Looking Within Nancy Morejón, 2003 A bilingual edition of poetry from an important Cuban poet George Padmore and Decolonization from Below L. James, 2014-10-14 This book argues that the rising tide of anti colonialism after the 1930s should be considered a turning point not just in harnessing a new mood or feeling of unity but primarily as one that viewed empire racism and economic degradation as part of a system that fundamentally required the application of strategy to their destruction

White, 2011-09-01 The Challenge of Blackness examines the history and legacy of the Institute of the Black World IBW one of

the most important Black Freedom Struggle organizations to emerge in the aftermath of the assassination of Dr Martin Luther King Jr A think tank based in Atlanta the IBW sought to answer King s question Where do we go from here Its solution was to organize a broad array of leading Black activists scholars and intellectuals to find ways to combine the emerging academic discipline of Black Studies with the Black political agenda Throughout the 1970s debates over race and class in the Unites States grew increasingly hostile and the IBW s approach was ultimately unable to challenge the growing conservatism By using the IBW as the lens through which to view these turbulent years Derrick White provides an exciting new interpretation of the immediate post civil rights years in America

African Americans, Labor, and Society Patrick L. Mason,2001 Over the past twenty five years union participation has declined among the nation as whole Coupled with increasing racial tensions cutbacks in public programs at the federal state and local levels and a shift in the distribution of wealth these changes have undermined the standard of living for American workers families especially African American families as they created greater wealth for the American elite African Americans Labor and Society examines these changes in particular their effects on the entire African American community and suggests a move toward a more egalitarian future This collection of essays written by legal scholars professional organizers and economists suggests integrating civil rights and labor laws to strengthen both anti discrimination and union organizing efforts The volume demonstrates the negative effects for union workers of arbitration agreements that undermine civil rights legislation in the workplace It also provides a detailed case study of the nature and extent of racial conflict within a major industrial union and analyzes and suggests policy changes that would increase the political and economic power of American workers as a whole while aggressively attacking racism in social economic and political institutions African Americans Labor and Society presents strategies for creating better opportunities for African Americans through private sector employment that will appeal to legal union and labor students and scholars as well as economists
