Taking Leave Nagle Jackson, 2000 THE STORY In the middle of the night Eliot Pryne professor of English Literature specialty Shakespeare is packing what he thinks is a suitcase and leaving what he thinks is a hotel In the early stages of Alzheimer s disease he is taking leave *Taking Leave of Abraham* Troels Norager, 2008-12-31 Abraham s intention to sacrifice his son on God s command symbolizes the violent potential of authoritarian religion The contemporary resurgence of radically conservative and fundamentalist religion raises the question whether this kind of God relation is compatible with a commitment to liberal democracy In this timely and original book Troels Nager provides an answer by integrating insights from philosophy of religion and political philosophy In Part One Nager surveys the interpretive history of Genesis 22 focusing in particular on Kierkegaard s ingenious attempt to save Abraham and his unquestioning faith In Part Two drawing on eminent thinkers like Rawls and Habermas Nager argues that while religion can be accorded an important role in the public square each religion and each believer must learn to appreciate that in a pluralist society the political government legal system and public administration is neutral towards religion and ultimately guided by secular reason Taking Leave of Abraham is a call to embrace our post secular modernity without surrendering to the demands of authoritarian religion

Balancing the Big Stuff Miriam Liss, Holly H. Schiffrin, 2014-08-07 While the current conversation about work family balance and having it all tends to focus on women both men and women are harmed when conditions make it impossible to balance meaningful work with family life Yet both will benefit from re evaluating what it means to have it all and fighting for changes in their relationships and society to make greater equality possible Here Miriam Liss and Holly Hollomon Schiffrin discuss the ways in which we all define having it all and how we can obtain it for ourselves through a better evaluation of what we want from ourselves our families our jobs and each other Determining a 50 50 division of labor around the house may not be the thing that works for everyone Working from home or not at all may not be the thing to bring us satisfaction but learning what studies show and how to feel balanced and make those decisions to bring balance is crucial The authors argue that people can find balance in their roles by doing things in moderation Although being engaged in both parenting and work is good for well being people can avoid the pitfalls of over parenting and over working They show that balance can come from a meaningful consideration of what happiness and contentedness mean to us as individuals and how best to achieve our goals within the limitations of our current circumstances They illustrate that balance is not simply an individual problem Social issues such as the lack of parental leave flexible work schedules and affordable high quality child care make balance difficult With attention now on the issue they argue that it s time men and

women advocate for better services and better opportunities to achieve balance happiness and success in all their roles

Subcommittee on Human Resources,2001 **Exempting Certain Officials from the Annual and Sick Leave Act of 1951 Hearings ... H.R. 4039 Mar. 31 and Apr. 1, 1953.(83-1)** United States. Congress. House. Cohen,Joshua D. Wright,2011-01-01 Those not learned in the economic arts believe that economics is either solely or essentially concerned with commercial relations And so it was originally Then in the second half of the 20th century economists began applying their minimalist but sturdy tools to other human activities such as marriage child bearing crime religion and social groups In this spirit the Research Handbook on the Economics of Family Law gives us a series of original essays by distinguished scholars in economics law or both The essays represent a variety of approaches to the field Many contain extensive surveys of the literature with respect to the particular question they address Some employ empirical economics others are more narrowly legal They have in common one thing each scholar employs a core economic tool or insight to shed light on some aspect of family law and social institutions broadly understood Topics covered include divorce child support infant feeding abortion access prostitution the decline in marriage birth control and incentives for partnering This comprehensive and enlightening volume will be a valuable reference for those interested in law and economics generally and family law in particular **Cradle to Kindergarten** Ajay Chaudry,Taryn Morrissey,Christina Weiland,Hirokazu Yoshikawa,2021-03-25 Early care and education in the United States is in crisis The period between birth and kindergarten is a crucial time for a child s development Yet vast racial ethnic and socioeconomic disparities that begin early in children s lives contribute to starkly different long term outcomes for adults Compared to other advanced economies child care and preschool in the U S are scarce prohibitively expensive and inadequate in quality for most middle and low income families To what extent can early life opportunities provide these children with the same life chances of their affluent peers and contribute to reduced social inequality in the long term and across generations The updated second edition of Cradle to Kindergarten offers a comprehensive evidence based strategy that diagnoses the obstacles to accessible early education and charts a path to opportunity for all children The U S government invests less in children under the age of five than do most other developed nations Most working families must seek private child care but high quality child care options are expensive relative to the means of most families This means that children from lower income households who would benefit most from high quality early education are the least likely to attend them Existing policies such as pre kindergarten in some states are only partial solutions and what exists varies tremendously in terms of access and quality To address these deficiencies the authors propose to overhaul the early care and education system beginning with a federal paid parental leave policy that provides both mothers and fathers with time and financial support after the birth of a child They also advance an expansion

of the child care tax credit and a new child care assurance program that provides grant assistance towards the cost of high quality early care for low and moderate income families Their plan establishes universal high quality early education in the states starting by age three and a reform of the Head Start program that would include more intensive services for families living in areas of concentrated poverty and experiencing multiple adversities from the earliest point in these most disadvantaged children s lives They conclude with an implementation plan and contend that these reforms are attainable well within a ten year timeline Reducing educational and economic inequalities requires that all children have robust opportunities to learn and fully develop their capacities and have a fair shot at success Cradle to Kindergarten presents a blueprint for fulfilling this promise by expanding access to educational and financial resources at a critical stage of child development
