Studies In Arabic Syntax And Semantics:

Studies in Arabic Syntax and Semantics Ariel A. Bloch, 1991 In view of the great upsurge of interest in syntax in recent years it is remarkable that there are so few studies of Arabic syntax and the works of a diachronic orientation are virtually nonexistent The main portion of this book is historical dealing with fundamental mechanisms of syntactic and semantic change Here Bloch has made a substantial contribution to the historical syntax of Arabic Throughout the book the phenomena are viewed from a broad perspective that takes into account evidence not only from all periods and genres of Arabic Ancient Poetic Koranic Classical Middle Modern Literary and Colloquial but also from other Semitic and occasionally non Semitic In the second printing are almost exclusively corrections of misprints and other minor alterations made

Sentence Types and Word-Order Patterns in Written Arabic Yishai Peled, 2008-11-30 Sentence types and word order patterns in Arabic have been a matter of debate and controversy for a long period of time They were hotly discussed by the medieval Arab grammarians and continue to be a major topic of discussion among modern scholars This book describes the development of the medieval grammarians theory of sentence types a development from the theory of *amal* which lies at the heart of medieval Arabic grammatical tradition Each major topic is discussed with a view to explore the basic principles underlying the medieval grammarians arguments Special attention is given to conceptual problems arising from conflicts with the theory of *amal* This is followed by an assessment of the contributions made by modern scholars to the analysis and description of the constructions involved Modern Arabists and linguists are shown to have concentrated on word order patterns rather than on sentence types placing special emphasis on the functional aspects of word order variations in Arabic

The Lexical Semantics of the Arabic Verb Peter John Glanville, 2018 This book explores Arabic derivational morphology focusing on the relationship between verb meaning and linguistic forms from a lexical semantic perspective It explains why verbs with seemingly unrelated meanings share the same phonological shape and analyses sets of words containing the same consonantal root to arrive at a common abstraction

Mixed Styles in Spoken Arabic in Egypt Gunvor Mejdell, 2017-07-03 This volume deals with the linguistic behaviour of Egyptian academics in a specific setting the panel presentation assumed to represent a discourse genre to which speakers will respond with some kind of similar stylistic norm reflected in linguistic choices among variants of a feature The features selected for investigation are complementizers demonstratives negation relatives and pronoun suffixation all of which have binary variants in the two basic codes available to the speaker the standard variety and the vernacular The use of the variants is discussed for each speaker and across speakers demonstrating certain patterns of distribution order but also a high degree of variable usage chaos The investigation is set in a wider comparative sociolinguistic framework

Semitic Languages Edward Lipiński, 2001 The first comparative grammar of the Semitic languages by H Zimmern was published a hundred years ago and the last original work of this kind was issued in Russian in 1972 by B M Grande The present grammar designed to come out in the centenary of the completion of Zimmern's work fills thus a gap Besides it is based on both classical and modern Semitic languages it takes new material of these last decades into account and situates the Semitic languages in the wider context of Afro Asiatic The introduction briefly presents the languages in question The main parts of the work are devoted to phonology morphology and syntax with elaborate charts and diagrams Then follows a discussion of fundamental questions related to lexicographical analysis The study is supplemented by a glossary of linguistic terms used in Semitics by a selective bibliography by a general index and by an index of words and forms The book is the result of twenty five years of research and teaching in comparative Semitic grammar
