Taking A Stand Against Nuclear War:

Disarming Domsday Becky Alexis-Martin, 2019-05-20 Winner of the L H M Ling Outstanding First Book Prize 2020 Shortlisted for the Bread and Roses Award 2020 Since the first atomic bomb exploded over Hiroshima the history of nuclear warfare has been tangled with the spaces and places of scientific research and weapons testing armament and disarmament pacifism and proliferation Nuclear geography gives us the tools to understand these events and the extraordinary human cost of nuclear weapons Disarming Domsday explores the secret history of nuclear weapons by studying the places they build and tear apart from Los Alamos to Hiroshima It looks at the legacy of nuclear imperialism from weapons testing on Christmas Island and across the South Pacific as well as the lasting harm this has caused to indigenous communities and the soldiers that conducted the tests For the first time these complex geographies are tied together Disarming Domsday takes us forward describing how geographers and geotechnology continue to shape nuclear war and perhaps help to prevent it

The Logic of Humanitarian Arms Control and Disarmament Nik Hynek, Anzhelika Solovyeva, 2020-11-10 This novel and original book examines and disaggregates theoretically and empirically operations of power in international security regimes These regimes varying in degree from regulatory to prohibitory are understood as sets of normative discourses political structures and dependencies anarchies hierarchies and heterarchies and agencies through which power operates within a given security issue area with a regulatory effect In International Relations regime analysis has been dominated by several generations of regime theory theorization As this book makes clear not only has the IR Regime Theory been of limited utility for security domain due to its heavy focus on economic and environmental regimes but it too heuristically suffered from its rigid pegging to general IR Theory It is not surprising then that the evolution of IR Regime Theory has largely been mirroring the evolution of IR Theory in general from the neo realist neo liberal institutionalist convergence regime theory through cognitivism to constructivist regime theory The commitment of this book is to remedy this situation by bringing together robust power analysis and international security regimes It provides the reader with a theoretically and empirically uncompromising and comprehensive analysis of the selected international security regimes which goes beyond one or another school of IR Regime Theory In doing so it completely abandons existing and piecemeal analysis of regimes within the intellectual field of IR based on conventional grand mid range theorization

Community Service-Learning Rahima C. Wade, 1997-01-01 Presents a comprehensive resource for those interested in youth involvement in community service as part of the public school curriculum Just War Theory Jean Bethke Elshtain, 1992 Available Again Long before the shock and awe campaign against Iraq in March 2003 debates swarmed around the justifications of the U S led war to depose Saddam Hussein While George W Bush s administration declared a just

war of necessity opponents charged that it was a war of choice and even opportunism Behind the rhetoric lie vital questions when is war just and what means are acceptable even in the course of a just war Originally published in 1991 in the wake of the first war against Iraq Just War Theory explores this essential dilemma With a new preface by the editor the essays in this indispensable collection move beyond the theoretical origins of just war theory to examine issues faced by military strategists politicians social theorists and anyone concerned with the provocations and costs of military action Popular wisdom once claimed that notions of just war would become obsolete with the onset of total warfare characterized by attacks on civilians and indiscriminating weapons of mass destruction While the last decade has been ripe with brutality just war theory is more critical than ever to the future of international relations and public discourse This readable collection is an invaluable introduction to the debate

Five Risks Presbyterians Must Take for Peace Christian Iosso, 2017-09-30 Believing peacemaking to be an inherent part of discipleship Presbyterians have taken many valiant stands for peace throughout our history However changing global realities political and military actions and new weapons of war have made the world less safe than ever The church must reconsider how to be faithful peacemakers in this changing reality The Presbyterian Church recently spent six years reflecting on peacemaking Building on past policy documents people at all levels of the church studied and discussed what peacemaking policies needed to be modified given the world context today The 2016 PC USA General Assembly affirmed five affirmations the church must make to fulfill its peacemaking calling Those affirmations become risks when truly taken because their message collides with the demands for continued sacrifice by the powers that be In this timely resource author Christian Iosso explains what the five risks are how they differ from previous positions and what taking each risk might look like today Ideal for individual or group study this important resource includes questions for reflection and discussion

power *One Nation Underground* Kenneth D. Rose, 2001-08-01 Why some Americans built fallout shelters an exploration America's Cold War experience For the half century duration of the Cold War the fallout shelter was a curiously American preoccupation Triggered in 1961 by a hawkish speech by John F Kennedy the fallout shelter controversy to dig or not to dig as Business Week put it at the time forced many Americans to grapple with deeply disturbing dilemmas that went to the very heart of their self image about what it meant to be an American an upstanding citizen and a moral human being Given the much touted nuclear threat throughout the 1960s and the fact that 4 out of 5 Americans expressed a preference for nuclear war over living under communism what's perhaps most striking is how few Americans actually built backyard shelters Tracing the ways in which the fallout shelter became an icon of popular culture Kenneth D Rose also investigates the troubling issues the shelters raised Would a post war world even be worth living in Would shelter construction send the Soviets a message of national resolve or rather encourage political and military leaders to think in terms of a winnable war Investigating the role of schools television government bureaucracies civil defense and literature and rich in fascinating detail including a detailed tour of the vast fallout shelter in Greenbriar Virginia built to harbor the entire United States Congress in the event of nuclear armageddon *One Nation Underground* goes to the very heart of America's Cold War experience *Nuclear Strategy, Arms Control, And The Future* P. Edward Haley, 2019-03-05 Balanced and comprehensive in approach this text assembles classic statements on nuclear strategy and arms control made by Soviet and U S policymakers military thinkers and opinion leaders during the last forty years Major Soviet statements rarely appearing in translation reflect the disagreement over whether victory or parity is the goal *Peace Crimes* Kieran Finnane, 2020-08-04 At the closely guarded and secretive military facility Pine Gap in Australia's Northern Territory police arrest six nonviolent activists Their crime to step through a fence lamenting and praying for the dead of war They call themselves Peace Pilgrims The Crown calls them a threat to national security and demands gaol time Their political trials under harsh Cold War legislation tell a story of obsessive Australian secrecy about the American military presence on our soil and the state's hardline response to dissent In *Peace Crimes* Alice Springs journalist Kieran Finnane gives a gripping account of what prompts the Pilgrims to risk so much interweaving local events and their legal aftermath with this century's disturbing themes of international conflict and high tech war She asks what responsibilities do we have as Australians for the covert military operations of Pine Gap and what are we going to do about them **Living God's Politics** Jim Wallis, 2006-08-29 After fifteen weeks on the New York Times Bestseller list *God's Politics* not only changed the conversation about faith and politics in this country it began a movement All across the country wherever Jim Wallis spoke people were frustrated by tax cuts and budgets that widened the gap between rich and poor aggravated by the government's lack of response to natural disasters wearied of misinformation and the ongoing war in the Middle East and exasperated by the impractical political rhetoric about sexual abstinence in lieu of policies that would strengthen more broadly family values and community health Folks began asking what they could do to promote peace
