Taking Care Understanding And Encouraging Self Protective Behavior:

Taking Care Neil D. Weinstein, 1987-08-13 The reasons why people take precautions and why they don't are examined by experts from a wide range of fields who explore the theoretical and practical issues involved in understanding self protective behavior *Determinants of High Risk Sexual Behavior* Harry Drasin, 2000-12 AIDS has become a ubiquitous disease of catastrophic proportions In this sex study included as part of the Advocate magazine in 1994 attitudes and sexual activities of 13 000 gay men nationwide were surveyed A set of research hypotheses were made these were that there would be a relationship between various sociodemographic interpersonal and relational substance use sexual experiential and health care variables and high risk sexual behavior Some of these hypotheses were confirmed while others were not The particular value of this study is that it was nationwide contained large numbers of participants and large numbers of variables included all sizes of metropolitan areas and specifically defined high risk sexual activity While many of the results confirm previous studies the constellation and clustering of results perhaps points to issues larger than HIV and high risk sexual behaviors alone issues that are fundamentally societal It is hoped that basic societal changes in attitudes towards gay men and women will reduce the isolation loneliness and feelings of being different that may well underlie the high rates of drug use and the meaning of the nature of sexual activity that is often present in gay community It is at this fundamental societal level that progress against AIDS will need to proceed *The Phoenix of Natural Disasters* Kathryn Gow, Douglas Paton, 2008 This book encompasses discussions between Kathryn Gow and Douglas Paton both psychologists who have researched stress burnout trauma and recovery in natural disasters They suggest that few books have been written for health professionals and persons directly involved with leading and managing emergency teams on what constitutes resilience in individuals and groups in communities and how they differ in response and recovery The outcome is a three part book with contributors from the field research institutions emergency service sectors support agencies and the media Its main purpose is to focus on the resilience of people and communities following NDs and to educate the sectors already involved in natural disasters **Impersonal Influence** Diana C. Mutz, 1998-11-28 People's perceptions of the attitudes and experiences of mass collectives are an increasingly important force in contemporary political life In *Impersonal Influence* Mutz goes beyond simply providing examples of how impersonal influence matters in the political process to provide a micro level understanding of why information about distant and impersonal others often influence people's political attitudes and behaviors *Impersonal Influence* is worthy of attention both from the standpoint of its impact on contemporary politics and because of its potential to expand the boundaries of our understanding of social influence processes and media's relation to them The book's conclusions do not exonerate media from the effects of inaccurate portrayals of collective experience or opinion but they suggest that the ways in which people are influenced by these perceptions are in themselves not so much deleterious to democracy as absolutely necessary to promoting accountability in a large scale society **Health Care in America** John C.

Burnham,2015-05-15 A comprehensive history of sickness health and medicine in America from Colonial times to the present In Health Care in America historian John C Burnham describes changes over four centuries of medicine and public health in America Beginning with seventeenth century concerns over personal and neighborhood illnesses Burnham concludes with the arrival of a new epoch in American medicine and health care at the turn of the twenty first century From the 1600s through the 1990s Americans turned to a variety of healers practices and institutions in their efforts to prevent and survive epidemics of smallpox yellow fever cholera influenza polio and AIDS Health care workers in all periods attended births and deaths and cared for people who had injuries disabilities and chronic diseases Drawing on primary sources classic scholarship and a vast body of recent literature in the history of medicine and public health Burnham finds that traditional healing care and medicine dominated the United States until the late nineteenth century when antiseptic aseptic surgery and germ theory initiated an intellectual social and technical transformation He divides the age of modern medicine into several eras physiological medicine 1910s 1930s antibiotics 1930s 1950s technology 1950s 1960s environmental medicine 1970s 1980s and beginning around 1990 genetic medicine The cumulating developments in each era led to today s radically altered doctor patient relationship and the insistent questions that swirl around the financial cost of health care Burnham s sweeping narrative makes sense of medical practice medical research and human frailties and foibles opening the door to a new understanding of our current concerns

Using Communication Theory Swen Windahl,Benno Signitzer,Jean T Olson,1992-01-09 This broad ranging textbook provides a clear and comprehensive introduction to using communication theory in real life communication activities Planned communication both interpersonal and through the mass media is a standard facet of modern life It is as evident in public health campaigns on smoking drugs or AIDS as in commercial advertising and public relations This textbook outlines how such communication can be informed by an understanding of the theories of communication that have evolved over the last thirty years How are ideas diffused through the mass media and other channels of communication How does the audience read a message What is known about the impact of different ways of handling a communication ca

