The book cover features a traditional Japanese illustration. A blue river flows through a landscape of rolling hills and green trees. In the foreground, a white wooden veranda with a railing extends over a green lawn. Two figures in traditional courtly robes are seated on the veranda; one is looking towards the river, and the other is looking down. The background shows a large, stylized tree and a branch with pink blossoms. The overall style is reminiscent of traditional Japanese painting and woodblock prints.

**The Tale of Genji**, 2001 Unquestionably one of the world's greatest literary masterpieces and the finest achievement of classical Japanese prose narrative the Tale of Genji has provided endless inspiration for Japanese painters through the centuries Widely held to be the first novel its story of the amorous adventures of the shining prince Genji and of the elaborate and highly ordered court culture of the Heian era was written by Murasaki Shikibu shortly after AD 1000 Presented here is one of the most exquisite complete and beautifully preserved sets of illustrations of the tale The 54 images each illustrating one chapter date from the mid 17th century and were executed by an artist trained in the traditional Tosa school of painting Their small dimensions and lyrical colours call to mind the illuminated manuscripts of medieval Europe Roofs are entirely removed from houses to reveal small doll like figures within Delicate flowers and plants suggest the seasons of the year Surrounded by gilded clouds these graceful paintings shimmer with uncommon beauty and delicacy Miyeko Murase's introduction examines the paintings in detail while a commentary opposite each image describes the scene depicted

**The Practices of Painting in Japan, 1475-1500** Quitman E. Phillips, 2000 This book attempts to expand the grounds and methodology of studying Japanese art history by focusing on the conditions procedures events and social interplay that characterized the production of paintings in late fifteenth century Japan Though the book's ultimate concerns are art historical its analysis also draws heavily from the insights of sociology and social history At its core is a fresh examination of the major primary documents of the period in an attempt to liberate the study from assumptions long embedded in the historiography of late medieval Japanese painting history Early chapters describe documents methods basic sites and conditions of painting before turning to the main contribution of the book painting considered as a body of social practices The production of painting in the late fifteenth century was profoundly social dynamically related to the circumstances of its agents Painters advisors assistants clients and others did not exert themselves simply to bring paintings into existence They sought advantages such as wealth and prestige met obligations and satisfied the demands of custom Surviving documents from the period present rich evidence of the involvement of such persons in the imperial court the Ashikaya Gozan community the great temples of Nara and the halls of local lords The author takes into account the patterns of expectation that existed at the various sites but does not construe them as static and mechanically determined Rather he shows that expectations evolved in response to changed conditions Although this study specifically addresses the last quarter of the fifteenth century it can aid future research in Japanese painting practice in other eras by serving as a model of how new interpretations can emerge from close documentary investigation

**A Poetics of Courtly Male Friendship in Heian Japan** Paul Gordon Schalow, 2006-12-31 Western scholars have tended to read Heian literature through the prism of female experience stressing the imbalance of power in courtship and looking for evidence that women hoped to move beyond the constraints of marriage politics Paul Schalow's original and challenging work inherits these concerns about the transcendence of love and carries them into a new realm of inquiry the suffering of noblemen and the literary record of their

hopes for transcendence through friendship He traces this recurring theme which he labels courtly male friendship in five important literary works ranging from the tenth century Tale of Ise to the early eleventh century Tale of Genji Whether authored by men or women the depictions of male friendship addressed in this work convey the differing perspectives of male and female authors profoundly shaped by their gender roles in the court aristocracy Schalow's analysis clarifies in particular how Heian literature articulates the nobleman's wish to be known and appreciated fully by another man
