Politics and Philosophy in the Thought of Destutt de Tracy Brian W. Head, 2019-11-21 First published in 1987 This study describes and analyses the published writings of the French philosopher Antoine Destutt de Tracy The author focuses on the three decades from the calling of the Etats g n raux to the early years of the Restoration the period of Tracy s entire literary production and the period of his greatest influence and reputation This title will be of great interest to students of history philosophy and politics **The Enlightenment** Dan Edelstein, 2010-12-15 What was the Enlightenment Though many scholars have attempted to solve this riddle none has made as much use of contemporary answers as Dan Edelstein does here In seeking to recover where when and how the concept of the Enlightenment first emerged Edelstein departs from genealogies that trace it back to political and philosophical developments in England and the Dutch Republic According to Edelstein by the 1720s scholars and authors in France were already employing a constellation of terms such as l esprit philosophique to describe what we would today call the Enlightenment But Edelstein argues that it was within the French Academies and in the context of the Quarrel of the Ancients and the Moderns that the key definition concepts and historical narratives of the Enlightenment were crafted A necessary corrective to many of our contemporary ideas about the Enlightenment Edelstein s book turns conventional thinking about the period on its head Concise clear and contrarian The Enlightenment will be welcomed by all teachers and students of the period *Exoticism in the Enlightenment* George Sebastian Rousseau, Roy Porter, 1990 **Encyclopaedic Visions** Richard Yeo, 2001-03-29 The eighteenth century English dictionaries of arts and sciences claimed to contain all knowledge that a person of education should possess These early encyclopaedias responded to the explosion of information by reducing knowledge to essentials stressing the need for a coherent account of the sciences and for some time excluding biography and history Richard Yeo places these scientific dictionaries in a rich cultural framework of debate that includes the arrangement of knowledge the Republic of Letters the Enlightenment public sphere copyright issues and the specialisation of science He discusses dilemmas involved in the quest for knowledge to be both organised and readily available examining assumptions about the organisation communication and

control of knowledge in these works Elegantly illustrated and accessibly written Encyclopaedic Visions provides a major contribution to Enlightenment studies and the history of ideas in general *The London Corresponding Society, 1792-1799 Vol 1* Michael T Davis,James Epstein,Jack Fruchtman Jr,Mary Thale,2021-04-14 This six volume set reproduces the complete writings of the London Corresponding Society LCS as well as other contemporary literature and parliamentary debates and reports relating to the Society The LCS was at the forefront of the call for political reform in the late 18th century Volume 1 spans 1792 to 1794 L'Écriture est la peinture de la voix Gillian Pink,Thomas Wynn,2024-11-15 L'écriture est la peinture de la voix honours and celebrates the inestimable contributions that Professor Nicholas Cronk has made to our understanding of the Enlightenment As director of the University of Oxford's Voltaire Foundation he has played a decisive role in eighteenth century studies In particular he has shaped our knowledge of Voltaire as a writer celebrity and era defining figure whose influence has continued to be felt through the centuries Comprising essays by a host of internationally eminent scholars this volume is a fitting tribute to the esteem and affection in which Nicholas Cronk is held as a colleague teacher and mentor These sixteen essays reflect his varied research interests exploring questions central to the eighteenth century such as the writing process justice revolution as well as the legacy of the Enlightenment and focussing on the central figure in Nicholas Cronk's research Voltaire In sections devoted to Voltaire's writing practices to his involvement in political literary and religious polemics and finally to his legacy the essays build on Nicholas Cronk's scholarship and editorial achievements opening up a new chapter in research on Voltaire This volume is complemented by an online collection of essays which speak to other topics central to Nicholas Cronk's interests such as authorial identities correspondence and aesthetics Visit the MLO site for the other half of this festschrift project <https://modernlanguagesopen.org/collections/lecriture-nicholas-cronk>
