Studies In Chan And Hua Yen:

Studies in Ch'an and Hua-Yen Robert M. Gimello, Peter N. Gregory, 1984-05-01 Contains well researched and specialized studies in the history of these two important East Asian Buddhist traditions It presents some of the best work of younger scholars who are making available to the English speaking world the fruits of Japanese scholarship and building upon them Religious Studies Review

Tibetan Renaissance Ronald M. Davidson, 2008-01-01 How did a society on the edge of collapse and dominated by wandering bands of armed men give way to a vibrant Buddhist culture led by yogins and scholars Ronald M Davidson explores how the translation and spread of esoteric Buddhist texts dramatically shaped Tibetan society and led to its rise as the center of Buddhist culture throughout Asia replacing India as the perceived source of religious ideology and tradition During the Tibetan Renaissance 950 1200 C E monks and yogins translated an enormous number of Indian Buddhist texts They employed the evolving literature and practices of esoteric Buddhism as the basis to reconstruct Tibetan religious cultural and political institutions Many translators achieved the de facto status of feudal lords and while not always loyal to their Buddhist vows these figures helped solidify political power in the hands of religious authorities and began a process that led to the Dalai Lama's theocracy Davidson's vivid portraits of the monks priests popular preachers yogins and aristocratic clans who changed Tibetan society and culture further enhance his perspectives on the tensions and transformations that characterized medieval Tibet

The Lamp for the Eye of Contemplation

Sangs-rgyas-ye-shes, 2023-01-03 The book provides a complete translation of a groundbreaking Tibetan treatise on contemplation the Samten Migdrön by Nubchen Sangye Yeshe 10th century This is one of the principal sources for our understanding of the various currents of meditation transmitted to Tibet during the early spread of Buddhism to that country It offers a detailed window into the ways in which one of the most learned masters of the early Tibetan Buddhist tradition made sense of the different forms of meditation practiced in his day

Probing the Sutras Guy Gibbon, 2022-02-25 A compact summary like Probing the Sutras has been sorely needed for some time as more and more Westerners have dipped into meditation without any understanding of its predominantly Buddhist scriptural underpinning This concise well informed introduction to the history and contents of eleven seminal Buddhist sutras also provides suggestions for reflection meditation and practical applications related to the key teachings of each scripture Readers of Probing the Sutras will be able to develop a framework for understanding Buddhist doctrines and see the unique pearls of wisdom contained within each sutra

Monks, Rulers, and Literati : The Political Ascendancy of Chan Buddhism Asian Religions University of Winnipeg Albert Welter Professor, 2006-01-11 The Chan Zen in Japanese school began when in seventh century China a small religious community gathered around a Buddhist monk named Hongren Over the centuries Chan Buddhism grew from an obscure movement to an officially recognized and eventually dominant form of Buddhism in China and throughout East Asia It has reached international popularity its teachings disseminated across cultures far and wide In Monks Rulers and Literati Albert

Welter presents for the first time in a comprehensive fashion in a Western work the story of the rise of Chan a story which has been obscured by myths about Zen Zen apologists in the twentieth century Welter argues sold the world on the story of Zen as a transcendental spiritualism untainted by political and institutional involvements In fact Welter shows that the opposite is true relationships between Chan monks and political rulers were crucial to Chan s success The book concentrates on an important but neglected period of Chan history the 10th and 11th centuries when monks and rulers created the so called Chan golden age and the classic principles of Chan identity Placing Chan s ascendancy into historical context Welter analyzes the social and political factors that facilitated Chan s success as a movement He then examines how this success was represented in the Chan narrative and the aims of those who shaped it *Monks Rulers and Literati* recovers a critical period of Zen s past deepening our understanding of how the movement came to flourish Welter s groundbreaking work is not only the most comprehensive history of the dominant strand of East Asian Buddhism but also an important corrective to many of the stereotypes about Zen

Meditation and Culture Halvor Eifring, 2015-09-24 Behind the stereotype of a solitary meditator closing his eyes to the world meditation always takes place in close interaction with the surrounding culture *Meditation and Culture The Interplay of Practice and Context* explores cases in which the relation between meditative practice and cultural context is particularly complex The internationally renowned contributors discuss practices that travel from one culture to another or are surrounded by competing cultures They explore cultures that bring together competing practices or that are themselves mosaics of elements of different origins They seek to answer the question What is the relationship between meditation and culture The effects of meditation may arise from its symbolic value within larger webs of cultural meaning as in the contextual view that still dominates cultural and religious studies They may also be psychobiological responses to the practice itself the cultural context merely acting as a catalyst for processes originating in the body and mind of the practitioner *Meditation and Culture* gives no single definitive explanation but taken together the different viewpoints presented point to the complexity of the relationship

Yongming Yanshou's Conception of Chan in the Zongjing Lu Albert Welter, 2011-05-11 Yongming Yanshou ranks among the great figures of the Chinese and East Asian Buddhist tradition His main work the one hundred fascicle *Zongjing lu* Records of the Source Mirror is regularly cited but has been subjected to little systematic investigation Through a vivid reconstruction of the environment in which Yanshou lived and wrote Welter aims to prove that Yanshou s conception of Chan was a vital contribution to the determination of Chan s future direction Welter also draws evidence from the *Zongjing lu* s record of Chan master s teaching fragments an important but frequently overlooked early source This book provides thorough documentation and analysis of the Chan master s teaching fragments in the *Zongjing lu*

Chan Buddhism in Ritual Context Bernard Faure, 2005-09-27 The essays in this volume attempt to place the Chan and Zen tradition in their ritual and cultural contexts looking at various aspects heretofore largely and unduly ignored In particular they show the extent to which these traditions despite their claim to

uniqueness were indebted to larger trends in East Asian Buddhism such as the cults of icons relics and the monastic robe The book emphasises the importance of ritual for a proper understanding of this allegedly anti ritualistic form of Buddhism In doing so it deconstructs the Chan Zen rhetoric of immediacy and its ideological underpinnings **Tibetan Zen** Sam van Schaik,2015-08-25 A groundbreaking study of the lost tradition of Tibetan Zen containing the first translations of key texts from one thousand years ago Banned in Tibet forgotten in China the Tibetan tradition of Zen was almost completely lost to us According to Tibetan histories Zen teachers were invited to Tibet from China in the 8th century at the height of the Tibetan Empire When doctrinal disagreements developed between Indian and Chinese Buddhists at the Tibetan court the Tibetan emperor called for a formal debate When the debate resulted in a decisive win by the Indian side the Zen teachers were sent back to China and Zen was gradually forgotten in Tibet This picture changed at the beginning of the 20th century with the discovery in Dunhuang in Chinese Central Asia of a sealed cave full of manuscripts in various languages dating from the first millennium CE The Tibetan manuscripts dating from the 9th and 10th centuries are the earliest surviving examples of Tibetan Buddhism Among them are around 40 manuscripts containing original Tibetan Zen teachings This book translates the key texts of Tibetan Zen preserved in Dunhuang The book is divided into ten sections each containing a translation of a Zen text illuminating a different aspect of the tradition with brief introductions discussing the roles of ritual debate lineage and meditation in the early Zen tradition Van Schaik not only presents the texts but also explains how they were embedded in actual practices by those who used them The Silk Road British Library,2004
