Understanding Abnormal Child Psychology Vicky Phares, 2020-09-09 In

Understanding Abnormal Child Psychology students will learn about both normative and abnormal development throughout children's lives. Consistent with previous editions, several themes run throughout the book: Developmental psychopathology; Children's and adolescents' behaviors are on a continuum from very adaptive to very maladaptive, with only the very severe ends of the spectrum being conceptualized as disorders; Diversity, inclusion, and understanding. Special attention is given to issues of race, ethnicity, gender, family constellation, religious orientation, primary language, socioeconomic status, and physical differences to help students see the commonalities and differences of abnormal child behavior within a cross-cultural and international context. New to the 4th edition: Completely revised in both structure and content to reflect the DSM-5; Increase coverage of risk factors related to long-term effects of sexual abuse and bullying; Increased coverage of diversity to include new diversities that have emerged as important, i.e., transgender children; New research on suicide and suicide prevention.

Taking Sides Carol Levine, 1995 **Life and Loss** Linda Goldman, 2021-08-04 For decades *Life and Loss* has been the book clinicians have relied on for a full and nuanced presentation of the many issues with which grieving children grapple as well as an honest exploration of the interrelationship between unresolved grief, educational success, and responsible citizenry. This classic edition, which includes a new preface from the author, brings this exploration firmly into the twenty-first century and makes a convincing case that children's grief is no longer restricted only to loss-identified children. Children's grief is now endemic; it is global. *Life and Loss* is not just the book mental health professionals need to understand grief in the twenty-first century; it's the book they need to work with grief in a practical and constructive way. **Taking Sides** Robert Louis DelCanto, Diana S. DelCanto, 1998 **Social Seduction** SHARON TETILA COX, 2015-10-27 The stories in this book are about ordinary everyday human beings as we are each challenged and often socially seduced: biologically, psycho-socially, spiritually, and economically as biopsychosocial and spiritual beings. These are also riveting true stories of the biopsychosocial and spiritual being who demonstrates the courage to stand strong during challenges of social seduction, not just for oneself but also for others. Many of us muster up the courage to do the things that are right according to our spiritual faith, which for me includes my Christian ethics, meaning even when we do not necessarily feel like doing them. We find the courage to not do the things we're being hedonistically enticed or seduced into doing when we know it's not morally right or against our practicing spiritual ethics, which clearly tells us not to do them. While many biopsychosocial and spiritual beings pray, some chant, others meditate, study, tarry, etc. Often this is based upon our individually unique beliefs and practices; we are allowed here in America. My Christian Ethics, however, are rooted in the Science of Biblical Hermeneutics, which truly empowers me with full armor and the sword of the spirit that sustains and keeps me steady, allowing me to maintain my inner peace in the midst of storms, including the ones shared in this book. *Society in Focus* William E. Thompson, Joseph V. Hickey, Mica L. Thompson, 2016-04-20 Examining the role of mass media and information technology in contemporary society, *Society in Focus* Eighth Edition emphasizes the increasing diversity and globalization of societies everywhere. It is designed to help

students think clearly and critically about sociological issues concepts and methods Questioning is at the heart of this approach and as students read this book they are encouraged to become part of the sociological enterprise rather than remain passive observers Every element of the text is designed to challenge students to evaluate social issues and guided by the sociological imagination to clearly formulate their own positions By asking questions that demand sociological and creative thought students are reminded that their conclusions and decisions as well as their non decisions and inaction may have important social consequences New to this edition New coauthor Mica Thompson an experienced teacher of introduction to sociology brings a fresh new perspective as well as a wide array of different life experiences to this edition of Society in Focus An expanded critical analysis in Chapter 1 introduces all forms of media and technology and every chapter examines an aspect of their powerful social influence Chapters 9 16 and 17 have been updated to include the most recent worldwide financial and economic developments to help explain globalization and cultural diversity Expanded application of feminist theory in every chapter to help students recognize the importance of gender diversity and the contributions of that theoretical perspective in sociology Updated and brand new boxes throughout encourage students to take a closer look at society and selected social issues
