Henry, 2016-04-15 Today American motorists can count on being able to drive to virtually any town or city in the continental United States on a hard surface That was far from being true in the early twentieth century when the automobile was new and railroads still dominated long distance travel Then the roads confronting would be motorists were not merely bad they were abysmal generally accounted to be the worst of those of all the industrialized nations The plight of the rapidly rising numbers of early motorists soon spawned a good roads movement that included many efforts to build and pave long distance colorfully named auto trails across the length and breadth of the nation Full of a can do optimism these early partisans of motoring sought to link together existing roads and then make them fit for automobile driving blazing marking grading draining bridging and paving them The most famous of these named highways was the Lincoln Highway between New York City and San Francisco By early 1916 a proposed counterpart coursing north and south

from Winnipeg to New Orleans had also been laid out. Called the Jefferson Highway it eventually followed several routes through Minnesota, Iowa, Missouri, Kansas, Oklahoma, Texas, Arkansas, and Louisiana. The Jefferson Highway, the first book on this pioneering road, covers its origin, history, and significance as well as its eventual fading from most memories following the replacement of names by numbers on long distance highways after 1926. Saluting one of the most important of the early named highways on the occasion of its 100th anniversary, historian Lyell D. Henry Jr. contributes to the growing literature on the earliest days of road building and long distance motoring in the United States. For readers who might also want to drive the original route of the Jefferson Highway, three chapters trace that route through Iowa, pointing out many vintage features of the roadside along the way. The perfect book for a summer road trip.

Barns of the Midwest Allen G. Noble, Hubert G. H. Wilhelm, 2018-09-11. Originally published in 1995, *Barns of the Midwest* is a masterful example of material cultural history. It arrived at a critical moment for the agricultural landscape. The 1980s were marked by farm foreclosures, rural bank failures, the continued rise of industrialized agriculture, and severe floods and droughts. These waves of disaster hastened the erosion of the idea of a pastoral Heartland knit together with small farms and rural values. And it wasn't just an idea that was eroded; material artifacts such as the iconic Midwestern barn were also rapidly wearing away. It was against this background that editors Noble and Wilhelm gathered noted experts in history and architecture to write on the nature and meaning of Midwestern barns, explaining why certain barns were built as they were, what types of barns appeared where, and what their functions were. Featuring a new introduction by Timothy G. Anderson, *Barns of the Midwest* is the definitive work on this ubiquitous but little studied architectural symbol of a region and its history.

Recovering the Prairie Robert F. Sayre, 1999. Americans in ever increasing numbers are rediscovering the prairie. This vast inland sea of grasses, buried for a hundred years beneath farms, cities, and suburbs, has endured not only in physical remnants but also in the memories of its settlers and their descendants. The books of prairie authors and the work of prairie artists, as restoration ecologists and amateur prairie preservationists recover the land, this book recovers the prairie of the American imagination, past, present, and future. Beautifully illustrated with the work of sixteen contemporary prairie artists, *Recovering the Prairie* celebrates and examines the perspectives of artists, writers, native peoples, ecologists, and landscape architects. Willa Cather, Aldo Leopold, Jens Jensen, Alexander Gardner, and many others who recognized the unique beauty of the prairie. And this volume brings together people from many fields to consider the connections between aesthetics and economics, landscape and culture, politics and ethics as illustrated by the prairie in American civilization. Contributors and artists include Robert Adams, Lee Allen, Roger Brown, James D. Butler, Pauline Drobney, Fred Eaker, Terry Evans, Ed Folsom, Lance M. Foster, Harold L. Gregor, Robert E. Grese, Walter Hatke, Harold D. Holoun, Stan Hurd, Gary Irving, Wes Jackson, Keith Jacobshagen, Joni L. Kinsey, Stuart Klipper, Aldo Leopold, Tom Lutz, Curt Meine, Genie H.
