For Love and Money: the Literary Art of the Harlequin Mills and Boon Romance Laura Vivanco, 2011-01-01 Laura Vivanco's study challenges the idea that Harlequin Mills Boon romances are merely mass produced commodities churned out in accordance with a strict and unchanging formula She argues that many are well written skilfully crafted works and that some are small masterpieces *For Love and Money* demonstrates the variety that exists beneath the covers of Harlequin Mills Boon romances They range from paranormal romances to novels resembling chick lit and many have addressed serious issues including the plight of post Second World War refugees threats to marine mammals and HIV AIDS The genre draws inspiration from Shakespearean comedies and Austen's novels as well as from other forms of popular culture Laura Vivanco's *For Love and Money* is an impressive study of the popular fiction of Harlequin Mills and Boon that is a must read for any student of popular fiction and for those who write and love the genre Liz Fielding author of over 50 Harlequin Mills Boon romances Deep learning wide reading and clear thinking are very much in evidence in Vivanco's exploration of HM B A welcome addition to popular romance criticism Professor Pamela Regis author of *A Natural History of the Romance Novel* Laura Vivanco's analysis of the category romance is both meticulous and inspiring And while Vivanco limits her examples and discussions to category romances by Harlequin Mills Boon and the HQN imprint her application of Frye's mimetic modes begs for expansion to texts and authors across the genre This piece of literary criticism should serve as a template for romance scholars to move from defending the genre to discussing its values and complexity as a literary art Maryann Wherry *Journal of Popular Romance Studies* **Canadiana**, 1991 *Reading the Romance* Janice A. Radway, 2009-11-18 Originally published in 1984 *Reading the Romance* challenges popular and often demeaning myths about why romantic fiction one of publishing's most lucrative categories captivates millions of women readers Among those who have disparaged romance reading are feminists literary critics and theorists of mass culture They claim that romances

enforce the woman reader's dependence on men and acceptance of the repressive ideology purveyed by popular culture. Radway questions such claims arguing that critical attention must shift from the text itself taken in isolation to the complex social event of reading. She examines that event from the complicated business of publishing and distribution to the individual reader's engagement with the text. Radway's provocative approach combines reader response criticism with anthropology and feminist psychology. Asking readers themselves to explore their reading motives, habits, and rewards, she conducted interviews in a midwestern town with forty-two romance readers whom she met through Dorothy Evans, a chain bookstore employee who has earned a reputation as an expert on romantic fiction. Evans defends her customers' choice of entertainment reading romances; she tells Radway is no more harmful than watching sports on television. "We read books so we won't cry" is the poignant explanation one woman offers for her reading habit. Indeed, Radway found that while the women she studied devote themselves to nurturing their families, these wives and mothers receive insufficient devotion or nurturance in return. In romances, the women find not only escape from the demanding and often tiresome routines of their lives but also a hero who supplies the tenderness and admiring attention that they have learned not to expect. The heroines admired by Radway's group defy the expected stereotypes; they are strong, independent, and intelligent. That such characters often find themselves to be victims of male aggression and almost always resign themselves to accepting conventional roles in life has less to do, Radway argues, with the women readers' fantasies and choices than with their need to deal with a fear of masculine dominance. These romance readers resent not only the limited choices in their own lives but the patronizing attitude that men especially express toward their reading tastes. In fact, women read romances both to protest and to escape temporarily the narrowly defined role prescribed for them by a patriarchal culture. Paradoxically, the books that they read make conventional roles for women seem desirable. It is this complex relationship between culture, text, and woman reader that Radway urges feminists to address. Romance readers, she argues, should be encouraged to deliver their protests in the arena of actual social relations rather than to act them out in the solitude of the imagination. In a new introduction, Janice Radway places the book within the context of current scholarship and offers both an explanation and critique of the study's limitations.

Understanding Genre and Medieval Romance Kevin Sean Whetter, 2008. Unique in combining a comprehensive and comparative study of genre with a study of romance, this book constitutes a significant contribution to ongoing critical debates over the definition of romance and the genre and artistry of Malory's *Morte Darthur*. K. S. Whetter addresses the questions of how exactly romance might be defined and how such an awareness of genre impacts upon both the understanding and reception of the texts in question.

An Imperialist Love Story Amira Jarmakani, 2015-07-31. A curious figure stalks the pages of a distinct subset of mass market romance novels aptly called desert romances. Animalistic yet sensitive, dark and attractive, the desert prince or sheikh emanates manliness and raw sexual power. In the years since September 11, 2001, the sheikh character has steadily risen in popularity in romance novels, even while depictions of Arab

masculinity as backward and violent in nature have dominated the cultural landscape An Imperialist Love Story contributes to the broader conversation about the legacy of orientalist representations of Arabs in Western popular culture Combining close readings of novels discursive analysis of blogs and forums and interviews with authors Jarmakani explores popular investments in the war on terror by examining the collisions between fantasy and reality in desert romances Focusing on issues of security freedom and liberal multiculturalism she foregrounds the role that desire plays in contemporary formations of U S imperialism Drawing on transnational feminist theory and cultural studies An Imperialist Love Story offers a radical reinterpretation of the war on terror demonstrating romance to be a powerful framework for understanding how it works and how it perseveres

Paizis,1998-09-07 The popularity of romance fiction is such that it constitutes nearly one quarter of new paperback fiction printed in the world Its success depends on its ability to reflect and articulate the reader s aspirations for a better life and stands at the same time as a testament to her alienation This fresh look at the romantic fiction seeks to discover the reason for its appeal by combining analysis of the poetics of the genre with a study of the real reader s intervention *Love's Sweet Return* Margaret Ann Jensen,1984 Over one hundred twenty formula romance novels are churned out every month These romantic fantasies for women are big business and earn huge profits for the companies that publish them Love s weet Return examines the phenomenon of romance fiction focusing specifically on one of the most successful book publishers in the world the Canadian based Harlequin Enterprises Margaret Jensen details the rise of the company examines the Harlequin formula and evaluates the growth and impact of both Harlequin and its competition She also assesses recent shifts in the content of Harlequins particularly as they pertain to women s changing roles in society [The Routledge Research Companion to Popular Romance Fiction](#) Jayashree Kamblé, Eric Murphy Selinger, Hsu-Ming Teo, 2020-08-11 Popular romance fiction constitutes the largest segment of the global book market Bringing together an international group of scholars The Routledge Research Companion to Popular Romance Fiction offers a ground breaking exploration of this global genre and its remarkable readership In recognition of the diversity of the form the Companion provides a history of the genre an overview of disciplinary approaches to studying romance fiction and critical analyses of important subgenres themes and topics It also highlights new and understudied avenues of inquiry for future research in this vibrant and still emerging field The first systematic comprehensive resource on romance fiction this Companion will be invaluable to students and scholars and accessible to romance readers
