Chase, 2012-05-31 *Church History Study Guide Pt 3: Latter Day Prophets Since 1844*. This volume is the third of three on Church History and the Doctrine and Covenants. It covers Church history during the administration of all of its Prophet-Prophets since Joseph Smith. It begins with the succession of the Apostles after Joseph Smith's martyrdom, the building of the Nauvoo Temple, and the trek to the west of the Latter-day Saint pioneers. We follow them through Iowa, Winter Quarters, and on to Utah. We witness the colonization of the state of Deseret while the rest of the country suffered from Civil War. Then we follow events through the administrations of all of the 19th Century, 20th Century, and 21st Century prophets from John Taylor to Thomas S. Monson. We become familiar with the early lives, missions, marriages, and callings of each of these prophets, seeing how the Lord prepared them for the particular time that they led the Church. We finish with a look toward the future as we await the Second Coming of our Lord. The cover features a beautiful photograph of the Salt Lake Temple taken at dusk during the Christmas season from the roof of the Joseph Smith Memorial Building. **A Study Guide for Iris Murdoch's "Under the Net"** Gale, Cengage Learning, 2016-06-29 A Study Guide for Iris Murdoch's *Under the Net* excerpted from Gale's acclaimed *Novels for Students*. The practitioner uses specifically placed manual pressure that promotes normal movement, tone, and internal movement of the organs, their supporting structures, fascia, nerves, and blood vessels. The ultimate goal is improved health by allowing the body to perform and move optimally. Illustrated with nearly 100 instructional photos and anatomy drawings, *A Pathway to Health* begins with general information about visceral manipulation, describing the method, goals, philosophy, and history of the practice. The book also explains the evaluation process and what a patient can expect to experience during and following a treatment session. Author Alison Harvey covers each major structure of the body, including the organs, fascia, muscles, bones, and nerves, and discusses the causes of dysfunction. The second half of the book focuses on each system of the body, presenting physiological information and treatments, as well as case studies. Harvey also explores emotional issues and their effects on the body and gives an authoritative summary of current research in the field.
