Joanna Stalnaker

Studies Voltaire 18th Century Volume 205:

Studies on Voltaire and the Eighteenth Century, 1982 **The Rest Is Silence** Joanna Stalnaker, 2025-10-14 A moving intimate portrait of the Enlightenment philosophers as they faced the end of their lives and their historical moment What would the Enlightenment look like if we viewed it through the eyes of the philosophers as they were facing death Joanna Stalnaker turns our usual perspective on the Enlightenment on its head bringing to light a set of works written at the end of the Old Regime and at the end of their authors lives These works all written before the French Revolution cast a retrospective glance over the intellectual movement their authors participated in and over the authors own lives and works Stalnaker shows that the beauty of these works stems from their authors efforts to give literary form to the materiality and fragility of their dying bodies As they reflected on writing as a means of reaching posterity Enlightenment philosophers embraced the possibility that neither their names nor their writings would survive long beyond the decomposition of their bodies They inscribed the silence and nothingness of death into their last works Stalnaker s book unsettles reigning interpretations of the Enlightenment as a precursor to our modernity and shows its protagonists at their moments of fragility and doubt capturing their sense of an ending rather than the confidence in a glowing future so often attributed to them

Comparative Criticism: Volume 9, Cultural Perceptions and Literary Values E. S. Shaffer, 1987-10-29 The ninth volume of this annual journal continues the consideration of the relations of European with non European literatures begun in volume 8 It brings the series of special bibliographies on the history of comparative literary studies in the UK up to 1965 and contains the annual bibliography of comparative literature covering 1984 [The Cambridge History of Literary Criticism: Volume 4, The Eighteenth Century](#) George Alexander Kennedy, 1989 This comprehensive 1997 account of eighteenth century literary criticism is now available in paperback

Phillis Wheatley and Thomas Jefferson, Then and Now Arthur Scherr, 2023-10-16 This panoramic study combines a survey of the life of child prodigy and renowned African American poet Phillis Wheatley her work and experiences and uniquely a careful rendering and reassessment of the opinions of her contemporaries and the ideas and motivations of present day scholars regarding her verse and historical significance Arthur Scherr an expert on the transatlantic Enlightenment and such major figures of American political culture as Thomas Jefferson John Adams and James Monroe adds a vital new perspective to our understanding of Phillis Wheatley Also investigated is the relationship between Wheatley and the statesman whom scholars generally depict as Wheatley s greatest adversary Jefferson author of the Declaration of Independence and tarnished American icon The book analyzes the meaning and significance of Jefferson s three sentence critique of Wheatley s poetry in Notes on the State of Virginia 1787 published in London three years after her death *Enlightenment Shadows* Genevieve Lloyd, 2013-07-25 Genevieve Lloyd presents a new study of the place of Enlightenment thought in intellectual history and of its continued relevance She offers original readings of a range of key texts which highlight the ways in which Enlightenment thinkers enacted in their writing and reflected on the interplay

of intellect imagination and emotion The Cambridge History of Literary Criticism: Volume 4, The Eighteenth Century H. B. Nisbet, Claude Rawson, 2005-12-08 This is a comprehensive 1997 account of the history of literary criticism in Britain and Europe between 1660 and 1800 Unlike previous histories it is not just a chronological survey of critical writing but a multidisciplinary investigation of how the understanding of literature and its various genres was transformed at the start of the modern era by developments in philosophy psychology the natural sciences linguistics and other disciplines as well as in society at large In the process modern literary theory at first often implicit in literary texts themselves emancipated itself from classical poetics and rhetoric and literary criticism emerged as a full time professional activity catering for an expanding literate public The volume is international both in coverage and in authorship Extensive bibliographies provide guidance for further specialised study The Autocritique of Enlightenment Mark Hulliung, 2017-09-29 Of all the critiques of the Enlightenment the most telling may be found in the life and writings of Jean Jacques Rousseau This searching long overlooked auto critique receives its first full treatment by Mark Hulliung Here he restores Rousseau to his historical context the world of the philosophes and shows how he employed the arsenal of Voltaire Diderot and others to launch a powerful attack on their version of the Enlightenment With great intellectual skill and rhetorical force Rousseau exposed the inconsistencies and shortcomings of the Enlightenment the psychology of Locke the genre of philosophical and conjectural history the latest applications of science to the study of society and politics and the growing interest in materialist modes of thought As the century moved on Hulliung shows the most advanced philosophes found themselves drawn to conclusions that paralleled Rousseau s an agreement that went unacknowledged at the time The Enlightenment that emerges here is richer more nuanced and more self critical than the one reflected in many interpretations By extracting Rousseau from personal entangle ments that stymied debate in his time and that mislead critics to this day Hulliung reveals the remarkable and remarkably unacknowledged force of Rousseau s accomplishment This edition includes a brilliant new introduction by the author Family Romance of the French Revolution Lynn Hunt, 2013-07-04 This latest work from an author known for her contributions to the new cultural history is a daring multidisciplinary investigation of the imaginative foundations of modern politics Hunt uses the term Family Romance coined by Freud to describe the fantasy of being freed from one s family and belonging to one of higher social standing in a broader sense to describe the images of the familial order that structured the collective political unconscious In a wide ranging account that uses novels engravings paintings speeches newspaper editorials pornographic writing and revolutionary legislation about the family Hunt shows that the politics of the French Revolution were experienced through the network of the family romance **Rhetoric and the Novel in Eighteenth-century France** Susan Ellis Rosa, 1986
