Study Guide and Workbook to Accompany Zimbardo and Weber's Psychology, Second Edition Peter C.

Gram, Philip G. Zimbardo, 1997 Psychology Third Edition builds upon the experience and reputations of Phil Zimbardo and Ann Weber with the addition of a new co author Bob Johnson who has a wealth of teaching experience at the community college level This briefer less expensive book presents psychology in a meaningful manageable format that focuses on the key questions and core concepts of psychology Introductory psychology covers such a wide range of topics and issues that it becomes difficult for readers to see the forest for the trees To make key psychological concepts more meaningful the authors found inspiration in a classic chess study This study showed that experts did no better than novices at remembering the location of pieces on a chess board when they were placed randomly Only when the patterns represented actual game situations did they make sense and therefore become more easily memorable for the experts Clearly meaningful patterns are easier to remember and understand than random arrangements and Psychology applies this by presenting the field of psychology in meaningful patterns to enhance comprehension These concepts are then applied to readers own lives study skills and the world around them Finally Psychology integrates a cross cultural and multicultural perspective to make psychology meaningful for everyone For anyone interested in Introductory Psychology Study Guide and Workbook to Accompany Zimbardo and Weber Psychology Peter C. Gram, 1994 *Investigating the Stanford Prison Experiment* Thibault Le Texier, 2024-08-08 In 1971 psychologist Philip Zimbardo ran the now famous Stanford prison experiment to show that prison could make normal people behave in pathological ways Based on the first thorough investigation in the archives of the experiment and on interviews with about half of its participants this book shows that the Stanford prison experiment is far from being scientific In particular the guards knew what results were expected from them they were trained and supervised by the experimenters and they were following a schedule and a set of rules written by the experimenters The experimenters deceived the guards and made them believe they were not subjects They also borrowed many elements from a previous student experiment without disclosing this information in their reports The prisoners were not allowed to leave the experiment at will and they were conditioned by the experimenters The mock prison situation was unrealistic Most participants did not forget they were participating in an experiment and many responded to demand characteristics The data was not collected properly And the conclusions were pre written according to non academic aims This book goes beyond the experiment to provide ample background and context in order to understand how the experiment was planned financed recorded and divulged in the press and within the academic It discusses also the role played by Philip Zimbardo in the trial of one of the guards of Abu Ghraib as well as the impact of mass media on science the debates between personal psychology and social psychology and the specific nature of cold war social science Recording for the Blind & Dyslexic, ... Books ,1996 Heteronormativity in a Rural School Community Catherine Thompson-Lee,2017-04-18 This book presents an exploration of heteronormative discursive practices in the English countryside A lesbian teacher describes her experiences in the rural school community in which she lived and worked She prospered at the village school for almost ten years by censoring her sexuality and carefully managing the intersection between her private and professional identities However when a critical incident led to the exposure of her sexuality at school she learned the extent to which the rural school community privileged and protected the heteronormative discourse An autoethnographic method of inquiry provides intimate insight which is supported by external data including email and text message correspondence As the critical incident eventually became a police matter police records and evidence from the UK Crown Prosecution Service were sought for use in the research However the collection of these data proved problematic providing an unexpected development in the research and offering additional insight into the nature of rural life This research offers a vivid insider perspective on the experiences of a lesbian teacher in a rural school community It examines the incompatibility of private and professional identities investigates the moral panic that surrounds teacher sexuality in schools and considers the impact of homophobic and heteronormative discursive practices on health wellbeing and identity Crucially this research offers compelling insight into the steps that those in positions of power will take to protect and perpetuate the heteronormative discourse of rural life
