The Past, Present, and Future of Integrated History and Philosophy of Science Emily Herring, Kevin Jones, Konstantin Kiprijanov, Laura Sellers, 2019-05-14 Integrated History and Philosophy of Science iHPS is commonly understood as the study of science from a combined historical and philosophical perspective Yet since its gradual formation as a research field the question of how to suitably integrate both perspectives remains open This volume presents cutting edge research from junior iHPS scholars and in doing so provides a snapshot of current developments within the field explores the connection between iHPS and other academic disciplines and demonstrates some of the topics that are attracting the attention of scholars who will help define the future of iHPS The Social Studies Curriculum E. Wayne Ross, 2012-02-01 The third edition of The Social Studies Curriculum thoroughly updates the definitive overview of the primary issues teachers face when creating learning experiences for students in social studies By connecting the diverse elements of the social studies curriculum history education civic global and social issues the book offers a unique and critical perspective that separates it from other texts in the field This edition includes new work on race gender sexuality critical multiculturalism visual culture moral deliberation digital technologies teaching democracy and the future of social studies education In an era marked by efforts to standardize curriculum and teaching this book challenges the status quo by arguing that social studies curriculum and teaching should be about uncovering elements that are taken for granted in our everyday experiences and making them the target of inquiry *The Social Sciences* Chicago Public Library, 1914 **Time, Temporality, and History in Process** **Organization Studies** Juliane Reinecke, Roy Suddaby, Ann Langley, Haridimos

Tsoukas,2020 Time temporality and history are inherently important constructs in process organization studies yet have struggled to move beyond limited conceptualizations in management theory This volume draws together emerging strands of interest to adopt a more nuanced approach in understanding the temporal aspects of organizational processes **History in the Humanities and Social Sciences** Richard Bourke,Quentin Skinner,2022-12-22 Offers a collaborative exploration of the role of historical understanding in leading disciplines across the humanities and social sciences *A Global History of Modern Historiography* Georg G Iggers,Q. Edward Wang,Supriya Mukherjee,2016-09-01 The first book on historiography to adopt a global and comparative perspective on the topic A Global History of Modern Historiography looks not just at developments in the West but also at the other great historiographical traditions in Asia the Middle East and elsewhere around the world over the course of the past two and a half centuries This second edition contains fully updated sections on Latin American and African historiography discussion of the development of global history environmental history and feminist and gender history in recent years and new coverage of Russian historical practices Beginning in the mid eighteenth century the authors analyse historical currents in a changing political social and cultural context examining both the adaptation and modification of the Western influence on historiography and how societies outside Europe and America found their own ways in the face of modernization and globalization Supported by online resources including a selection of excerpts from key historiographical texts this book offers an up to date account of the status of historical writing in the global era and is essential reading for all students of modern historiography
