience. This notion provides a perspective from which ritual could gain enormous respect as a vehicle to spiritual awakening and thus this volume seeks to emphasize the significance of ritual in Zen practice. Containing 9 articles by prominent scholars about a variety of topics including Zen rituals, kinhin and zazen, this volume covers rituals from the early Chan period to modern Japan. Each chapter covers key developments that occurred in the Linji, Rinzai and Caodong Soto schools of China and Japan, describing how Zen rituals mold the lives and characters of its practitioners, shaping them in accordance with the ideal of Zen awakening. This volume is a significant step towards placing these practices in a larger historical and analytical perspective. Zen and Comparative Studies M. Abe, 1996-11-15 Zen is not a religion of God Nor a religion of faith It is a religion of emptiness a religion of absolute nothingness However it is not nihilistic but dynamically positive For Zen is based on self awakening awakening to the self In this book a sequel to *Zen and Western Thought* the author tries to clarify the true meaning of Buddhist emptiness in comparison with Aristotelian notion of substance and Whiteheadian notion of process He also emphasises that Buddhism completely defies and overcomes dualism but it is not monistic but rather nondualistic What is Nondualism This is one of the important themes of this book

Humankind and Nature Artur K. Wardega, Albert Wong, 2015-01-12 As climate change continues to batter the coastlines of North America and elsewhere and as extreme weather events provide abundant proof of its reality religious leaders can no longer ignore the fact that the human has become a geologic force a force that must be re educated and re formed in order to guarantee safe passage into a sustainable future Hopefully Jesuits and their lay partners can continue to provide leadership in regard to this issue correctly identified by Fr Adolfo Nicol SJ as a top priority In this particular context the role of religions and their valuable contributions must be evaluated Religion's role is not simply one of morality rather it seeks especially in Christianity to show the face of God It is out of this relation that believers then seek to live towards the good especially in relation to their neighbours creation and God Religious believers may have failed severely in communicating this relationship in the twenty first century This publication gathers together a roster of Western and Asian experts contributions from various fields of knowledge related to ecology anthropology religions and ethics economics technology and to environmental and health protection studies This collection of essays embracing a wide scope of current topics theme and questions will renew awareness of the ecological dilemma and stimulate reflection on its spiritual and social dimensions
