Runway Holding Position Markings: Avoid Runway Incursion

When you are in a runway or taxiway, you must maintain a safe distance from other aircraft. This is done by following the runway and taxiway markings. The markings include the runway edge, the runway centerline, and the runway holding position. The holding position is marked by a series of parallel lines and arrows. You must stop at the holding position and wait for clearance to enter the runway. This helps to avoid a runway incursion, which is a collision between an aircraft and a runway.