Social Science to Improve Fuels Management ,2005 **Mutual Fund Investment by Salaried Investors: Identifying the Determinants** Dr. Sujit Deb, Dr. Ranjit Singh,2018-06-14 Mutual fund investment by salaried investors Identifying the determinants is a book which attempts to throw light upon the determinants of mutual fund investment among the salaried investors It is well known fact that salaried class in India posses some unique characteristics which place them in a different category than that of other investors This book address the issues directly associated with the salaried investors Of late a lot of research work is going on in the field of behavioural finance This book is simply an extension of the work in the field of behavioural finance especially the areas which deal with respect to investment in mutual fund Studies in the area of behavioural finance especially related to the mutual fund investment is gaining momentum in India and hence teaching and research in this field is also increasing There is dearth of good book on this issue

This book is expected to fill up that gap The book is expected to make the lives of teachers students and researchers relatively easier The knowledge received from this book will go a long way in shaping the future of education of behavioural finance in India Promoting the Health of Adolescents Elena O. Nightingale,1993 Chronic diseases and premature death can often be linked to social environmental and behavioral factors that are subject to modification especially during adolescence when many habits both good and bad are formed In order to effectively encourage good health related behaviors among adolescents health providers need an integrated understanding of the many factors involved This volume fills that need by providing the most comprehensive up to date review of the pertinent issues including in depth discussions on adolescent sexuality substance abuse the future of adolescent health promo **Public Health Reports** ,1991 Applied Social Psychology Gün R Semin,Klaus Fiedler,1996-05-28 This comprehensive and accessible textbook overviews the applications of social psychology to a wide range of problems and issues in contemporary society With internationally respected contributors who survey the major developments in their fields this practical guide incorporates advice examples and reading lists The first part of the book outlines a number of general frameworks that inform the applications of social psychology namely language attitudes decision making and survey research Part Two focuses on major behavioural domains including health and economic behaviour Part Three explains the relationship between social psychology and social institutions highlighting for instance the media law and politics and the final part addresses the broader social and cultural implications of contemporary social psychology covering such key concerns as violence ageing and cross cultural questions

The Perception of Risk Paul Slovic,2016-10-06 The concept of risk is an outgrowth of our society s great concern about coping with the dangers of modern life The Perception of Risk brings together the work of Paul Slovic one of the world s leading analysts of risk risk perception and risk management to examine the gap between expert views of risk and public perceptions Ordered chronologically it allows the reader to see the evolution of our understanding of such perceptions from early studies identifying public misconceptions of risk to recent work that recognizes the importance and legitimacy of equity trust power and other value laden issues underlying public concern *Handbook of Consumer Psychology* Curtis P. Haugtvedt,Paul M. Herr, Frank R. Kardes,2018-12-07 This Handbook contains a unique collection of chapters written by the world s leading researchers in the dynamic field of consumer psychology Although these researchers are housed in different academic departments ie marketing psychology advertising communications all have the common goal of attaining a better scientific understanding of cognitive affective and behavioral responses to products and services the marketing of these products and services and societal and ethical concerns associated with marketing processes Consumer psychology is a discipline at the interface of marketing advertising and psychology The research in this area focuses on fundamental psychological processes as well as on issues associated with the use of theoretical principles in applied contexts The Handbook presents state of the art research as well as providing a place for authors to put forward suggestions for future

research and practice The Handbook is most appropriate for graduate level courses in marketing psychology communications consumer behavior and advertising **Reflections on Contemporary Life** Reza Noubary, 2019-07-29 It all started around sixty years ago when a young boy witnessed an earthquake that caused detrimental harm to an innocent community The unfortunate event left a deep impression on him He couldn't forget that when he would ask about it he would only be told that they must have done something bad to anger the god Even though he was still young he did not find the answer convincing He then devoted almost all his waking moments to thinking about and making sense of what happened that day He wondered what could have been done to prevent it leaving him in a disarray of thoughts This became a stimulant for his inquisitive mind and an incentive to strive to understand disaster like events In the case of earthquakes his struggle resulted in two books and more than fifty research articles The present book reflects the boy's who is now an old man life experiences and from looking at the world around him as an insider outsider majority minority winner loser believer denier single married student teacher son father grandfather uncle friend and enemy His quest for finding answers to his many questions led him to live and work in places such as Belgium England Germany Italy Iran and the United States In his past journey he had to deal with a hard childhood poverty health issues both physical and mental revolution war shortage pain and suffering around him and the stress of learning different languages and adjusting to different cultures Through these hardships he learned a great deal about the dynamic aspects of life and the changes that take place accordingly The book reflects all this together with his multicultural background and views on topics such as social values living faith mathematics sports and health
