Before the twentieth century Japanese religious and cultural life was shaped by a variety of yearly ceremonies, festivals, and customs. These annual events, *nenju gyoji*, included Shinto festivals in which participants danced through the night to boisterous music and Buddhist temple practices that honored deities, great priests, or temple founders with solemn rituals and prayers, and sometimes when the Buddha was invoked, raucous dancing. Temples also hosted popular fairs where holy objects and artwork were displayed to the faithful and curious. Countless other celebrations were held annually at the residences of the nobility and military elite and at commoner domiciles. Kyoto, the imperial and cultural capital since the eighth century, was the center of many of these events. From Kyoto, festivals, rituals, and celebrations diffused to other parts of the land, ultimately shaping religious, artistic, and everyday life as a whole. By the seventeenth century, the Kyoto public wished to inform itself more accurately about *nenju gyoji* and their dates and meanings. As a result, a growing number of guidebooks and almanacs were written and published for the urban populace. This volume is the first to present translations of two such publications. Introductory chapters explain Japanese conceptions of time and space within which annual celebrations took place and outline how ceremonies and festivals in and about Kyoto were chronicled, described, and interpreted from the earliest times to the seventeenth century. The final two chapters offer annotated translations of writings from the seventeenth century that catalogue and describe the dates, sites, meanings, and histories of many Kyoto annual events. The two works, one largely historical, the other more ethnographic in nature, indicate not only when and where observances and commemorations took place but also how their authors understood the significance of each. Both translations feature a large number of illustrations depicting events as they appeared in Kyoto at the time. **Yoshiwara** Cecilia Segawa Seigle, 1993-03-01. Drawing on both historical and literary sources, examines life in the pleasure houses of Japan during the Edo period from the early 1600s to 1868. Among the topics are the origins, illegal competitors, the cost of a visit, the treatment of the courtesans, traditions and protocols. Yoshiwara arts. *Grammar in Use across Time and Space*

Misumi Sadler,2007-11-06 This monograph contains the first systematic investigation of the Japanese dative subject construction across time and space It demonstrates that in order to capture what speakers writers know about how to put an utterance or a clause together it is necessary to pay attention to what they do in actual language use and in different discourse types The work also shows the importance of diachronic perspectives to help us better understand the ways in which a particular grammatical structure is represented synchronically By utilizing modern Japanese conversation contemporary Japanese novels and a pre modern and modern Japanese literature corpus the study highlights the role of dative subjects at the semantic and discourse pragmatic levels Specifically it demonstrates that what has been considered to be a most grammatical aspect of Japanese actually turns out to be rather pragmatically oriented *Currents in Japanese Culture* Amy Vladeck Heinrich,1997 These twenty nine original essays focuses on how cultural and literary genres and norms have developed in response to historical and cross cultural influences **The Cambridge Global History of Fashion:**

**Volume 1** Christopher Breward,Beverly Lemire,Giorgio Riello,2023-08-17 Explores how the long history of fashion from antiquity to c 1800 created global networks and animated world communities **Imagining Exile in Heian Japan** Jonathan Stockdale,2015-02-28 For over three hundred years during the Heian period 794 1185 execution was customarily abolished in favor of banishment During the same period exile emerged widely as a concern within literature and legend in poetry and diaries and in the cultic imagination as expressed in oracles and revelations While exile was thus one sanction available to the state it was also something more a powerful trope through which members of court society imagined the banishment of gods and heavenly beings of legendary and literary characters and of historical figures some transformed into spirits This compelling and well researched volume is the first in English to explore the rich resonance of exile in the cultural life of the Japanese court Rejecting the notion that such narratives merely reflect a timeless literary archetype Jonathan Stockdale shows instead that in every case narratives of exile emerged from particular historical circumstances moments in which elites in the capital sought to reveal and to re imagine their world and the circulation of power within it By exploring the relationship of banishment to the structures of inclusion and exclusion upon which Heian court society rested Stockdale moves beyond the historiographical discussion of center and margin to offer instead a theory of exile itself Stockdale s arguments are situated in astute and careful readings of Heian sources His analysis of a literary narrative the Tale of the Bamboo Cutter for example shows how Kaguyahime s exile from the Capital of the Moon to earth implicitly portrays the world of the Heian court as a polluted periphery His exploration of one of the most well known historical instances of banishment that of Sugawara Michizane illustrates how the political sanction of exile could be met with a religious rejoinder through which an exiled noble is reinstated in divine form first as a vengeful spirit and then as a deity worshipped at the highest levels of court society *Imagining Exile in Heian Japan* is a model of interdisciplinary scholarship that will appeal to anyone interested in the interwoven connections among the literature politics law and religion of early and classical Japan

Rewriting Medieval Japanese Women Christina Laffin, 2013-01-31 *Rewriting Medieval Japanese Women* explores the world of thirteenth century Japan through the life of a prolific noblewoman known as Nun Abutsu 1225-1283. Abutsu crossed gender and genre barriers by writing the first career guide for Japanese noblewomen, the first female authored poetry treatise, and the first poetic travelogue by a woman, all despite the increasingly limited social mobility for women during the Kamakura era (1185-1336). Capitalizing on her literary talent and political prowess, Abutsu rose from middling origins and single motherhood to a prestigious marriage and membership in an esteemed literary lineage. Abutsu's life is well documented in her own letters, diaries, and commentaries, as well as in critiques written by rivals, records of poetry events, and legal documents. Drawing on these and other literary and historiographical sources, including *The Tale of Genji*, author Christina Laffin demonstrates how medieval women responded to institutional changes that transformed their lives as court attendants, wives, and nuns. Despite increased professionalization of the arts, competition over sources of patronage, and rivaling claims to literary expertise, Abutsu proved her poetic capabilities through her work and often used patriarchal ideals of femininity to lay claim to political and literary authority. *Rewriting Medieval Japanese Women* effectively challenges notions that literary salons in Japan were a phenomenon limited to the Heian period (794-1185) and that literary writing and scholarship were the domain of men during the Kamakura era. Its analysis of literary works within the context of women's history makes clear the important role that medieval women and their cultural contributions continued to play in Japanese history.

Reflecting the Past Erin L. Brightwell, 2022-03-07 *Reflecting the Past* is the first English language study to address the role of historiography in medieval Japan, an age at the time widely believed to be one of irreversible decline. Drawing on a decade of research, including work with medieval manuscripts, it analyzes a set of texts, eight *Mirrors*, that recount the past in an effort to order the world around them. They confront rebellions, civil war, China's attempted invasions, and even the fracturing of the court into two lines. To interrogate the significance for medieval writers of narrating such pasts as a *Mirror*, Erin Brightwell traces a series of innovations across these and related texts that emerge in the face of disorder. In so doing, she uncovers how a dynamic web of evolving concepts of time, place, language use, and cosmological forces was deployed to order the past in an age of unprecedented social movement and upheaval. Despite the *Mirrors'* common concerns and commitments, traditional linguistic and disciplinary boundaries have downplayed or obscured their significance for medieval thinkers. Through their treatment here as a multilingual, multi-structured genre, the *Mirrors* are revealed, however, as the dominant mode for reading and writing the past over almost three centuries of Japanese history.
