The present work is designed to consist of a group of organically connected historical studies relating to the origins of Buddhism It is the doctrinal rather than the institutional aspect of Buddhism that is mainly considered The subject matter is for the greater part of a literary and religious philosophic character but the treatment is intended to be primarily historical The whole work attempts to trace the rise and evolution of early Buddhist literature and thought both as an inner cultural process and an external process of actions of individuals and monastic communities

Studies on Contemporary Chinese Philosophy (1949-2009) Qiyong GUO,2018-01-29 Guo Qiyong s edited volume on contemporary Chinese philosophy offers a detailed look at research on Chinese philosophy published from 1949 2009 in Mainland China and Taiwan The chapters in this volume are broken down into either major themes or time periods in the history of Chinese philosophy In each chapter after summarizing significant aspects of a particular theme or time period lists are drawn up of the most important works along with comments on their individual contributions This volume allows readers to both familiarize themselves with specific texts and become immersed in the more general philosophical discourse surrounding the history of Chinese philosophy It provides an in depth look into serious debates and major discoveries in Chinese language philosophical scholarship from 1949 2009
