The Alexandra of Lycophron Charles McNelis,Alexander Sens,2016-06-24 This monograph is a literary study of Lycophron s Alexandra whose obscurity a quality notorious already in antiquity has long hampered holistic approaches Through a series of distinct but closely integrated literary studies of major aspects of the poem including its style its engagement with the traditions of epic and tragedy and it s treatment of heroism and of the gods the book explores the way the Alexandra reconfigures Greek mythology In particular as it is presented in Homeric epic and Athenian tragedy in order to cast the Romans and their restoration of Trojan glory as the ultimate telos of history In this sense the poem emerges as an important intermediary between Homeric epic and Latin poetry particularly Vergil s Aeneid By rewriting specific features of the epic and tragic traditions the Alexandra denies to Greek heroes the glory that was the traditional compensation for their suffering while at the same time attributing to Cassandra s Trojan family honours framed in the traditional language of Greek heroism In this sense the figure of Cassandra a prophetess traditionally gifted with the power of foresight but denied credibility self reflexively serves as a vehicle for exploring the potentials and limitations of poetry
