Value of the Social Sciences John D. Brewer, 2013-03-28 What is the purpose of social science How can social science make itself relevant to the intractable problems facing humanity in the twenty first century The social sciences are under threat from two main sources One is external reflected in a global university crisis that imposes the marketization of higher education on the ancient practice of scholarship The other internal threat is social science's withdrawal from publicly engaged teaching and research into the protective bunker of disciplinarity In articulating a vision for the public role of social science in the twenty first century John Brewer argues that these threats also constitute an opportunity for a new public
