Studies on the Apocalypse; Or, An Attempt to Elucidate the Revelation of St. John H. S. L., 1838 **Apocalypse and Millennium** Kenneth G. C. Newport, 2000-08-10 Apocalypse and Millennium argues that far from being a random sequence of bizarre statements millennial schemes including the setting of dates for the second coming of Christ are more often characterised by highly complex and internally consistent interpretations of scripture Such interpretations do not always result in positive outcomes As an example the work of David Koresh is examined at length Koresh styled by some the Wacko from Waco clearly had views which some would find odd However his interpretation of scripture did not lack system or context and to see him in that light is to begin to understand why his message had appeal particularly to those of the Seventh day Adventist tradition The final three chapters in this book outline Koresh's thinking on end time events and trace the line of his interpretative tradition from nineteenth century Millerism through Seventh day Adventism and Davidianism which began in 1929 BOOK JACKET **Studies in the Apocalypse** R H Charles, 2020-02-11 HISTORY OF THE INTERPRETATION OF THE APOCALYPSE BEFORE we enter on a detailed study of the various methods of interpretation that have been applied to the Apocalypse since the earliest times to the present I must preface our investigations with a few introductory remarks First of all while recognizing the close affinities with Jewish Apocalyptic in general I must point out one important characteristic that differentiates Christian Apocalyptic literature of the first century of the Christian era from Jewish Apocalyptic In the second place I shall put forward some general and for the most part obvious considerations which will serve in some measure to provide a preliminary canon of criticism by the use of which we shall be able to recognize amongst the many conflicting and contradictory methods those methods which were more or less justifiable from the outset Mystical Studies in the Apocalypse Henry Erskine Hill, 1997 *The Routledge Handbook for Global South Studies on Subjectivities* Sebastian Thies, Susanne Goumegou, Georgina Cebey, 2024-05-09 The Routledge Handbook for Global South Studies on Subjectivities

provides a series of exemplary studies conjoining perspectives from Asian African and Latin American Studies on subjectivity in the Global South as a central category of social and cultural analysis The contestation of the Northern myth of the autonomous subject the dispositive that contests subject formation in the South by describing it as fragmented incomplete delayed or simply deviant has been a cornerstone of theory production from the South over the years This volume s contributions offer an interdisciplinary and transarea dialogue reframing issues of selfhood and alterity of personhood of the human of the commons and contesting the North s presumption in determining what kind of subjectivities abide by its norms whose voices are heard who is recognised as a subject and by extension whose lives matter In the context of the shifting dynamics of today s manifold crises they raise questions regarding how subjectivities act on or resist such forms of contestation contingency and indeterminacy A major contribution to the growing body of scholarship on the Global South this handbook will be an essential resource for students scholars researchers and instructors in literature media and culture studies sociology anthropology philosophy law politics visual arts and art history
