Disease and Democracy Peter Baldwin, 2005-05-16 A historical masterpiece Just when we thought we knew everything about the politics and policies of the HIV AIDS pandemic Peter Baldwin surprises us with innovative insights about the sharp differences in policy among countries as well as complex tradeoffs between civil liberties and public goods This is a refreshing and readable book in which AIDS is used as a lens to understand the public health enterprise ranging from leprosy and syphilis to tuberculosis and SARS Baldwin offers a deeply historical and comparative understanding of HIV in the industrialized world Lawrence O Gostin author of Public Health Law Power Duty Restraint Although a vast literature has emerged to chronicle and reflect on the history of the AIDS epidemic since it was first reported almost a quarter of a century ago there is nothing like Peter Baldwin's probing and synthetic analysis of AIDS in the industrialized world Building on his masterful Contagion and the State in Europe 1830 1930 Baldwin has provided a complex historical tapestry of how an epidemic threat has challenged and exposed democracies that thought infectious threats a thing of the past Ronald Bayer author of Private Acts Social Consequences Aids and the Politics Of Public Health and coauthor with Gerald Oppenheimer of AIDS Doctors Voices from the Epidemic *Treatments* Lisa Diedrich, Creative expression inspired by disease has been criticized as a celebration of victimhood unmediated personal experience or just simply bad art Despite debate however memoirs written about illness particularly AIDS or cancer have proliferated since the late twentieth century and occupy a highly influential place on the cultural landscape today In *Treatments* Lisa Diedrich considers illness narratives demonstrating that these texts not only recount and interpret symptoms but also describe illness as an event that reflects wider cultural contexts including race gender class and sexuality Diedrich begins this theoretically rigorous analysis by offering examples of midcentury memoirs of tuberculosis She then looks at Susan Sontag's *Illness As Metaphor* Audre Lorde's *The Cancer Journals* and Eve Kosofsky Sedgwick's *White Glasses* showing how these breast cancer survivors draw on feminist health practices of the 1970s and also anticipate the figure that would appear in the wake of the AIDS crisis in the 1980s the politicized patient She further reveals how narratives written by doctors Abraham Verghese and Rafael Campo about treating people with AIDS can disrupt the doctor patient hierarchy and she explores practices of witnessing that emerge in writing by Paul Monette and John Bayley Through these records of intensely personal yet universal experience Diedrich demonstrates how language both captures and fails to capture these scenes of loss and how illness narratives affect the literary medical and cultural contexts from which they arise Finally by examining the ways in which the sick speak and are spoken for she argues for an ethics of failure the revaluation of loss as creating new possibilities for how we live and die Lisa Diedrich is assistant professor of women's studies at Stony Brook University **The Authentic Historical Memoirs of Louis Charles, Prince-royal, Dauphin of France, Second Son of Louis XVI. and Marie Antoinette, Who, Subsequently to October 1793, Personated Through Supposititious Means, Augustus Meves** Augustus Antoine
